

March 7, 2008

MEMORANDUM

To: Response Action Contractors and other Interested Parties

From: Darryl Serio
Accountant Administrator
Financial Services Division

Subject: New Unit Price for Method 8260B

After further consideration of EPA Method 8260 pricing, Trust Fund is implementing the following effective for samples analyzed on or after April 1, 2008:

The unit price for EPA Method 8260B for water and soil analysis of BTEX-MTBE will be \$75.00 per sample for standard turn around time.

The unit price for EPA Method 8260B for water and soil analysis of BTEX-MTBE expedited in order to run a subsequent SPLP analysis will remain \$93.00 per sample. This price will apply only when a subsequent SPLP analysis is requested on at least one of the samples.

If samples are collected in March and analyzed on or after 4/1/2008, please provide documentation of the date the analyses were run.

If there are any questions, please contact Don Haydel at (225) 219-3863.
