Worksheet for Technical Review of Working Draft of Proposed Permit

Company Name:	**Plains Marketing, LP**	**AI #:156200**		**TEMPO Activity No:**	
Facility Name:	**Delcambre Terminal**	**Remarks Submitted by:**	**Michael J. Tarrillion on May 22, 2008**		
Permit Writer:	**Scott B. Pierce**	**Permit Writer Email address:**	**Scott.Pierce@LA.GOV**		

Instructions

Permit Reference – Indicate specific portion(s) of the permit to which the remark relates (i.e. "Specific Condition 120", or "Section II Air Permit Briefing Sheet", etc.).

Remarks – Explain the basis for each remark. Provide regulatory citations where possible. If the remark is made due to an error or omission in the permit application this must be noted and the revised information ***must be submitted.*** Revised information may be submitted separately from this worksheet. Please be aware that revised information must be submitted in writing and certified by the Responsible Official, and if necessary, by a Professional Engineer licensed in Louisiana. *Please Note:* New or additional equipment, processes or operating conditions not addressed in the original permit application will be addressed on a case-by-case basis. The Department reserves the right to address such changes in a separate permit action.

DEQ Response – ***DO NOT COMPLETE THIS SECTION.*** This section will be completed by Air Permits Division of DEQ, included in the proposed permit package and made available for public review during the public comment period.

- Additional rows may be added as necessary.
- Completed Form shall be emailed to the Permit writer in MS Word compatible format within the deadline specified in the email notification.

Permit Reference	Remarks	Air Permits Division Response (for official use only)
General Information, Related People	Add .com to email address for Troy Valenzuela. Add Warren Fusilier, same address, 7136464515 (WP), Air Permit Contact for and Warren Fusilier, same address, wdfusilier@paalp.com, Air Permit Contact for	Contact David Ferand, Environmental Assistance Division, at (225) 219-3247 for any changes to the "General Information" document.
Inventories	For EQT002, list Max. Operating Rate as 2450 bbl/hr and Normal Operating rate as 4.75 MMbbl/yr	Operating Rates were not included in the inventories section per the company's request for crude oil loading flexibility with enforceable limits on VOC emission instead of throughput.
Specific Requirements	Change Specific Condition No. 9 to: Crude oil throughput monitored by technically sound method continuously. (We have no way to directly monitor VOC emissions. VOC Emissions will be calculated monthly as required by Specific Condition No. 10 and reported annually as required by Specific Condition No. 8.)	Specific condition to monitor VOC has been changed to state "VOC, Total monitored by calculations monthly."
