# Worksheet for Technical Review of Working Draft of Proposed Permit

| | | | | | |
|---|---|---|---|---|---|
| **Company Name:** | **Turner Industries Group, LLC** | **AI #:** | | **TEMPO Activity No:** | |
| **Facility Name:** | **Coating Facility** | **Remarks Submitted by:** | **Billy Wolcott** | | |
| **Permit Writer:** | **Tommy Menuet** | **Permit Writer Email address:** | | | |

**Instructions**

**Permit Reference** – Indicate specific portion(s) of the permit to which the remark relates (i.e. "Specific Condition 120", or "Section II Air Permits Briefing Sheet", etc.).

**Remarks** – Explain the basis for each remark. Provide regulatory citations where possible. If the remark is made due to an error or omission in the permit application this must be noted and the revised information ***must be submitted.*** Revised information may be submitted separately from this worksheet. Please be aware that revised information must be submitted in writing and certified by the Responsible Official, and if necessary, by a Professional Engineer licensed in Louisiana. *Please Note:* New or additional equipment, processes or operating conditions not addressed in the original permit application will be addressed on a case-by-case basis. The Department reserves the right to address such changes in a separate permit action.

**DEQ Response** – ***DO NOT COMPLETE THIS SECTION.*** This section will be completed by Air Permits Division of DEQ, included in the proposed permit package and made available for public review during any required public comment period.

- Additional rows may be added as necessary.
- Completed Form shall be emailed to the Permit writer in MS Word compatible format within the deadline specified in the email notification.
- ***DO NOT USE THIS FORM TO SUBMIT COMMENTS DURING THE OFFICIAL PUBLIC COMMENT PERIOD.***

| Permit Reference | Remarks | Air Permits Division Response (for official use only) |
|---|---|---|
| **Specific Requirements 121** | **Usage can be maintained daily however, what is meant by continuous or weekly monitoring analyses. The calculations are completed on a monthly basis. Is this monitoring referring simply to daily usage tracking or calculations of emissions weekly? Calculations are performed monthly. Also, we are not familiar with the location West Yard Facility. Please clarify.** | **Air Permits Division may have sent the Specific Requirement portion of the tempo documents just prior to the most up to date version. The Specific Requirements in the current proposed permit addresses the concerns for Requirements 121 and 122.** |

| | | |
|---|---|---|
| Specific Requirements 122 | Similar to above, what is continuously mean and what is it referring to? Does this refer to simply tracking usage and materials or does this refer to performing emission calculations continuously. Additionally, the language concerning two business days seems not to fit with this type of operation. Usage and materials can be tracked on this basis, but performing emission calculations on this basis seems not to fit with type of coating operation. | Air Permits Division may have sent the Specific Requirement portion of the tempo documents just prior to the most up to date version. The Specific Requirements in the current proposed permit addresses the concerns for Requirements 121 and 122. |
