**Public Hearing Disclaimer:**  
 This map has been prepared as a tool to be used in determining the order of appearance of this public hearing and is based on the best information available to the Louisiana Department of Environmental Quality's GIS Center at this time. The 2-mile radius circle was drawn around a point which approximates the center of the facility site. It is recognized that the shape and the exact location of the 2-mile radius circle would vary slightly if property boundaries had been followed, as opposed to choosing the center of the facility. Again, this map is merely a tool to help appearance determine their location in relation to the facility.

Nevertheless, the data should be aware that the information on which it is based may have come from any of a variety of sources, which are of varying degrees of accuracy.
