Worksheet for Technical Review of Working Draft of Proposed Permit

Company Name:	**Deltech Corporation**	**AI #:**	**248**	**TEMPO Activity No:**	**PER20070001**
Facility Name:	**Deltech Facility**	**Remarks Submitted by:**	**Tim Kane**		
Permit Writer:	**Maria F. Cuadra**	**Permit Writer Email address:**	maria.cuadra@la.gov		

Instructions

Permit Reference – Indicate specific portion(s) of the permit to which the remark relates (i.e. "Specific Condition 120", or "Section II Air Permits Briefing Sheet", etc.).

Remarks – Explain the basis for each remark. Provide regulatory citations where possible. If the remark is made due to an error or omission in the permit application this must be noted and the revised information ***must be submitted.*** Revised information may be submitted separately from this worksheet. Please be aware that revised information must be submitted in writing and certified by the Responsible Official, and if necessary, by a Professional Engineer licensed in Louisiana. *Please Note:* New or additional equipment, processes or operating conditions not addressed in the original permit application will be addressed on a case-by-case basis. The Department reserves the right to address such changes in a separate permit action.

DEQ Response – ***DO NOT COMPLETE THIS SECTION.*** This section will be completed by Air Permits Division of DEQ, included in the proposed permit package and made available for public review during any required public comment period.

- Additional rows may be added as necessary.
- Completed Form shall be emailed to the Permit writer in MS Word compatible format within the deadline specified in the email notification.
- ***DO NOT USE THIS FORM TO SUBMIT COMMENTS DURING THE OFFICIAL PUBLIC COMMENT PERIOD.***

Permit Reference	Remarks	Air Permits Division Response (for official use only)
Stack Information Table	MD 019 is not included on this table.	Added row for MD 019 in the stack information table.
Relationships Table	T 10 Distillation Tower can vent to either PE 01 or PE 005. The relationship with PE 005 is not listed.	Made corrections in Table X and XI to clarify this.
Specific Requirements 23, 60, 67, 104, 108, 111, 119, 128	The recently revised Chapter 15 states that it is not applicable to single point sources that emit or have the potential to emit less than 5 tons per year. These sources all meet this limitation so Chapter 15 should not apply.	Removed Specific Requirements 23, 67, 104, 108, 111, 119, and 128. Kept Specific Requirement 60 since Boiler HB 507 has the potential to emit more than 5 tons per year.
Specific Requirement 191	This requirement should reference Subpart FFFF not Subpart G.	Corrected reference.
Specific Requirements 389 – 410 and 443 – 448	Deltech requests that a qualifier be added that these requirements only apply if Deltech constructs the project to produce TBEB and store isobutylene.	This is already addressed in page 2 of the Air Permits Briefing Sheet.
