Change of Ownerships in ERIC

How are changes in ownerships handled?

- Each owner will have their own account in ERIC for the AI
 - Access to these accounts is the same as any other account
 - Contact the LDEQ staff assigned to the facility's parish for account set up and initial access

- Each account's inventory start and end dates should correspond to the dates of ownership in TEMPO
 - i.e., if Jackie sold her oil and gas plant to Michelle on March 1:
 - Jackie's inventory will be 1/1/2008 – 2/28/2008
 - Michelle's inventory will be 3/1/2008 – 12/31/2008
 - If the dates are not correct in TEMPO, they will be required to be corrected before submitting the inventory
 - Ownership dates in TEMPO are dependent upon the change of ownership forms submitted to the department in accordance with LAC 33:III.517.G
 - Emissions should be for the period of ownership during the reporting year

- The new owner can not report for the entire year as it was done in the past

- Each owner's inventory will be invoiced according to the emissions reported in the inventory.
