SETTLEMENT AGREEMENT

The following Settlement Agreement is hereby agreed to between Mighty Haul, Inc. (“Respondent”) and the Department of Environmental Quality (“DEQ” or “the Department”), under authority granted by the Louisiana Environmental Quality Act, La. R.S. 30:2001, et seq. (“the Act”).

I

Respondent is a corporation that owns and/or operates a solid waste processing and transfer station located in New Orleans, Orleans Parish, Louisiana (“the Facility”).

II

On November 3, 2021, the Department issued to Respondent a Consolidated Compliance Order & Notice of Potential Penalty, Enforcement Tracking No. MM-CN-21-00411 (Exhibit 1).

III

Respondent denies it committed any violations or that it is liable for any fines, forfeitures and/or penalties.

IV

Nonetheless, Respondent, without making any admission of liability under state or federal

statute or regulation, agrees to pay, and the Department agrees to accept, a payment in the amount of EIGHTEEN THOUSAND AND NO/100 DOLLARS (\$18,000.00), of which Two Thousand Eight Hundred Fifty-Six and 72/100 Dollars (\$2,856.72) represents the Department's enforcement costs, in settlement of the claims set forth in this Settlement Agreement. ## V

Respondent further agrees that the Department may consider the inspection report(s), permit record(s), the Consolidated Compliance Order & Notice of Potential Penalty and this Settlement Agreement for the purpose of determining compliance history in connection with any future enforcement or permitting action by the Department against Respondent, and in any such action Respondent shall be estopped from objecting to the above-referenced documents being considered as proving the violations alleged herein for the sole purpose of determining Respondent's compliance history.

## VI

This Settlement Agreement shall be considered a final order of the Secretary for all purposes, including, but not limited to, enforcement under La. R.S. 30:2025(G)(2), and Respondent hereby waives any right to administrative or judicial review of the terms of this agreement, except such review as may be required for interpretation of this Settlement Agreement in any action by the Department to enforce this Settlement Agreement.

## VII

This Settlement Agreement is being made in the interest of settling the state's claims and avoiding for both parties the expense and effort involved in litigation or an adjudicatory hearing. In

agreeing to the compromise and Settlement Agreement, the Department considered the factors for issuing civil penalties set forth in La. R. S. 30:2025(E) of the Act.

### VIII

As required by law, the Department has submitted this Settlement Agreement to the Louisiana Attorney General for approval or rejection. The Attorney General's concurrence is appended to this Settlement Agreement.

### IX

### X

An initial payment of \$1,500.00 is to be made within ten (10) days from notice of the Secretary's signature. The remaining \$16,500.00 is to be made over a period of twenty-four (24) consecutive months in the amount of \$687.50 per month due on the 15<sup>th</sup> of the month. Payments are to be made by check, payable to the Department of Environmental Quality, and mailed or delivered to the attention of Accountant Administrator, Financial Services Division, Department of Environmental Quality, Post Office Box 4303, Baton Rouge, Louisiana, 70821-4303. Each payment shall be accompanied by a completed Settlement Payment Form attached hereto.

XI

In consideration of the above, any claims for penalties are hereby compromised and settled in accordance with the terms of this Settlement Agreement.

XII

Each undersigned representative of the parties certifies that he or she is fully authorized to execute this Settlement Agreement on behalf of his or her respective party, and to legally bind such party to its terms and conditions.

**CONSOLIDATED**  
**COMPLIANCE ORDER & NOTICE OF POTENTIAL PENALTY**

The following **CONSOLIDATED COMPLIANCE ORDER & NOTICE OF POTENTIAL PENALTY** is issued to **MIGHTY HAUL, INC. (RESPONDENT)** by the Louisiana Department of Environmental Quality (the Department), under the authority granted by the Louisiana Environmental Quality Act (the Act), La. R.S. 30:2001, et seq., and particularly by La. R.S. 30:2025(C), 30:2050.2 and 30:2050.3(B).

**FINDINGS OF FACT**

I.

The Respondent owns and/or operates Mighty Haul, a solid waste processing and transfer station, located at 2702 Arts Street in New Orleans, Orleans Parish, Louisiana (the Site). The Respondent has not notified the Department of its processing and transfer station activities. The Respondent has been issued agency implemented EPA Identification No. LAR000102339.

II.

On or about March 25, 2021, the Department conducted an inspection at the above referenced Site in response to a citizen's complaint, and a subsequent file review on October 28, 2021, to determine the degree of compliance with the Act and the supporting Regulations. While the investigation by the Department is not yet complete, the following violations were noted during the course of the inspection and subsequent file review:

- A. The Respondent caused and/or allowed the unauthorized processing of solid waste, in violation of La. R.S. 30:2155, LAC 33:VII.315.C, and LAC 33:VII.509.A.1. Specifically, during the March 25, 2021 inspection, construction and demolition waste, municipal waste, and putrescible waste including popsicles and manure were processed by compacting and/or crushing at the Site. When questioned by the Department's inspector whether the Respondent has a permit for the processing of solid waste, a representative of the Respondent stated that the Respondent does not have such a permit, but that he would look into obtaining one. The Respondent's representative stated that solid waste generated from customers located off-site was transported to the Site, processed at the Site, and ultimately transported to River Birch Landfill. As of October 28, 2021, the Respondent has not secured a permit for the processing of solid waste.
- B. The Respondent failed to store containers in a manner to keep water out of the container and prevent leakage, in violation of LAC 33:VII.503.A.2.c. Specifically, liquids were observed leaking onto the ground from solid waste containers located across Arts Street from the Mighty Haul office building awaiting transportation to a disposal location. Additionally, agricultural waste was present within some of the solid waste transportation containers in the area. The containers, including the agricultural waste containers, were uncovered.
- C. The Respondent failed to notify the Office of Environmental Services, within thirty (30) days, of its activities as a solid waste transporter, in violation of LAC 33:VII.401.A. Specifically, the Respondent uses four (4) trucks to transport solid waste, none of which are currently authorized by the Department to transport solid waste. A representative of the Respondent stated the four (4) trucks pick-up solid waste from customer locations and then transport the solid waste to the Site and/or a landfill disposal location.
- D. The Respondent failed, upon detection of a release of used oil to the environment, to clean up and manage properly the released used oil, in violation of LAC 33:V.4013.E. Specifically, stained sediment was observed within the Northeast portion of the Site, below Interstate-10. Nearby containers containing used oil had contents dripping down the exteriors of the containers. Sheening was observed on storm water accumulated

nearby. A representative of the Respondent stated the stained sediment and contents within the nearby containers was used oil and leakage from a faulty engine, which was dismantled at the Site. On or about April 5, 2021 or April 13, 2021, the representative of the Respondent stated that he disposed of the oil-stained sediment at River Birch Landfill. The Department received an email from a representative of River Birch Landfill on August 9, 2021 stating that the landfill has not received a profiled waste from Mighty Haul since February 1, 2014.

- E. The Respondent failed to determine if generated solid waste is a hazard, in violation of LAC 33:V.1005.A. Specifically, stained sediment was observed within the Northeast portion of the Site, below Interstate-10. Nearby containers containing used oil had contents dripping down the exteriors of the containers. Sheening was observed on storm water accumulated nearby. A representative of the Respondent stated the stained sediment and contents within the nearby containers was used oil and leakage from a faulty engine, which was dismantled at the Site. The representative of the Respondent was informed that a hazardous waste determination needed to be made on the stained sediment in accordance with Department regulations prior to disposal. On or about April 5, 2021 or April 13, 2021, the representative of the Respondent stated that he disposed of the stained sediment at River Birch Landfill. The Department received an email from a representative of River Birch Landfill on August 9, 2021 stating that the landfill has not received a profiled waste from Mighty Haul since February 1, 2014. As of October 28, 2021, the Respondent has not provided a waste characterization or sampling data regarding a hazardous waste determination made on the stained sediment.
- F. The Respondent failed to clearly mark or label aboveground containers used to store used oil with the words "Used Oil," in violation of LAC 33:V.4013.D.1. Specifically, a 55-gallon drum and smaller containers, all containing used oil, were present on Site and were unlabeled. A representative of the Respondent stated that the contents of the containers were oil from the faulty engine, which was dismantled at the Site. On or about April 13, 2021, the representative of the Respondent stated the 55-gallon drum and used oil containers were drained of oil, crushed, and disposed of at River Birch Landfill. The representative of the Respondent also stated that the used oil previously

stored within the 55-gallon drum and used oil containers was transported to a nearby Pep Boys location where the Respondent's used oil was added to Pep Boys' used oil containers for disposal. The Department received an email from a representative of River Birch Landfill on August 9, 2021 stating that the landfill has not received a profiled waste from Mighty Haul since February 1, 2014.
