Worksheet for Technical Review of Working Draft of Proposed Permit

Company Name:	**Ecological Tanks, Inc.**	**AI #:**	**28079**	**TEMPO Activity No:**	**PER20060001**
Facility Name:	**Ecological Tanks**	**Remarks Submitted by:**	**Karen Brignac, PPM Consultants, Inc.**		
Permit Writer:	**Tommy Menuet**	**Permit Writer Email address:**	**tommy.menuet@la.gov**		

Instructions

Permit Reference – Indicate specific portion(s) of the permit to which the remark relates (i.e. "Specific Condition 120", or "Section II Air Permit Briefing Sheet", etc.).

Remarks – Explain the basis for each remark. Provide regulatory citations where possible. If the remark is made due to an error or omission in the permit application this must be noted and the revised information ***must be submitted.*** Revised information may be submitted separately from this worksheet. Please be aware that revised information must be submitted in writing and certified by the Responsible Official, and if necessary, by a Professional Engineer licensed in Louisiana. *Please Note:* New or additional equipment, processes or operating conditions not addressed in the original permit application will be addressed on a case-by-case basis. The Department reserves the right to address such changes in a separate permit action.

DEQ Response – ***DO NOT COMPLETE THIS SECTION.*** This section will be completed by Air Permits Division of DEQ, included in the proposed permit package and made available for public review during the public comment period.

- Additional rows may be added as necessary.
- Completed Form shall be emailed to the Permit writer in MS Word compatible format within the deadline specified in the email notification.

Permit Reference	Remarks	Air Permits Division Response (for official use only)
Responsible Official	**Mr. Hubbard Donald is no longer the responsible official, the permit should be addressed to Mr. George Johnson.**	Corrected.
Air Permit Briefing Sheet, II.	**The permit application was submitted on January 20, 2006 not January 19, 2006.**	Application submitted on 01/20/06 but dated 01/19/06.
Air Permit Briefing Sheet, IX.	**The 7000 gallon resin tank is an insignificant activity as defined under LAC 33:III.501.A.3.**	In accordance with §63.5790, Subpart WWWW applies to each affected source. Per (b) affected sources include "HAP-containing materials storage" as defined in §63.5935. HAP storage includes resin tanks. Per LAC 33:III.501.B.5 "Any activity for which a federal applicable requirement applies is not insignificant, even if the activity meets the criteria below." Therefore this tank is not an insignificant activity.

Air Permit Briefing Sheet, XI.	**Under NSPS Subpart Kb, tanks are exempt if the capacity is less than 75 m3, not 40 m3 as stated in the note.**	Corrected.
General Information	**The ID number for both the Emission Inventory and the Toxic Emission Data Inventory should be 2160-00101, not 2160-0101.**	All corrections to the General Information sheet are to be directed to Mr. David Ferrand. See note at bottom of General Information sheet.
Specific Requirement 1	**There third paragraph should read 3MM lbs/yr of resin, not 325,000 lbs/yr of resin. It is listed correctly on the inventories page.**	Corrected.
Specific Requirements 34 through 39	**Ecological Tanks is covered by 40 CFR 63, Subpart WWWW. These requirements all list items that were required in the past. For example, the statement of basis clearly shows that Ecological Tanks complies with the ambient air standards.**	Specific Requirements 34 thru 37 were removed. Specific Requirements 38 and 39 needed for compliance with Ambient Air Standards.
Specific Requirements 44 through 48	**These requirements are superfluous as this source is already operating and is already covered under a Title V air permit.**	Chapter 51 requirements updated to reflect current regulations.
Specific Requirements 53 and 54	**These requirements contradict each other. Requirement 54 applies to this facility.**	Specific Requirement 53 was removed.
