

110(a)(2)(F) and 172(c)(3) of the 1990 Clean Air Act Amendments (CAAA).

The Environmental Protection Agency has identified 2002 as the emissions inventory base year for the 8-hour ozone SIP planning process. The proposed inventory includes emission estimates from stationary point and nonpoint sources, onroad mobile sources, and nonroad mobile sources.

A public hearing will be held on May 25, 2006, at 1:30 p.m. in the Galvez Building, Oliver Pollock Conference Room, 602 N. Fifth Street, Baton Rouge, LA. Interested persons are invited to attend and present oral comments on the proposal. Should individuals with a disability need an accommodation in order to participate, contact Vivian H. Aucoin at the address given below or at (225) 219-3575. Free parking is available in the Galvez Garage with a validated parking ticket.

All interested persons are invited to submit written comments concerning the SIP revision no later than 4:30 p.m., May 31, 2006, to Vivian H. Aucoin, Office of Environmental Assessment, Box 4314, Baton Rouge, LA 70821-4314 or to FAX (225) 219-3582 or by e-mail to vivian.aucoin@la.gov.

A copy of the document may be viewed from 8 a.m. to 4:30 p.m. in the DEQ Public Records Center, Room 127, 602 N. Fifth Street, Baton Rouge, LA, or on the Internet at www.deq.louisiana.gov/portal/Default.aspx?tabid=2381.

Beauregard Parish Ozone Maintenance Plan

Under the authority of the Louisiana Environmental Quality Act, R. S. 30:2001 et seq., the secretary gives notice that the Office of Environmental Assessment, Plan Development Section, is proposing a revision to the Air Quality State Implementation Plan (SIP) for Beauregard Parish. This SIP revision is mandated under Section 110(a)(1) of the 1990 Clean Air Act Amendments (CAAA).

According to the Phase 1 8-Hour Implementation Rule published April 30, 2004 (69 FR 23951), a revision to the SIP is required for areas that are designated attainment for the 8-hour ozone National Ambient Air Quality Standards (NAAQS) and were designated attainment for the 1-hour ozone NAAQS with an approved maintenance plan. The Section 110(a)(1) maintenance plan for Beauregard Parish must be submitted to the Environmental Protection Agency not later than June 15, 2007.

A public hearing will be held on May 25, 2006, at 1:30 p.m. in the Galvez Building, Oliver Pollock Conference Room, 602 N. Fifth Street, Baton Rouge, LA 70802. Interested persons are invited to attend and present oral comments on the proposal. Should individuals with a disability need an accommodation in order to participate,

contact Vivian H. Aucoin, at the address given below or at (225) 219-3575. Free parking is available in the Galvez Garage with a validated parking ticket.

All interested persons are invited to submit written comments concerning the SIP revision no later than 4:30 p.m., May 31, 2006, to Vivian H. Aucoin, Office of Environmental Assessment, Box 4314, Baton Rouge, LA 70821-4314 or to FAX (225) 219-3582 or by e-mail to vivian.aucoin@la.gov.

A copy of the SIP revision for Beauregard Parish may be viewed from 8 a.m. to 4:30 p.m. in the DEQ Public Records Center, Room 127, 602 N. Fifth Street, Baton Rouge, LA, or at the Southwest Regional Office located at 1301 Gadwall Street, Lake Charles LA. The document is available on the Internet at: www.deq.louisiana.gov/portal/Default.aspx?tabid=2381.

REGULATION DEVELOPMENT SECTION

A P P E A R A N C E S

HEARING OFFICER:
SANDY STEPHENS

1 **MS. STEPHENS:**

2 Good afternoon. My name is Sandy Stephens.
3 I'm employed with the Louisiana Department of
4 Environmental Quality, and I'll be serving as
5 Hearing Officer this afternoon to receive
6 comments on the Beauregard Parish Ozone
7 Maintenance Plan and the 2002 Base Year
8 Emissions Inventory for the Baton Rouge 8-Hour
9 Ozone Nonattainment Area revisions to the State
10 Implementation Plan (SIP).

11 We will also receive comments today
12 regarding proposed amendments to the Water
13 Quality regulations.

14 The comment period for these amendments
15 began on April 20, 2006, when the potpourri
16 notices and the proposed rule were published in
17 the Louisiana Register. The comment period for
18 the SIP revisions will close at 4:30 p.m. on
19 June 30, 2006. The comment period for the
20 amendments to the Water Quality regulations will
21 close at 4:30 p.m., today, May 25, 2006. It
22 would be helpful to us if all oral comments
23 received today were followed up in writing.

24 This public hearing provides a forum for all
25 interested parties to present comments on the

1 proposed changes. I'll ask that each person
2 commenting come up and sit at the front table
3 and begin by stating his or her name and
4 affiliation for the record.

5 The first provision on the agenda is the
6 amendment of the Beauregard Parish Ozone
7 Maintenance Plan, Potpourri No. 0604Pot2.

8 The secretary gives notice that the Office
9 of Environmental Assessment, Plan Development
10 Section, is proposing a revision to the Air
11 quality State Implementation Plan for Beauregard
12 Parish. This SIP revision is mandated under
13 Section 110(a)(1) of the 1990 Clean Air Act
14 Amendments. According to the Phase One 8-hour
15 Implementation Rule published on April 30, 2004,
16 at 69 FR 23951, a revision to the SIP is
17 required for areas that are designated
18 attainment for the 8-hour ozone National Ambient
19 Air Quality Standards (NAAQS) and were
20 designated attainment for the 1-hour ozone NAAQS
21 with an approved maintenance plan. The revised
22 Section 110(a)(1) maintenance plan for
23 Beauregard Parish must be submitted to the
24 Environmental Protection Agency not later than
25 June 15, 2007.

1 Does anyone care to comment on this
2 amendment?

3 If not, the hearing on the Beauregard Parish
4 Ozone Maintenance Plan is closed.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION 6
1445 ROSS AVENUE, SUITE 1200
DALLAS, TX 75202-2733

June 28, 2006

Ms. Vivian Aucoin
Air Quality Assessment Division
Office of Environmental Assessment
Louisiana Department of Environmental Quality
P.O. Box 4314
Baton Rouge, LA 70821-4314

Dear Ms. Aucoin:

Thank you for the opportunity to comment on the draft revision to the State Implementation Plan (SIP) for the Beauregard Parish Section 110(a)(1) Maintenance Plan. We have organized our comments by section in the draft, and when possible, made reference to specific table and paragraph numbers within the submittal.

Attainment Inventory (Section 3)

Some of the values in Table 3-1 Beauregard Parish Attainment Inventory 2002 for VOC and NOx do not match the values in Tables 3-2 and 3-3. For example, the 2002 inventory number for VOC Non-Point sources in Table 3-1 is 6.72 tpd, but is listed as 6.84 in Table 3-2. Discrepancies were also noted in the baseline values for VOC Non-road Mobile, NOx Point, and NOx Non-road Mobile. Please correct these discrepancies in the final SIP revision.

It would be helpful if units were included in Tables 3-2 and 3-3.

Ambient Air Quality Monitoring (Section 5)

Regarding your request for a network change, the U.S. Environmental Protection Agency (EPA) sent a letter from Ms. Donna Ascenzi to Mr. James Brent dated May 9, 2003, regarding proposed changes to the Louisiana Ambient Air Monitoring Network. We plan to address this proposed network change in our future Federal Register, once this Maintenance Plan is submitted to EPA.

For Table 5-1, it would be helpful if units were included. We have previously discussed the design values in this table, and appreciate your work to update the numbers.

Verification of Continued Attainment (Section 6)

In addition to comparison of the emissions inventory for the interim years 2008, 2011, and 2014 to the 2002 baseline attainment inventory to verify continued attainment with the

8-hour ozone standard, please consider including an annual evaluation of some key emission trend indicators. Such an annual evaluation could consist of checking the annual emissions update of stationary sources and comparing that update to the growth assumptions used in the plan. Stationary source data could be used to determine how closely the predicted emission values are to actual emissions which would provide updates in between the years in which a full comparison of emissions inventory data in relation to the baseline is performed for all sources.

Contingency Plan (Section 7)

Trigger (Section 7.1) In the first sentence of the second paragraph, the emission inventory trigger needs to be tightened to a level no greater than a 10% growth. Also, throughout this section, it is important to define the trigger as accurately as possible. For instance, the words "excessive or unanticipated growth" should be removed or clearly defined. Also, in the second to last and last sentences of the second paragraph, the following phrases "The state will evaluate the inventory exceedance to determine if the trend is likely to continue. If it is determined that additional emission reductions are necessary" need to be removed. The final sentence will then begin "Appropriate control measure rules. . ."

Timeline (Section 7.2). An item for implementation of the rule should be added to the list of potential tasks. Also, we recommend reviewing the timeframes included in this section to ensure that all of the tasks required by the contingency plan will be implemented as expeditiously as practicable but no later than 24 months after the contingency plan is triggered.

Contingency Measures (Section 7.3). This section needs to include an enforceable commitment that if the Maintenance Plan Contingency Plan is triggered, Louisiana will implement one or more of the identified contingency measures. The list of contingency measures should clearly specify the controls which will be considered for adoption. As an example, you may want to consider a first sentence such as, "Should implementation of contingency measures be triggered, Louisiana will review sources in the emissions inventory, evaluate the most effective control of emissions of ozone precursors, and adopt and implement one or more of the following control measures." You may wish to review the measures included in the list, making additions if necessary. For the third measure listed, "Emission offsets for permitting", please clarify by adding a specific offset ratio, such as 1.1 to 1. Finally, the last control measure should be clearly identified.

Once again, we appreciate the opportunity to review and comment on this draft SIP revision. If you have questions regarding any of these comments, please feel free to contact me or Ellen Belk at (214) 665-2164.

Sincerely yours,

Thomas H. Diggs
Chief
Air Planning Section

Comment Summary
Beauregard Parish Maintenance Plan

Comment: Attainment Inventory (Section 3):

EPA noted discrepancies in values of VOC and NO_x in tables and requested that units be included in Tables 3-2 and 3-3.

Response: Discrepancies identified have been corrected and units have been added to show values in tons per day.

Comment: Ambient Air Quality Monitoring (Section 5):

EPA noted that the date on the referenced correspondence was incorrect.

Response: Date of correspondence has been corrected.

Comment: Verification of Continued Attainment (Section 6):

EPA requested that LDEQ consider including an annual evaluation of key emission trend indicators.

Response: The plan has been revised to include an annual evaluation to review emission trends of VOC and NO_x for stationary point sources.

Comment: Contingency Plan (Section 7):

EPA requested that emissions inventory trigger be tightened to a level no greater than 10%; Implementation timeline should be reviewed to ensure that all timeframes for contingency implementation requirements are as expeditiously as practicable but no later than 24 months; inclusion of an enforceable commitment for contingency measures.

Response: Section 7 has been revised for clarity and to address EPA comments. Subsections have been renumbered.

The emissions inventory trigger has been revised as suggested to a level no greater than 10%.

Timeline for specific action has been replaced with a commitment that the contingency measures will be implemented as expeditiously as practicable, but no later than 24 months as per EPA guidance.
