## 1. Complete Grant Commitments On or Before Due Dates

| | | | |
|---|---|---|---|
| The Water Permits Division (WrPD) will complete all 2009-2010 LPDES / EPA PPG grant commitments by or before due dates. Progress will be monitored and reported monthly. The LDEQ web site will contain the PPG grant commitments.<br><br>The Work Plan standard for WrPD requires that all LPDES permits other than Priority Permits be at least 90% current at the end of the federal fiscal year (9/30/10). 100% of identified priority permits must be current at the end of the federal fiscal year. PPG grant requires semi-annual report to EPA. | Secretary's Ten-Point Plan | For more information on this project, please contact: | Status/Updates: |

**7. Complete Biosolids Master General**

| | | | |
|---|---|---|---|
| The WrPD will begin the development of a Biosolids Master General permit for facilities that send sewage sludge to permitted landfills. Progress will be monitored and reported monthly. | Secretary's Ten-Point Plan | For more information on this project, please contact: | Status/Updates: |

**8. Continue all Whole Effluent Toxicity Activities**

| | | | |
|---|---|---|---|
| The WrPD's revisions to its whole effluent toxicity permitting procedures have been implemented. During permit development, the previous five years' WET data will be evaluated using a predictive statistical procedure similar to that presented on pages 52-54 of EPA's *Technical Support Document for Water Quality-based Toxics Control* (EPA/505/2-90-001, Second Printing). If reasonable potential for WET is determined to exist based on that analysis or other available information, WET limits will be included in the permit. In all cases where WET limits are required based on this procedure permittees are granted up to 3 years to come into compliance. | Secretary's Ten-Point Plan | For more information on this project, please contact: | Status/Updates: |

## 9. Continue all Pretreatment Activities

| | | | |
|---|---|---|---|
| The WrPD will continue to operate an approved LPDES pretreatment program and will include permit requirements as appropriate. Each year, LDEQ will conduct audits on approximately 20% of the approved pretreatment programs and will report significant audit findings to EPA.<br><br>The WRPD has identified the CIUs which are not discharging to a POTW with a permitted pretreatment program and has begun implementing the July 31, 2007 guidance from EPA headquarters to pursue regulatory oversight in a timely, efficient manner. | Secretary's Ten-Point Plan | For more information on this project, please contact: | Status/Updates: |

## 10. Continue Implementing TMDLs in LPDES Permits

| | | | |
|---|---|---|---|
| The WrPD will continue to review, coordinate, and implement final TMDLs in LPDES Permits. Permits will continue to address all impairments based on the most recent approved 305(b)/303(d) integrated report. | Secretary's Ten-Point Plan | For more information on this project, please contact: | Status/Updates: |
| | N/A | Yvonne Baker<br>P: 225.219.3073<br>E: Yvonne.baker@la.gov | |

## 11. Water Quality Certification (WQC)

| | | | |
|---|---|---|---|
| Continue to review, issue, and coordinate water quality certifications in accordance with Section 401 of the Clean Water Act. Process all NODs within 30 days and issue all WQC decisions within 60 days after receipt of complete applications. | Secretary's Ten-Point Plan | For more information on this project, please contact: | Status/Updates: |

## 12. Review and Update All SOPs

| | | | |
|---|---|---|---|
| WrPD will review and update all Standard Operating Procedures (SOPs) at least every two years, post them in a timely fashion and write new SOPs for processes where no guidance currently exists. | Secretary's Ten-Point Plan | For more information on this project, please contact: | Status/Updates: |
| | N/A | Bruce Fielding<br>P: 225.219.3006<br>E: bruce.fielding@la.gov<br><br>Yvonne Baker<br>P. 225-219-3073<br>E. Yvonne.baker@la.gov | The WrPD has established 22 SOPs. Currently, 86.3% of SOPs are up-to-date. Two SOPs are anticipated to be updated in the near future bringing the percentage of up-to-date SOPs to 95.5%. |

## 13. EDMS Utilization and Review

| | | | |
|---|---|---|---|
| WrPD will review and update EDMS procedures and ensure all scanned documents are submitted to EDMS and electronically mailed to all other identified addressees according to established guidelines. | Secretary's Ten-Point Plan | For more information on this project, please contact: | Status/Updates: |

*** Designated Applications** = applications received from 09/05/08 to 09/04/09 for major modifications or new applications, including applications for existing facilities that have not ever had a permit. Does not include variances and exemptions. Includes NOIs for coverage under a general permit, except storm water general permits. Does not include renewals.

**** # of Applications to be Tracked** may slightly change during the year. Increases/decreases may occur due to discovering that an application does/does not meet the criteria for inclusion in this tracking. This is often not discovered until the technical review portion of the process. Thus, it is added to/removed from the pool of designated applications for tracking. Also, changes may occur due to adjustments in how actions were initially entered into TEMPO. This should be a declining trend as database clean-up activities have proven to be effective.

***** % of Applications with Final Action** is calculated using current quarter's # of applications to be tracked. Final Action includes: permits issued; permits denied; and applications withdrawn. These were issued within 300 processing days from application received date.
