MUNICIPAL FACILITIES REVOLVING LOAN FUND

I. Introduction

This Intended Use Plan (IUP) accompanies the Louisiana Department of Environmental Quality's (LDEQ's) application for a \$43,081,400 capitalization grant for the Clean Water State Revolving Fund (CWSRF) program under the American Recovery and Reinvestment Act (ARRA) of 2009. The LDEQ intends to forgo the available administrative set aside (up to 4% of grant amount) to further fund eligible projects.

II. CWSRF Program Goals

LDEQ is committed to using the capitalization grant for which it is applying to provide assistance to wastewater, non-point source and estuary projects which will proceed quickly to construction, creating jobs and furthering the water quality objectives of the Clean Water Act. The LDEQ's goal is to enter into binding commitments for projects, which will proceed to construction or award of construction contracts by February 17, 2010.

LDEQ recognizes that the goal of the ARRA is to expeditiously fund eligible projects that simultaneously will create jobs, promote economic recovery, and generate long-term benefits from infrastructure investment. Projects that do not meet the provisions stipulated by ARRA provisions will be eligible for funding consideration under the base CWSRF program provided they meet all the requirements of the base program.

A. Objectives:

1. To initiate construction and improvement to wastewater treatment infrastructure in order to meet the enforceable requirements of the Clean Water Act.
2. To stress nonpoint source pollution control and the protection of estuaries.
3. To facilitate the establishment of permanent institutions in each State that would provide continuing sources of financing needed to maintain water quality.

B. Long-Term Goals:

The CWSRF continues to maintain the following long-term goals to ensure it assists the State in meeting water quality goals and to ensure the long-range integrity of the fund.

1. To achieve statewide compliance with Federal and State water quality standards by providing financial assistance to municipalities and other qualified recipients.
2. To promote expanded eligibility under Title VI of the Clean Water Act that allows financial assistance for additional project categories. These additional project categories include non-point source pollution control, reconstruction of existing facilities, construction of new facilities needed to accommodate population growth, estuary, and groundwater-related needs.
3. To maintain the fiscal integrity of the fund and to assure its continuous enhancement in perpetuity through maintaining net assets equal to federal capitalization grants and state matching funds and the use of a cash flow modeling plan.

MUNICIPAL FACILITIES REVOLVING LOAN FUND

C. Short-Term Goals:

LDEQ will pursue the following short-term goals in an effort to meet the requirements of the ARRA:

1. Establish Stakeholder Meetings

LDEQ has maintained constant dialogue with all stakeholders. Conversations on project solicitations for ARRA funding intensified on December 10, 2008. Additional meetings were held on January 29, February 5, and February 10, 2009. The list of stakeholders includes representatives from the Louisiana Municipal Association, the Louisiana Police Jury Association, consulting engineers, as well as other local, state and federal agencies. The purpose of these meetings was to inform the stakeholders of the status of the ARRA (stimulus) bill, potential requirements that would have to be met, to solicit projects that could be under contract or proceed to construction within 12 months of enactment of the ARRA, and to meet the CWSRF program requirements.

2. Solicit Projects

The ARRA requires that funds must be allocated to projects under contract or construction within 12 months of enactment of the ARRA. Project solicitation incorporated this requirement.

3. Criteria for Disbursement of Funds

LDEQ solicited projects that met the goals and objectives of the ARRA. Pre-applications were accepted from interested parties until March 25, 2009. The LDEQ evaluated and selected projects based on criteria discussed in the IUP.

III. Sources and Uses of Funds

The IUP is based on new sources and uses of funds (ARRA) in the amount of \$43,081,400. This IUP contains a list of projects the State anticipates to fund, information on how the State plans to use the funds, and the funds the State plans to request from the U.S. Environmental Protection Agency (EPA) from the ARRA. The new sources will consist of the capitalization grant (\$43,081,400) from the EPA. It is our plan to use the grant proceeds as subsidies in the form of forgiveness of principal to protect human health, to improve the water quality and promote economic recovery of Louisiana's rivers, lakes and groundwater, and to assist in hurricane recovery.

The CWSRF intends to fund 55 projects with ARRA funds in the amount of \$43,081,400. Applicants were ranked for the CWSRF Priority List as they were received. LDEQ established a deadline for ARRA project submissions. All applicants have committed to meeting all the requirements of the ARRA.

The LDEQ is applying for a capitalization grant in the amount of \$43,081,400. This represents the amount that the State is eligible to receive under the State's allocation from the supplemental appropriation enacted under the ARRA.

MUNICIPAL FACILITIES REVOLVING LOAN FUND

Table 1 summarizes the sources and uses of the capitalization grant for which the State is applying:

**Table 1
Sources and Uses of Capitalization Grant**

SOURCES	AMOUNT
Total Sources – ARRA Capitalization Grant	\$ <u>43,081,400</u>
<hr/>	
USES – 100% Subsidization	
Green Project Reserve (20.1033%)	\$ 8,660,777
Other projects identified in the Project Priority List	<u>\$ 34,420,623</u>
Total Uses	\$ <u>43,081,400</u>

IV. Criteria and Methods for Distribution of Funds

A. Project List

LDEQ conducted an active statewide ARRA outreach campaign. The outreach campaign included sending correspondence on March 3 and March 12, 2009 to nearly 500 contacts. Those contacts included mayors, state senators, state representatives, and parish councils/police juries. As a result of this effort, the CWSRF program identified over \$1 billion in eligible projects that could be ready to proceed to construction within the deadlines established by the ARRA. Exhibit A is the list of projects submitted to LDEQ that have been assessed through the CWSRF prioritization process.

B. Additional Subsidization

The ARRA requires that not less than 50% of assistance provided is in the form of additional subsidies. Louisiana Revised Statute 30:2078(B)(2)(o) provides that the fund may "...provide for any other expenditure consistent with the federal grant program and state law". LDEQ intends to offer 100% of the ARRA Capitalization Grant as a subsidy to projects in the form of 0% interest loans with 100% principal forgiveness. A list of the 55 projects identified for ARRA funding can be found in Exhibit B.

As a result of LDEQ's exhaustive outreach and solicitation effort, the CWSRF program received applications totaling \$1.8 billion, of which, projects totaling approximately \$1 billion, were tentatively identified as ready to proceed to contract or construction within 12 months of ARRA enactment. All applications were initially reviewed and evaluated using the priority system followed by the application of the following criteria based on ARRA provisions and EPA guidance.

MUNICIPAL FACILITIES REVOLVING LOAN FUND

1. Ready to Proceed

ARRA requires that all funds appropriated to CWSRF under ARRA must be obligated to projects that are under contract or construction within 12 months of ARRA enactment (February 17, 2010). Projects were selected by incorporating this provision.

2. Regional Diversity

A review of the applications received demonstrated that the need for CWSRF funding in Louisiana is statewide. To ensure statewide coverage, stimulus funds are to be disbursed to projects throughout the state. To achieve this objective, a regionalized evaluation concept was used to assign applications to regions based on DEQ's regional breakdown of the State.

Acadiana Region includes Acadia, Evangeline, Iberia, Lafayette, St. Landry, St. Martin (a portion), St. Mary, and Vermilion Parishes;

Capital Region includes Ascension, Assumption, East Baton Rouge, East Feliciana, Iberville, Livingston, Pointe Coupee, St. Helena, St. James, St. Martin (a portion), Tangipahoa, West Baton Rouge, and West Feliciana Parishes;

Northeast Region includes Avoyelles, Caldwell, Catahoula, Concordia, East Carroll, Franklin, Grant, Jackson, La Salle, Lincoln, Madison, Morehouse, Ouachita, Rapides, Richland, Tensas, Union, West Carroll, and Winn Parishes;

Northwest Region includes Bienville, Bossier, Caddo, Claiborne, De Soto, Natchitoches, Red River, Sabine, and Webster Parishes;

Southeast Region includes Jefferson, Lafourche, Orleans, Plaquemines, St. Bernard, St. John the Baptist, St. Charles, St. Tammany, Terrebonne, and Washington Parishes;

Southwest Region includes Allen, Beauregard, Calcasieu, Cameron, Jefferson Davis, and Vernon Parishes.

By using the regional concept, each application was reviewed by region.

3. Severity of Problem

Funding for projects that would eliminate the imminent threats to human health or the environment were given high priority, provided that they met the remaining criteria.

4. Financial Constraints

The ARRA "U.S. House of Representatives Conference Report to accompany H.R. 1" dated February 12, 2009, advises states to target communities that could not otherwise afford a loan. Accordingly, median household income, population served, project costs and a community's ability to assume additional debt were strong criteria that were considered in project selection. Based on the 2000 U.S. Census Bureau statistics, Louisiana's median household income is \$32,566. All selected projects were from communities whose median household income was below the statewide average.

5. Post Hurricanes Recovery

Funding for projects in areas affected by recent hurricanes with no other funding sources was also considered, as long as the projects intend to provide economic recovery.

MUNICIPAL FACILITIES REVOLVING LOAN FUND

6. Maximum Funding Cap

ARRA funding was capped at \$1.52 million per project, except for green projects. Green project funding was capped at \$5 million per project. This decision was made based on the number of applications received for Green and Traditional CWSRF projects and to fulfill the intent of providing as much funding coverage to as many projects throughout the state as possible. For those CWSRF projects where the entire project was not funded with ARRA monies, funds from our base CWSRF loan program will be offered as supplemental funding at an interest rate of 0.95% for 20 years.

7. Green Components

The ARRA requires that at least 20% of ARRA funding go to "...green infrastructure, water or energy efficiency improvements or other environmentally innovative activities..." All CWSRF applications were evaluated for possible Green components. Green projects were evaluated in accordance with the EPA's guidance released on March 2, 2009, and subsequent communiqués from the EPA.

C. Green Infrastructure

The ARRA requires that, to the extent there are sufficient eligible project applications, not less than 20% of the funds provided for projects must be used for water or energy efficiency, green infrastructure, or other environmentally innovative activities. The attached project list (Exhibit B) shows that over 20% of the ARRA Capitalization Grant in the amount of \$43,081,400, or \$8,660,777, is for projects or portions of projects meeting one or more of the specific objectives required by this provision.

LDEQ met with stakeholders (as discussed in Short-Term Goals section of the IUP) and briefed them on the ARRA green infrastructure requirements. In addition, written solicitations were submitted to the stakeholders that included local municipalities, parishes, legislative bodies, and consulting engineering firms. As part of this solicitation process, LDEQ requested that stakeholders consider submission of projects that would qualify as "green infrastructure". The solicitation included information provided from EPA ARRA guidance dated March 2, 2009. These solicitations resulted in project submissions totaling over \$22 million.

D. Preference for Expedient Activities

The ARRA requires priority be given to projects that will be ready to proceed to actual construction within 12 months of the date of enactment. In anticipation of compliance with this requirement, the LDEQ is consulting with all potential assistance recipients with projects on the project priority list and making a determination as to which of these projects can be started and completed expeditiously. After receiving a capitalization grant, the State will provide ARRA assistance to projects who qualify for this preference.

E. Avoidance of Re-allotment /Relationship to Base Program

In order to meet the requirements and deadlines of the ARRA for the expeditious and timely commitment and expenditure of funds, LDEQ will regularly review the data reported to EPA on the progress of assistance recipients under the statutory deadlines specified in this IUP to identify any issues with the timeliness of this progress. If such issues are identified, the LDEQ

MUNICIPAL FACILITIES REVOLVING LOAN FUND

intends to work with EPA to resolve such issues. LDEQ will include conditions in its assistance agreements to ensure that assistant recipients make timely progress with respect to entering into contracts and/or construction. If a recipient fails to maintain progress with these conditions, they will receive funding from other CWSRF monies so that ARRA funding can be provided for a project that is ready to proceed.

LDEQ understands that EPA may de-obligate grant funds if LDEQ fails to meet requirements on use of ARRA funds. However, if LDEQ is eligible for additional funds made available by a re-allotment of ARRA funds, LDEQ will provide EPA with a list of projects from its project list that are immediately prepared to proceed to construction.

F. Loan Terms and Fees

LDEQ intends to offer 100% of the ARRA Capitalization Grant as a subsidy to projects in the form of 0% interest loans with 100% principal forgiveness. In the event that the portion of the ARRA cannot fully fund a project, additional funds will be offered by the base CWSRF program.

Existing CWSRF Terms

- Standard Interest Rate of 0.45% - the same rate will be offered to loans in the base CWSRF program
 - Administrative Fee: 0.5%
 - Repayment Term: Up to 20 Years
1. In an effort to increase borrowing of the CWSRF, the LDEQ reduced its interest rate from 2.95% to 0.95%. The new 0.95% interest rate is comprised of the following: a 0.45% interest rate plus a 0.50% administrative fee. The new interest rate was set by the Secretary of LDEQ on January 26, 2009. The new interest rate on loans made by the CWSRF for water quality improvement projects may be adjusted in accordance with current market rate and availability of funds. This proactive decision by the Secretary of LDEQ allows the department to accomplish its mission to provide service to the people of Louisiana through comprehensive environmental protection in order to promote and protect health, safety and welfare while considering sound policies regarding employment and economic development.
 2. The previous permanent finance charge on all CWSRF loans was 2.95% which was comprised of the following: a 2.45% interest rate plus a 0.50% administrative fee. The previous CWSRF rate was set by the Secretary of LDEQ on October 11, 2006, and was in effect until January 25, 2009.

MUNICIPAL FACILITIES REVOLVING LOAN FUND

V. Public Review and Comment

A copy of the IUP was made available for public review and comment between June 3 and June 9, 2009 and written comments were accepted until 3 pm, June 9, 2009. Any comments received will be duly considered and will be provided to EPA. (See copy of public notice below.)

PUBLIC NOTICE

Notice is hereby given that the Louisiana Department of Environmental Quality (LDEQ) is applying for approval of the Clean Water State Revolving Loan Fund Program, American Recovery and Reinvestment Act, Intended Use Plan (IUP) from the U.S. Environmental Protection Agency. Copies of the IUP are available at www.deq.louisiana.gov/loanfund and click on *Intended Use Plan* or by contacting the department at deqfinancial@la.gov.

Interested parties may review the IUP and submit written comments to LDEQ Financial Services Division, Attn: IUP Comments, PO Box 4303, Baton Rouge, LA 70821-4303 or to deqfinancial@la.gov. Written comments will be received not later than 3:00 p.m. on June 9, 2009 after which time and date they will not be accepted.

VI. Assurances

LDEQ provides the necessary assurances and certifications as part of the Operating Agreement between the State of Louisiana and the U.S. EPA. This includes the requirements of the following sections of the law:

A. State Matching Funds - 602(b)(2)

The ARRA specifically states that “none of the funds appropriated herein shall be subject to cost share requirements,”; therefore, no state match is provided for the funds.

B. Binding Commitments - 602(b)(3)

A binding commitment is defined as the execution of contract called the Bond Purchase Agreement between the borrower and LDEQ. The Bond Purchase Agreement sets out the terms of the bond that will be issued by the borrower and purchased by LDEQ. The binding commitment date is the date when both parties have signed that contract. The bond closing will take place within six months of the execution of the Bond Purchase Agreement.

The State of Louisiana will enter into binding commitments for amount of the grant within the time frame specified in the ARRA.

C. Expeditious and Timely Expenditures - 602(b)(4)

The State of Louisiana will expend all funds in the CWSRF in a timely and expeditious manner as required by this section and acknowledged in our Operating Agreement. All funds made available by the ARRA will be distributed as specified in the ARRA.

MUNICIPAL FACILITIES REVOLVING LOAN FUND

D. First Use for Enforceable Requirements - 602(b)(5)

The State of Louisiana confirms that any publicly owned treatment works previously identified as part of the National Municipal Policy (NMP) universe are either in compliance, on an enforcement schedule, have an enforcement action filed, or have a funding commitment from a prior year.

E. Compliance with Equivalency Requirements - 602(b)(6)

The State of Louisiana agrees to meet the specific statutory requirements (Title II) for publicly owned wastewater treatment projects constructed in whole or in part before FFY1995. Projects funded after FFY 1995 will meet applicable (non-Title II) equivalency requirements.

F. Environmental Reviews Requirements - 40 CFR 35.3140

The State of Louisiana will conduct environmental reviews as specified in the Project Review Procedures of the Operating Agreement and 40 CFR 35.3140.

G. Compliance with ARRA requirement – ARRA §1605 and 1606

As required by ARRA, LDEQ will ensure that projects comply with the Buy American and Wage Rate Requirements.

H. Benefits Reporting Requirements - ARRA §1512

As required by EPA guidance dated March 2, 2009, LDEQ will report no less than weekly on the uses of funds provided by the ARRA through the CWSRF Benefits Reporting database. Projects will be entered into the reporting system as soon as agreements are signed with each assistance recipient.

I. Grant Payment Schedule – ARRA

As required by EPA guidance dated March 2, 2009, LDEQ will provide certification that contracts have been signed or projects are under construction in an amount equal to the full value of the ARRA assistance agreement by February 17, 2010. LDEQ intends to enter into agreements with loan recipients after July 1, 2009, through February 16, 2010. Grant payments will begin with the first agreement until all projects are completed. Projects will be completed within 2 years of the loan agreement. Funds will be drawn as needed. Below is a tentative grant payment schedule:

FFY10, Q1, period ending December 31, 2009	\$ 4,308,140
FFY10, Q2, period ending March 31, 2010	\$ 6,462,210
FFY10, Q3, period ending June 30, 2010	\$ 21,540,700
FFY10, Q4, period ending September 30, 2010	\$ 6,462,210
FFY11, Q1, period ending December 31, 2010	<u>\$ 4,308,140</u>
Total Grant	<u>\$43,081,400</u>

MUNICIPAL FACILITIES REVOLVING LOAN FUND

J. Other Reporting and Monitoring Efforts

As required by ARRA §1511, the Secretary of LDEQ shall certify that each infrastructure investment has received the full review and vetting required by law and that the Secretary accepts responsibility that the investment is an appropriate use of taxpayer dollars. Each certification shall include a description of the project, estimated total cost and the amount of covered funds to be used. LDEQ shall provide this information to the Louisiana Division of Administration to be published on the Louisiana recovery website at www.stimulus.la.gov.

In response to the U.S. House of Representatives' Transportation and Infrastructure Committee, LDEQ will report aggregate capitalization grant data and project specific data. A sample of the report can be found in Exhibit C.

* "Green Projects" key: Green Infrastructure=G, Energy Efficiency=E, Waster Conservation =W, Other=O

Borrower	Type of Project	Project Description	Permit Number	Type of Assistance	Assistance Amount	Green Reserve	Green Projects *
Abbeville (Vermillion)	212	Rehabilitation of 2 pump stations	LA0039748	Loan/Principal forgiveness	\$760,000		
Arcadia (Bienville)	212	Rehabilitation of lift stations		Loan/Principal forgiveness	\$676,070		
Baker (East Baton Rouge)	212	Install new residential meters and replace inefficient commercial meters	LA0036439	Loan/Principal forgiveness	\$500,000	\$500,000	W
Ball (Rapides)	212	Sewer pump rehabilitation and improvement	LA0079545	Loan/Principal forgiveness	\$1,000,000		
Basile (Evangeline)	212	Upgrading of portions of the existing WWTP	LA0044865	Loan/Principal forgiveness	\$500,000		
Bastrop (Morehouse)	212	WWTP and collection system rehabilitation	LA0020443	Loan/Principal forgiveness	\$1,510,550		
Benton (Bossier)	212	Install a pond cover over the last third of the oxidation pond	LA0102890	Loan/Principal forgiveness	\$418,000		
Boyce (Rapides)	212	Reconstruction of pump station and rehabilitation of collection system	LA0032344	Loan/Principal forgiveness	\$900,000		
Carencro (Lafayette)	212	Replace inefficient water meters	LA0020150/LA0065706	Loan/Principal forgiveness	\$600,000	\$600,000	W
Clayton (Concordia)	212	Wastewater treatment plant rehabilitation	LA0044645	Loan/Principal forgiveness	\$527,651		
Crowley (Acadia)	212	Rock reed filter rehabilitation	LA0041254	Loan/Principal forgiveness	\$1,000,000		
Cullen (Webster)	212	Major upgrade to existing WWTP	LA0032301	Loan/Principal forgiveness	\$925,000		
Delcambre (Vermilion and Iberia)	212	Rehabilitation of rock reed filter	LA0033251	Loan/Principal forgiveness	\$900,000		
Delhi (Richland)	212	Collection system evaluation and rehabilitation	LA0039802	Loan/Principal forgiveness	\$1,000,000		
DeQuincy (Calcasieu)	212	Rehab transfer station and sewer main	LA0038709	Loan/Principal forgiveness	\$750,000		
Eunice (St. Landry)	212	Rehabilitation and upgrade to existing WWTP	LA0041751	Loan/Principal forgiveness	\$801,509		
Grambling (Lincoln)	212	Major equipment repairs and system upgrades	LA0038822	Loan/Principal forgiveness	\$533,000		
Grand Isle (Jefferson)	319	Reforestation of Grand Isle and vicinity		Loan/Principal forgiveness	\$750,000	\$750,000	G
Hall Summit (Red River)	212	Lift station rehabilitation	LA0064611	Loan/Principal forgiveness	\$134,300		
Hammond (Tangipahoa)	212	Rehabilitate and install new force main	LA0032328	Loan/Principal forgiveness	\$900,000		
Hornbeck (Vernon)	212	Upgrade to 3 pump stations	LA0081990	Loan/Principal forgiveness	\$525,000		
Jackson (East Feliciana)	212	Rehabilitation of the sewage collection line		Loan/Principal forgiveness	\$525,232		
Jeanerette (Iberia)	212	Rehabilitate main pump station	LA0040193	Loan/Principal forgiveness	\$250,000		
Jennings (Jefferson Davis)	212	Collection system line and manhole rehabilitation	LA0041769	Loan/Principal forgiveness	\$1,000,000		
Jonesboro (Jackson)	212	Rehabilitation of sewer collection lines	LA0046477	Loan/Principal forgiveness	\$800,000		
Killian (Livingston)	212	Install new water meters	N/A	Loan/Principal forgiveness	\$110,777	\$110,777	W
Lafourche Parish Lewistown 3	212	WWTP and collection system rehabilitation	LAG560186	Loan/Principal forgiveness	\$358,921		
Lafourche Parish Marydale	212	WWTP and collection system rehabilitation	LAG570035	Loan/Principal forgiveness	\$596,162		
Lafourche Parish Rita	212	WWTP upgrade	LAG570204	Loan/Principal forgiveness	\$46,173		
Leesville (Vernon)	212	Rehab lift station, transfer station, and collection lines	LA0043575	Loan/Principal forgiveness	\$850,000		
Madison Parish	212	Lift station rehabilitation for two subdivisions		Loan/Principal forgiveness	\$90,000		
Mamou (Evangeline)	212	WWTP rehabilitation	LA0010125	Loan/Principal forgiveness	\$1,000,000		
Mansfield (De Soto)	212	Rehabilitation of gravity sewer main	LA0038962	Loan/Principal forgiveness	\$1,214,800		
Mansura (Avoyelles)	212	New interceptor, new aerators at plant and rehab to levee system and I/I rehab.	LA0042552	Loan/Principal forgiveness	\$1,270,000		
Many (Natchitoches)	212	Sewer pump station replacements	LA0056502	Loan/Principal forgiveness	\$251,000		
Maringouin (Iberville)	212	Upgrade existing activated sludge treatment lagoon	LA0086771	Loan/Principal forgiveness	\$300,000		
Marion (Union)	212	Installation and rehabilitation of sewer collection lines	LA0043656	Loan/Principal forgiveness	\$289,221		
Merryville (Beauregard)	212	Replace mechanical equipment at treatment plant	LA0055867	Loan/Principal forgiveness	\$1,000,000		
Natchitoches (Natchitoches)	212	Gravity sewer system rehabilitation, Sludge press replacement, and vacuum truc	LA0097222	Loan/Principal forgiveness	\$1,183,000		
Oakdale (Allen)	212	Upgrade, rehabilitate, expand wastewater system	LA0033430	Loan/Principal forgiveness	\$1,000,000		
Oil City (Caddo)	212	Correct WWTP deficiencies and replacement of sewer lines	LA0020508	Loan/Principal forgiveness	\$700,000		
Opelousas (St. Landry)	212	Replacement of lift station	LA0036404	Loan/Principal forgiveness	\$1,188,000		
Pleasant Hill (Sabine)	212	Rehabilitate WWTP	LA0038946	Loan/Principal forgiveness	\$620,000		
Sicity Island (Catahoula)	212	Collection system and WWTP rehabilitation	LA0063533	Loan/Principal forgiveness	\$525,992		
Simsboro (Lincoln)	212	Manhole rehabilitation (10)	LA0065102	Loan/Principal forgiveness	\$100,000		
Urania (La Salle)	212	Replace WWTP	LA0040991	Loan/Principal forgiveness	\$1,265,000		
Vinton (Calcasieu)	212	Install new water meters	LA0066621	Loan/Principal forgiveness	\$1,200,000	\$1,200,000	W
Washington (St. Landry)	212	Collection system and lift station rehab	LA0062928	Loan/Principal forgiveness	\$800,000		
Waterproof (Tensas)	212	Major renovation of WWTP (Influent pumps, aerators, and UV)	LA0033031	Loan/Principal forgiveness	\$550,000		
Welsh (Jefferson Davis)	212	Replace all main lines, diffusers, and diffuser lines in the WWTP	LA0020591	Loan/Principal forgiveness	\$190,000		
West Monroe (Ouachita)	212	Construct new treatment plant with recycling capability	LA0043982	Loan/Principal forgiveness	\$4,750,000	\$4,750,000	W
White Castle (Iberville)	212	Replacing clay pipe and installation of 3 generators for lift stations	LA0117030	Loan/Principal forgiveness	\$686,000		
Winnfield (Winn)	212	Upgrading the WWTP and rehabilitation of collection system	LA0043915	Loan/Principal forgiveness	\$1,010,000		
Winnboro (Franklin)	212	Collection system evaluation and rehabilitation	LA0020281	Loan/Principal forgiveness	\$1,000,000		
Youngsville (Lafayette)	212	Replace inefficient water meters	LA0055328	Loan/Principal forgiveness	\$750,000	\$750,000	W
					\$43,081,358	\$8,660,777	

EXHIBIT C to the LDEQ CWSRF IUP

Report to the US House of Representative’s Transportation and Infrastructure Committee

Table 1: AGGREGATE DATA, BY FORMULA PROGRAM¹

Information Requested	Example	Please Insert Your Data in This Column
Recipient name	Minnesota Department of Transportation	
Federal formula program (i.e., Highway Infrastructure Investment, Transit Capital Investment, Fixed Guideway Infrastructure Investment, or Clean Water State Revolving Funds)	Highway Infrastructure Investment	
Recipient DUNS Number	999999999.9999	
Amount of Recovery Act funds allocated/apportioned to recipient (Transit agencies: please report on the amount of Recovery Act funds available to your agency and not the overall amount apportioned to your urbanized area)	850000	
Amount of Recovery Act funds obligated	690000	
Amount of Recovery Act funds outlayed	75000	

¹ With regard to each Federal formula program, recipients should report information in each applicable category. For example, if the Minnesota Department of Transportation had begun work on a highway bridge repair, it would likely report the project in each of the following categories: number of projects put out to bid; estimated amount of Recovery Act funds associated with projects put out to bid; number of projects under contract; amount of Recovery Act funds associated with projects under contract; number of projects in which work has begun; and amount of Recovery Act funds associated with projects in which work has begun.

With regard to Highway Infrastructure Investment, Governors, in coordination with Metropolitan Planning Organizations (“MPOs”), should submit the following Table 1 forms: (1) aggregate data for the entire State; and (2) a separate copy of Table 1 representing aggregate data for funds suballocated to each MPO serving a Transportation Management Area pursuant to Section 133 of Title 23, United States Code. For example, with regard to Highway Infrastructure Investment, the Governor of Oregon should submit the following forms: Table 1 for the entire State of Oregon; Table 1 for Recovery Act funds suballocated to Eugene, Oregon; Table 1 for Recovery Act funds suballocated to Portland, Oregon; Table 1 for Recovery Act funds suballocated to Salem, Oregon; and Table 2 for each project in the State.

Information Requested	Example	Please Insert Your Data in This Column
Number of projects put out to bid (i.e., the project has been advertised)	8	
Estimated amount of Recovery Act funds associated with projects put out to bid	690000	
Number of projects under contract (i.e., the contract has been awarded)	6	
Amount of Recovery Act funds associated with projects under contract	428000	
Number of projects in which work has begun (i.e., the contractor has received a "notice to proceed" or the work has begun in-house, where applicable)	4	
Amount of Recovery Act funds associated with projects in which work has begun	100000	
Number of projects in which work has been completed (i.e., the work has been completed by a contractor or in-house, where applicable)	2	
Amount of Recovery Act funds associated with completed projects	50000	
Number of direct, on-project jobs created or sustained by Recovery Act funds (i.e., the number of employees created or sustained by Recovery Act funds, including employees of recipient, prime contractors, consultants, and subcontractors)	178	
Total job hours created or sustained by Recovery Act funds (i.e., the total job hours for employees cited in above line)	14240	

Information Requested	Example	Please Insert Your Data in This Column
Total payroll of job hours created or sustained by Recovery Act funds (i.e., the total dollar amount of wages paid for job hours created or sustained by Recovery Act funds)	370240	
Aggregate expenditure from State sources for projects eligible for funding under the Federal formula program during the period from 2/17/09 through 3/31/09	50000	
Amount of funds that recipient planned to spend as of 2/17/09 from State sources for projects eligible for funding under the Federal formula program during the period from 2/17/09 through 9/30/10	600000	
Any decrease (from the amount reported in the line above) in the amount of funds that the recipient now plans to spend from State sources for projects eligible for funding under the Federal formula program during the period from 2/17/09 through 9/30/10	0	

Table 2: PROJECT-SPECIFIC: Please complete for all projects where Recovery Act funds are obligated

Information Requested	Example	Please Insert Your Data in This Column
Project name (Note: To the extent applicable, the project name should be the same name as the name appears in the Statewide Transportation Improvement Program (STIP) and/or Fiscal Management Information System (FMIS).)	Highway 1 Recovery Bridge Replacement in Duluth, Minnesota	
Federal formula program	Highway Infrastructure Investment	
Recipient DUNS Number	999999999.9999	
Federal-aid project number (Note: The Federal-aid project number applies only to Highway Infrastructure Investment.)	AAAA111	
State project number or identification number, where available (Note: The state project or identification number applies only to Highway Infrastructure Investment.)	100000000000	
Project purpose (For Highway Infrastructure Investment, please provide a single sentence describing the type of project consistent with the improvement type code in FMIS.)	Bridge Replacement- No Added Capacity	
Estimated project total cost	2200000	
Project rationale (Note: Please provide a short description of how the project will advance the recipient's transportation and infrastructure goals and the reason the recipient selected this particular investment.)	Improve bridge safety by replacing an 80-year old bridge	

Municipal Facilities Revolving Loan Fund Priority System

A. Introduction

1. On October 18, 1972, the Federal Water Pollution Control Act Amendments became Public Law 92-500. PL 92-500 was amended by PL 95-217, the Clean Water Act of 1977, PL 97-117, the Municipal Wastewater Treatment Construction Grant amendments of 1981, and most recently by PL 100-4, the Water Quality Act of 1987.

2. The primary aim of the Act is to “restore and maintain the chemical, physical, and biological integrity of the Nation's water.” The Act emphasizes the national goal that, wherever possible, water quality is to be suitable for recreational contact and for protection and propagation of fish and wildlife. In addition, the Act emphasized the special need for controlling or eliminating discharges of toxic pollutants, and that the goals of the Act be met through the control of both point and nonpoint sources of pollution. A permit program has been established and geared to restricting pollutant discharges from point sources – that is, from factories, municipalities, and large agricultural operations where pollutants enter the nation's water through an outfall pipe, sewer, or other conduit. The permit program has been expanded to include pollutants entering the Nation’s water through non-point sources – that is, stormwater runoff from municipalities, factories, agricultural operations, and other sources that do not require NPDES permits.

3. The Water Quality Act of 1987 added Title VI to the Clean Water Act, which provides for a program of low interest loans. Section 603(c) of the Act states that “The amounts of funds available to each State water pollution control revolving fund shall be used only for providing financial assistance (1) to any municipality, intermunicipal, interstate, or state agency for construction of publicly owned treatment works (as defined in section 212 of this Act), (2) for the implementation of a management program established under section 319 of this Act, and (3) for development and implementation of a conservation and management plan under section 320 of this Act.”

Exhibit D to the LDEQ CWSRF IUP

4. Section 603(g) of the Act states that: “The State may provide financial assistance from its water pollution control revolving fund only with respect to a project for construction of a treatment works described in subsection (c)(1) if such project is on the State’s priority list under section 216 of this Act. Such assistance may be provided regardless of the rank of such project on such list.”

5. Section 603(c) of the Act states that: “After providing for public comment and review, each State shall annually prepare a plan identifying the intended uses of the amounts available to its water pollution control revolving fund.”

6. In implementing the requirements of the Act, the Louisiana Department of Environmental Quality, Office of Water Resources, has derived the State of Louisiana Municipal Facilities Revolving Loan Fund Priority System.

7. This system provides an orderly approach to preparing a priority list of publicly owned treatment works projects that meet the definition of section 212 of the Act and provides for the selection of these and other eligible projects to be included on the Intended Use Plan for each year

B. List of Stream Subsegments and Subsegment Priority Numbers

1. Most effective use of water quality management assets in achieving state and national goals requires that management emphasis be directed at the most important problem areas first. The priority of management effort is intended to give more consideration to those areas where the most significant problems occur.

2. The state of Louisiana is divided into 12 water quality management basins which exhibit distinct hydrologic characteristics. Each designated basin is divided into stream segments and subsegments which exhibit common reactions to stresses, i.e., pollutants. The stream segmentation for Louisiana is contained in the state's areawide water quality management plans submitted under Section 208 of the Act.

Exhibit D to the LDEQ CWSRF IUP

3. In order to provide the basis for directing the management effort for water quality, each stream subsegment is ranked according to its designated uses and the degree to which those designated uses are supported. The values from each of the category classifications, from Table B-1, are multiplied together to produce the stream subsegment priority number.

4. A list of the stream subsegments and their subsegment priority numbers is included in Table B-2.

5. The stream priority list is used as the base for the later determination of the project priority ratings.

TABLE B-1

SUBSEGMENT PRIORITY RANKING MULTIPLIERS

Designated Uses	Multiplier
Shellfish Propagation	20
Sole Source Drinking Water Supply	15
Outstanding Natural Resource	10
Primary Contact Recreation	5
Secondary Contact Recreation	5
Fish and Wildlife Propagation	5
Agriculture	5

Degree of Support__	Multiplier
Not Supported	5
Partially Supported	4
Fully Supported but Threatened	3
Fully Supported	2

Formula: Designated Uses X Degree of Support = Stream Subsegment Priority Number

Exhibit D to the LDEQ CWSRF IUP

C. Municipal List by Priority Rank

1. In conjunction with the ranking of the stream segments of the state of Louisiana in priority order to facilitate the direction of management emphasis, each municipality that has requested consideration for funding is rated as to its propensity to pollute. This rating of municipalities forms an important water quality management tool.

2. The priority rating for each municipality considered is composed of two factors, the stream segment priority rating and the municipality factor. These two numbers are added together to form the basic project priority rating.

3. The municipality factor is based on the condition and age of any existing facilities within the project area, and the capability of existing facilities to achieve enforceable requirements of the Clean Water Act. Appropriate values from each of the category classifications are added together to produce the municipality factor.

4. A separate municipality factor shall be determined for each treatment facility and the collection system within its service area. When two or more treatment facilities will be included in a single project, regardless of whether they are in the same or different municipalities, the municipality factor for the project will be the weighted average, weighted on population served, of the municipality factors for all treatment facilities included in the project.

5. The priority rating for a municipality may be re-evaluated and adjusted whenever new information is made available. Such information may result from facilities planning, water quality analysis, etc.

6. Any municipality that believes that its priority rating was calculated erroneously, or that the situation used as the basis for calculating its priority rating has undergone a significant change not avoidable or correctable by the municipality, may request that its priority rating be recalculated.

Exhibit D to the LDEQ CWSRF IUP

Any such requests should include the reasons that the municipality believes the priority rating to be in error.

Those projects with an existing treatment facility in need of upgrade or expansion will be awarded points from the following table based on the age and type of treatment.

Age of treatment plant	0 to 5 years	6 to 10 years	11 to 15 years	16 to 20 years	Over 20 years
Type of treatment plant					
Mechanical plant	2	4	6	8	10
Aerated lagoon	1	2	4	5	7
Stabilization pond	0	1	2	3	4
Other	0	0	1	1	2

Those projects with an existing collection system in need of rehabilitation or I/I correction will be awarded points from the following table based on the age of the collection system.

Age of collection system	Points
0 - 10 years	2
11 - 20 years	4
21 - 30 years	6
31 - 40 years	8
Over 40 years	10

Exhibit D to the LDEQ CWSRF IUP

POLLUTION REDUCTION FACTOR

FUTURE LEVEL OF TREATMENT PRESENT TREATMENT LEVEL	SECONDARY	ADVANCED (BOD<20)	ADVANCED (20>BOD<10)	ADVANCED (BOD<10)
Raw	80	90	90	100
Less than Secondary	60	70	80	90
Secondary	20*	60	70	80
Advanced (BOD<20)	NA	20*	60	70
Advanced (20>BOD<10)	NA	NA	20*	60
Advanced (BOD<10)	NA	NA	NA	20*
Unsewered	30	40	50	60
N/A - Rehabilitation and/or I/I correction only				40
N/A- No reduction in pollution discharge anticipated				20

* If no change to treatment but increase capacity, change 20 to 40

Formula:

Category Factor + Pollution Reduction = Municipality Factor

Basic Project Priority Rating = Stream Segment Priority Rating + Municipality Factor

D. Municipal Facilities Priority List

1. Upon receipt of a request by the authorized representative of a municipality, the basic priority rating will be determined and the proposed project will be placed on the Municipal Facilities Priority List.

2. Request for inclusion on the Municipal Facilities Priority List must include the following:

a. a resolution from the governing authority designating a project representative and authorizing him/her to submit preapplication materials;

b. a completed Form RF-100;

c. a map of the proposed planning area.

3. It is the responsibility of each authorized project representative to maintain current and accurate information for his/her project, and to submit any revised or updated project information to the Department each year for use in preparing the Municipal Facilities Priority List. Only project information received by April 1 will be considered for inclusion on the next fiscal year's priority list.

Exhibit D to the LDEQ CWSRF IUP

4. The loan amount shown on the list will be the estimated amount of those items of work that are eligible for loan assistance. Eligibility of specific items of work will be based on the latest federal requirements in effect at the time the list is prepared. Should these requirements be changed subsequent to preparation of the list, all projects on the list will be adjusted as required. The monetary amount of each item will be based on the latest information supplied by the authorized project representative in accordance with Paragraph 2 of this Section.

5. Projects normally proceed in three steps: Facility Planning, Design, and Construction. It is intended that projects that have completed Facility Planning and Design and are ready to begin construction will be considered for funding before projects that are not ready to begin construction. Projects will be awarded points in addition to the basic priority rating based on the readiness to proceed to construction in accordance with the following table:

Milestone	Points
Project has completed Facility Planning and planning documents have been approved	1000
Project has completed design and plans and specifications have been approved	2000

6. Large projects may be offered assistance in several segments based on a request by the authorized project representative, on a comparison of project cost and funds available, or on other factors that may require delayed funding for portions of a project. Each segment of a project will be listed separately on the Municipal Facilities Priority List. All segments will have the same basic priority rating but each segment will have its own points awarded based on readiness to proceed.

Exhibit D to the LDEQ CWSRF IUP

7. The Municipal Facilities Priority List will include all projects that have requested funding assistance, ranked in priority order, regardless of the amount of funds available. The priority list will be used for the later preparation of the State Revolving Fund Intended Use Plan.

8. The Municipal Facilities Priority List will be made available for inspection each year at the same time as the Municipal Facilities Revolving Loan Fund Intended Use Plan, but not less than 30 days prior to submission to the U.S. Environmental Protection Agency. Each municipality that has submitted preapplication materials will be notified by letter of the availability of the Municipal Facilities Priority List. It is the responsibility of each potential borrower to examine all the information listed for his/her project for accuracy. Any errors or omissions should be reported to the department prior to the deadline for comments.

9. Any project or project segment will be removed from the Municipal Facilities Priority List once funding for the project or project segment has been provided through the Municipal Facilities Revolving Loan Fund; or when the project or project segment has been constructed using another source of funds.

10. Any project that has had no verbal or written communication with the Municipal Facilities Division staff for a period of five years and has presented no other evidence of progress toward completion of items that are prerequisites to funding during the five year period shall be deemed to be a dormant project and may be removed from the Municipal Facilities Priority List. Prior to removal of a dormant project from the Municipal Facilities Priority List the Municipal Facilities Division staff will contact the project representative in writing to advise them of the impending removal of the project and to request a meeting with them to discuss progress on the project if they wish to avoid removal of the project from the Municipal Facilities Priority List.

E. Intended Use Plan

1. An Intended Use Plan is prepared for each fiscal year and details the intended uses of amounts expected to be available to the State Revolving Fund during the year. These intended uses will include loans for projects as well as other allowable uses of the Fund, including but not

Exhibit D to the LDEQ CWSRF IUP

limited to repayment of bonds issued by the Fund, loan guarantees or insurance for local obligations, and payment of allowable costs of administering the Fund.

2. On July 1 of each year the Administrator of the Financial Services Division will determine the amount expected to be available for loans for projects for the next fiscal year. This amount will *not* include the net proceeds of any bonds expected to be issued during the year. If issuance of bonds is proposed, the selection of projects to be funded with bond proceeds will be made in accordance with the provisions of Section F.

3. Of the amount expected to be available in accordance with Paragraph 2 of this Section, certain amounts will be reserved in accordance with Section G.

4. Projects must be included on the current Municipal Facilities Priority List that has met public participation requirements and been accepted by the Environmental Protection Agency in order to be selected for the Intended Use Plan. Projects on the proposed Municipal Facilities Priority List may be selected for the proposed Intended Use Plan provided that both the proposed Priority List and Intended Use Plan meet public participation requirements and are accepted by the Environmental Protection Agency.

5. Projects on the Municipal Facilities Priority List will be selected to receive funds from the amount expected to be available in accordance with Paragraph 2 of this Section, less any reserves established in accordance with Section G, by considering projects in several categories for funding. All projects in a high priority category will be funded before any projects in a lower priority category are funded. Within each category projects will be considered for funding in order of the priority ranking of the individual project. The several categories that are considered are as follows:

a. Projects that qualify for hardship grant assistance, provided that hardship grant funds are available and that additional funds in the form of a loan from the Municipal Facilities Revolving Loan Fund program will be needed to supplement the hardship grant funds.

Exhibit D to the LDEQ CWSRF IUP

b. Projects which are required for completion of an ongoing project for which at least one segment has already received funding through the Municipal Facilities Revolving Loan Fund program, and that will not result in an operable treatment system without the additional funds. To qualify as an ongoing project, the work for which additional funds are required must be specifically identified within the scope of work for the project for which a Facilities Plan has been approved by the Department.

c. All other projects that do not meet either of the above conditions.

6. Notwithstanding the provisions of paragraph 5 above, no project on the Clean Water Revolving Loan Fund Priority List will be placed on the Intended Use Plan unless the municipality has submitted a Letter of Intent to the Department stating the Municipality's intention to proceed with the project, and a project schedule that indicates that the Municipality will have completed all prerequisite program requirements and will be able to receive a loan during the fiscal year.

7. The State of Louisiana Municipal Facilities Revolving Loan Fund Intended Use Plan is divided into two portions: a. the fundable portion and b. the planning portion. The fundable portion includes those projects expected to be awarded assistance during the fiscal year of the list. The planning portion includes those project steps expected to receive funding during the next four fiscal years after the fiscal year of the list, based on the best available information on funds expected to be available.

8. The State of Louisiana Municipal Facilities Revolving Loan Fund Intended Use Plan will be made available for inspection at the same time as the Municipal Facilities Priority List each year, but not less than 30 days prior to submission to the U.S. Environmental Protection Agency. Each municipality that has submitted preapplication materials will be notified by letter of the availability of the Intended Use Plan. It is the responsibility of each potential borrower to examine all the information listed for his/her project for accuracy. Any errors or omissions should be reported to the department prior to the deadline for comments. Applications for assistance which deviate substantially from the proposed project amount contained in the Intended Use Plan

Exhibit D to the LDEQ CWSRF IUP

might not be processed.

9. A project may be moved from the fundable portion of the list to the planning portion (bypassed) if it is determined that the project will not be ready to proceed during the funding year.

10. If cash flow of the program permits, either through project bypasses or the availability of additional federal capitalization funds, or if for any other reason it is determined by the department that additional funds are available for projects, projects from the planning portion of the list which are ready for funding and which have completed the priority list public participation requirements will be advanced to the fundable portion of the list. Individual projects will be advanced, in accordance with provisions of Paragraph 5 of this Section until the available federal funding is consumed.

11. If insufficient projects meeting the criteria of Paragraph 6 of Section D for advancement from the planning to the fundable portion of the list are available to consume the additional funds, the department may prepare a revised list containing projects which have not met public hearing requirements; however, such projects will not be funded until public hearing requirements have been met.

12. If the actual amount available during the year is less than the projected amount expected to be available in accordance with Paragraph 2 above, and it is not possible to fund all projects on the fundable portion of the Intended Use Plan, then, of the projects not yet funded, those projects selected last for inclusion on the Intended Use Plan will be moved from the fundable portion to the planning portion until the remaining projects can be funded with the available funds.

13. If any project requests more funds than the amount listed on the Intended Use Plan for that project, and granting the additional funds would result in insufficient funds for the remaining projects on the fundable portion, the additional funds will not be granted; but the project may request the additional funds be added to the fundable portion for the next fiscal year.

14. The State of Louisiana Municipal Facilities Revolving Loan Fund Intended Use Plan will be submitted to the U.S. Environmental Protection Agency for their review and acceptance as soon as possible after the public comment period has expired.

F. Bond Sales (Leveraging)

1. When there are insufficient monies in the fund to meet the needs for assistance in a timely manner, and it is determined to be in the best interest of the fund, the Department may sell bonds to increase the amount of money available for loans.

2. The Department must pledge some assets of the fund as security for the bonds and as a source of revenue to retire the bonds. Assets that may be pledged include loans to be made with the proceeds of the bonds, existing loans, or other assets as agreed upon by the Department and the bond purchasers.

3. A sale of bonds may be proposed where loans will be made with the proceeds of the bonds, and the repayment of those loans will be used to retire the bonds.

a. Those municipalities intended to receive loans from bond proceeds will be expected to make timely repayments on their loans, and therefore must meet certain creditworthiness criteria as required by conditions of the bonds.

b. Any municipality that does not meet the required creditworthiness criteria for a particular bond sale may not benefit from the proceeds of the bonds.

c. Those municipalities intended to receive loans from bond proceeds must be ready to begin construction within the time specified in the bonds.

d. Projects to receive loans from the proceeds of the bonds will be selected in accordance with the provisions of this priority system, except that projects that do not meet the required creditworthiness criteria will not be selected.

4. A sale of bonds may be proposed where the repayments of existing loans will be used to retire the bonds.

Exhibit D to the LDEQ CWSRF IUP

a. The proceeds of these bonds will not be dedicated to any specific projects and will be deposited into the fund

b. Projects to receive loans from the proceeds of the bonds will be selected in accordance with the provisions of this priority system, with no extraordinary creditworthiness criteria.

5. Prior to the sale or issuance of any bonds for purposes described in this section, the Department will prepare or cause to be prepared a financial analysis of the impacts of the proposed bond sale on the fund and will obtain concurrence from the U. S. Environmental Protection Agency.

G. Reserves Related to the Intended Use Plan

1. Reserves for State Management Assistance

a. The state may set aside a portion of the total funds available during the Intended Use Plan year for use by the Department in fulfilling its obligations to manage the Municipal Facilities Revolving Loan Fund Program.

b. This reserve is currently limited to four percent of each federal capitalization grant.

2. Reserve for loans to supplement Hardship Grants

a. The state may set aside a portion of the total funds available during the Intended Use Plan year for loans to municipalities that are expected to receive hardship grants, and that will require additional funding to complete the project for which hardship grant funding is proposed.

b. To avoid loss of funds, projects that qualify for hardship grants will be placed on the fundable portion of the Intended Use Plan, ahead of other projects in accordance with provisions of Paragraph 5 of Section E. This reserve will be implemented only to the extent necessary to avoid loss of hardship grant funds.

3. Reserve for loans for Facilities Planning and Design.

a. The state may set aside a portion of the total funds available during the Intended Use Plan year for loans to municipalities for Facilities Planning and Design.

Exhibit D to the LDEQ CWSRF IUP

- b. This reserve is limited to municipalities that meet all of the following conditions:
 - i. The construction portion of the project must appear within the five year planning portion of the Intended Use Plan.
 - ii. The loan is to perform facility planning or design work that has not been previously funded.
 - iii. The applicant does not have the financial capability to complete facility planning and design work without financial assistance.
- c. This reserve will be implemented only to the extent that the state deems necessary to provide assistance to municipalities that would be unable to complete Facilities Planning and Design work without assistance and that are expected to receive assistance for construction when Facility Planning and Design work are completed. This reserve may not exceed ten percent of the funds available in accordance with Paragraph 2 of Section E.

4. Reserves required for sale of bonds

- a. The state may set aside a portion of the total funds available during the Intended Use Plan year to use as security, to establish debt service reserve funds, or for other purposes that may be required for the sale of bonds for the purpose of increasing the funds available to the Municipal Facilities Revolving Loan Fund.
- b. This reserve will be implemented only when the Department determines that sale of bonds is in the best interests of the Municipal Facilities Revolving Loan Fund program and only to the extent that such securities and/or reserve funds are required.

H - Hardship Grants

- 1. Funds may be appropriated by Congress and allocated to the states for the purpose of making hardship grants to communities for the construction of wastewater collection and treatment facilities. When such funds are available to the state, they will be used to make grants to municipalities that meet all of the following conditions at the time an application for grant assistance is submitted:

Exhibit D to the LDEQ CWSRF IUP

a. The recipient community must have a population of 3,000 persons or less, may not be a remote area within a larger city, and must be designated by the state as a rural community.

b. The recipient community does not have centralized wastewater treatment or collection facilities, or needs improvements to onsite wastewater treatment systems and the state must determine that assistance will improve public health or reduce an environmental risk.

c. The per capita annual income of residents served by the project does not exceed 80 percent of the national per capita annual income according to the most recent determinations by the Bureau of the Census. (Currently, \$13,244 is 80 percent of the national per capita annual income of \$16,555, based on 1994 information.)

d. The local unemployment rate in the recipient community must exceed by one percentage point or more the most recently reported, monthly, national unemployment rate.

e. Without hardship assistance, the average annual wastewater treatment cost per household would exceed affordability criteria used by the state in making loans to municipalities.

2. The amount of hardship grant assistance to any community may not exceed the amount necessary to make a loan through the Municipal Facilities Revolving Loan Fund affordable.

3. If a community receives a hardship grant for a portion of the project cost and a loan from the Municipal Facilities Revolving Loan Fund for the remainder of the project cost, then the project must meet all of the requirements of Municipal Facilities Revolving Loan Fund projects.

4. If the Department receives applications for hardship grant assistance that exceed the funds available, the priority rating determined in Section C will be used to determine which applicant or applicants will receive hardship grant assistance.

050703	White Lake			
050801	Mermentau River - Catfish Point Control Structure to Gulf of Mexico (Estuarine)	2	20	40
050802	Big Constance Lake and associated waterbodies (Estuarine)	2	5	10
050901	Mermentau River Basin Coastal Bays and Gulf Waters to the State three-mile limit	2	20	40

Exhibit D to the LDEQ CWSRF IUP

TABLE B-2		Stream Subsegments and Subsegment Priority		
Subsegment Number	Stream Description	Degree of Support	Designated Uses	Priority Number
VERMILION-TECHE RIVER BASIN				
060101	Spring Creek - Headwaters to Cocodrie Lake (Scenic)	2	10	20
060102	Cocodrie Lake	2	5	10
060201	Bayou Cocodrie - From U.S. Hwy. 167 to the Bayou Boeuf-Cocodrie Diversion Canal (Scenic)	5	10	50
060202	Bayou Cocodrie - From Cocodrie Diversion Canal to intersection with Bayou Boeuf	5	5	25
060203	Chicot Lake	2	5	10
060204	Bayou Courtableau - Origin to West Atchafalaya Borrow Pit Canal	5	5	25
060205	Bayou Teche - Headwaters at Bayou Courtableau to Interstate Hwy. 10	5	5	25
060206	Indian Creek and Indian Creek Reservoir	2	15	30
060207	Bayou des Glaises Division Channel/West Atchafalaya Borrow Pit Canal (St. Landry, Avoyelles, and St. Martin Parishes)	2	5	10
060208	Bayou Boeuf - Headwaters to Bayou Courtableau	5	5	25
060209	Irish Ditch/Big Bayou - Unnamed Ditch to Irish Ditch (Ditch No. 1) to Big Bayou to Irish Ditch No. 2 to Confluence with Bayou Rapides	5	5	25
060210	Bayou Carron	4	5	20
060211	West Atchafalaya Borrow Pit Canal - from Bayou Courtableau to Henderson, La, includes Bayou Portage	2	5	10

Exhibit D to the LDEQ CWSRF IUP

TABLE B-2		Stream Subsegments and Subsegment Priority		
Subsegment Number	Stream Description	Degree of Support	Designated Uses	Priority Number
060212	Chatlin Lake Canal and Bayou Dulac - from Alexandria, Lal, to Bayou des Glaises Diversion Canal (includes 0602 segment of Bayou des Glaises)	2	5	10
060301	Bayou Teche - Interstate Hwy. 10 to Keystone Locks and Dam	5	5	25
060401	Bayou Teche - Keystone Locks and Dam to Charenton Canal	5	5	25
060501	Bayou Teche - Charenton Canal to Wax Lake Outlet	5	15	75
060601	Charenton Canal - From Charenton Floodgate to Intracoastal Waterway, includes Bayou Teche from Charenton to Baldwin	2	5	10
060701	Tete Bayou	4	5	20
060702	Lake Fausse Point and Dauterive Lake	2	5	10
060703	Bayou du Portage	5	5	25
060801	Vermilion River - Headwaters at Bayou Fusiliers-Bourbeaux junction to New Flanders (Ambassador Caffery) Bridge, LA Hwy. 3073	5	5	25
060802	Vermilion River - from New Flanders (Ambassador Caffery) Bridge, LA Hwy. 3073 to Intracoastal Waterway	5	5	25
060803	Vermilion River Cutoff - From Intracoastal Waterway to Vermilion Bay (Estuarine)	4	5	20
060804	Intracoastal Waterway - Vermilion Lock to Levee at Segment 0611 and 0608 boundary (Estuarine)	4	5	20

Exhibit D to the LDEQ CWSRF IUP

TABLE B-2		Stream Subsegments and Subsegment Priority		
Subsegment Number	Stream Description	Degree of Support	Designated Uses	Priority Number
060805	Breaux Bridge Swamp (Cypriere Perdue Swamp) , 0.5 mile Southeast of Breaux Bridge, LA, (See LAC 33:IX.1123 for full description of site and criteria)	4	5	20
060901	Bayou Petite Anse - Headwaters to Bayou Carlin (Estuarine)	2	5	10
060902	Bayou Carlin (Delcambre Canal) - Lake Peigneur to Bayou Petite Anse (Estuarine)	4	5	20
060903	Bayou Tigre - Headwaters to Bayou Petite Anse (Estuarine)	4	5	20
060904	New Iberia Southern Drainage Canal - origin to Intracoastal Waterway (Estuarine)	5	5	25
060905	New Iberia Southern Drainage Canal - Intracoastal Waterway to Weeks Bay (Estuarine)	4	5	20
060906	Intracoastal Waterway - New Iberia Southern Drainage Canal to Bayou Sale (Estuarine)	2	5	10
060907	Franklin Canal	4	5	20
060908	Spanish Lake	2	5	10
060909	Lake Peigneur (Estuarine)	4	5	20
060910	Boston Canal & associated	4	5	20
060911	Dugas Canal	2	5	10
061001	West Cote Blanche Bay (Estuarine)	2	20	40
061002	East Cote Blanche Bay (Estuarine)canals	2	20	40
061101	Bayou Petite Anse - Bayou Carlin at Fresh-brackish marsh boundary to Vermilion Bay (Estuarine)	2	5	10

Exhibit D to the LDEQ CWSRF IUP

TABLE B-2		Stream Subsegments and Subsegment Priority		
Subsegment Number	Stream Description	Degree of Support	Designated Uses	Priority Number
061102	Intracoastal Waterway - Levee at Segment 0611 and 0609 boundary to New Iberia Southern Drainage Canal (Estuarine)	2	5	10
061103	Freshwater Bayou Canal - From Intracoastal Canal to Control Structure (Estuarine)	2	5	10
061105	Marsh Island	2	5	10
061104	Vermilion Bay (Estuarine)	2	20	40
061201	Vermilion-Teche River Basin - Coastal Bays and Gulf Waters to State Three-mile limit	2	20	40

Exhibit D to the LDEQ CWSRF IUP

TABLE B-2		Stream Subsegments and Subsegment Priority		
Subsegment Number	Stream Description	Degree of Support	Designated Uses	Priority Number
MISSISSIPPI RIVER BASIN				
070101	Mississippi River - From Arkansas State Line to Old River Control Structure	2	5	10
070102	Gassoway Lake	2	5	10
070103	Marengo Bend (Old River Near Vidalia)	2	5	10
070201	Mississippi River: From Old River Control Structure to Monte Sano Bayou	4	15	60
070202	Old River Lake or Raccourci Lake	2	5	10
070203	Devil's Swamp Lake and Bayou Baton Rouge	5	5	25
070301	Mississippi River - From Monte Sano Bayou to Head of Passes	4	15	60
070401	Mississippi River Passes - Head of Passes to Mouth of Passes (Estuarine) (Includes Southwest, South, North Passes and Pass a Loutre)	2	20	40
070402	Baptiste Collette Bayou (Estuarine)	2	20	40
070403	Octave Pass and Main Pass (Estuarine)	2	20	40
070404	Tiger Pass, Red Pass, Grand Pass Tante Phine (Estuarine)	2	20	40
070501	Bayou Sara - Mississippi State Line to Mississippi River confluence	2	5	10
070502	Thompson Creek - Mississippi State Line to Mississippi River confluence	4	5	20
070503	Capitol Lake	5	5	25
070504	Monte Sano Bayou - from US Hwy 61 to Mississippi River confluence	4	5	20
070505	Tunica Bayou - Headwaters to Mississippi River	2	5	10

Exhibit D to the LDEQ CWSRF IUP

Subsegment Number	Stream Description	Degree of Support	Designated Uses	Priority Number
OUACHITA RIVER BASIN				
080101	Ouachita River - Arkansas State Line to Columbia Lock and Dam (Scenic from the Arkansas State Line to intersection with Bayou Bartholomew -22 miles)	4	15	60
080102	Bayou Chauvin - Headwaters to the Ouachita River	4	5	20
080201	Ouachita River - Columbia Lock and Dam to Jonesville	4	5	20
080202	Bayou Louis - Headwaters to Ouachita River	4	5	20
080203	Lake Louis	4	5	20
080301	Black River - Jonesville to Corps of Engineers Control Structure (at Mile 25, Serena)	2	5	10
080302	Black River - Corps of Engineers Control Structure to Red River	2	5	10
080401	Bayou Bartholomew - Arkansas State Line to Dead Bayou (Lake Bartholomew) (Scenic)	4	10	40
080402	Bayou Bartholomew - Dead Bayou (Lake Bartholomew) to Ouachita River	2	5	10
080501	Bayou de L'Outre - Arkansas State Line to Ouachita River (Scenic)	2	10	20
080601	Bayou D'Arbonne - Headwaters to Lake Claiborne	2	15	30
080602	Lake Claiborne	2	15	30
080603	Bayou D'Arbonne - From Lake Claiborne to D'Arbonne Lake	2	5	10
080604	Bayou D'Arbonne Lake	2	5	10
080605	Bayou D'Arbonne - From D'Arbonne Lake to Ouachita River (Scenic)	2	10	20

Exhibit D to the LDEQ CWSRF IUP

TABLE B-2		Stream Subsegments and Subsegment Priority		
Subsegment Number	Stream Description	Degree of Support	Designated Uses	Priority Number
080606	Cypress Creek - Headwaters to Bayou D'Arbonne (includes Colvin Creek)	2	5	10
080607	Corney Bayou - From Arkansas State Line to Corney Lake (Scenic)	2	10	20
080608	Corney Lake	2	5	10
080609	Corney Bayou - From Corney Lake to Bayou D'Arbonne Lake (Scenic)	4	10	40
080610	Middle Fork of Bayou D'Arbonne - From origin to Bayou D'Arbonne Lake (Scenic)	2	10	20
080701	Bayou Desiard (Oxbow Lake) and Lake Bartholomew (Dead Bayou)	2	15	30
080801	Cheniere Creek	2	5	10
080802	Cheniere Brake Lake	2	5	10
080901	Boeuf River - Arkansas State Line to Ouachita River	2	5	10
080902	Bayou Bonne Idee - Headwaters to Boeuf River	2	5	10
080903	Big Creek - Headwaters to Boeuf River (including Big Colewa Bayou)	2	5	10
080904	Bayou Lafourche - Near Oakridge to Boeuf River near Columbia	4	5	20
080905	Turkey Creek - Headwaters to Turkey Creek Cutoff and Turkey Creek Cutoff to Big Creek including Glade Slough	4	5	20
080906	Turkey Creek - From Turkey Creek Cutoff to Turkey Creek Lake	2	5	10
080908	Lake LaFourche	2	5	10
080909	Crew Lake	2	5	10
080910	Clear Lake	2	5	10
080911	Woolen Lake	2	5	10

TABLE B-2 Stream Subsegments and Subsegment Priority				
Subsegment Number	Stream Description	Degree of Support	Designated Uses	Priority Number
081605	Little River - From Catahoula Lake to Dam at Archie	2	5	10
081606	Fish Creek - Headwaters to Little River (Scenic)	2	10	20
081607	Trout Creek - Headwaters to Little River (Scenic)	2	10	20
081608	Big Creek - Headwaters to Little River (Scenic)	2	15	30
081609	Hemphill Creek - Headwaters to Catahoula Lake (includes Hair Creek)	2	5	10
081610	Old River - Catahoula Lake to Little River	2	5	10
081611	Bayou Funny Louis - Headwaters to Little River	4	5	20

TABLE B-2 Stream Subsegments and Subsegment Priority				
Subsegment Number	Stream Description	Degree of Support	Designated Uses	Priority Number
PEARL RIVER BASIN				
090101	Pearl River - Mississippi State Line to Pearl River Navigation Canal	4	5	20
090102	East Pearl River - From confluence with Holmes Bayou to Interstate Hwy 10	2	5	10
090103	East Pearl River - From Interstate Hwy 10 to Lake Borgne (Estuarine)	2	5	10
090104	Peters Creek - Headwaters to Pearl River	2	5	10
090105	Pearl River Navigation Canal - From Pools Bluff to Lock #3	2	5	10

Exhibit D to the LDEQ CWSRF IUP

TABLE B-2		Stream Subsegments and Subsegment Priority		
Subsegment Number	Stream Description	Degree of Support	Designated Uses	Priority Number
090106	Holmes Bayou - From Pearl to West Pearl River (Scenic)	2	10	20
090107	Pearl River - From Pearl River Navigation Canal to Holmes Bayou			
090201	West Pearl River - From Headwaters to confluence with Holmes Bayou (Scenic)	2	10	20
090202	West Pearl River - Confluence of Holmes Bayou to Rigolets (includes east and west mouths) (Scenic)	2	10	20
090203	Lower Bogue Chitto - From Pearl River Navigation Canal to Wilsons Slough	2	5	10
090204	Pearl River Navigation Canal below Lock #3	2	5	10
090205	Wilson Slough - All of that portion of the slough (bayou) lying within the boundaries of St. Tammany Parish (Scenic)	2	10	20
090206	Bradley Slough - That portion of the slough (bayou) lying within the boundaries of St. Tammany Parish (Scenic)	2	10	20
090207	Middle Pearl River & West Middle Pearl River - From West Pearl to Little Lake, includes East Middle River and Old River	2	5	10
090208	Little Lake (Estuarine)	2	5	10
090301	Pushepatapa Creek - Headwaters and tributaries e East Fork and West Fork join near state line to where it breaks up prior to its entrance into the Pearl River (Scenic)	2	10	20
090401	Bogue Lusa Creek - Headwaters to Pearl River	4	5	20

Exhibit D to the LDEQ CWSRF IUP

RED RIVER BASIN				
100101	Red River - Arkansas State Line to Alexandria (Hwy. 165)	2	15	30
100201	Red River - Alexandria to Old River Control Structure Diversion Channel	2	15	30
100202	Little River - Headwaters to Old River near Marksville	2	5	10
100203	Old River & associated waterbodies (Spring Bayou Wildlife Management Area)	2	5	10
100301	Black Bayou - Texas State Line to LA Hwy. 1 at Black Bayou Lake	4	5	20
100302	Black Bayou Lake from Hwy. 1 to Spillway	2	5	10
100303	Black Bayou - from Spillway at Black Bayou Lake to Twelve Mile Bayou	5	5	25
100304	Twelve Mile Bayou - Origin to Red River	4	15	60
100305	McCain Creek, Mahlin Bayou - Origin to confluence with Twelve Mile Bayou	4	5	20
100306	Kelly Bayou - Arkansas State Line to Black Bayou	2	5	10
100307	Caddo Lake & James Bayou - Texas State Line to Caddo Lake	2	15	30
100308	Paw Paw Bayou & Tributaries - Texas State Line to Cross Lake	2	15	30
100309	Cross Bayou - Texas State Line to Cross Lake	2	15	30
100310	Cross Lake	2	15	30
100401	Bayou Bodcau - From Arkansas State Line to Red Chute Bayou at Cypress Bayou junction (includes Bodcau Lake)	2	5	10

Exhibit D to the LDEQ CWSRF IUP

TABLE B-2		Stream Subsegments and Subsegment Priority		
Subsegment Number	Stream Description	Degree of Support	Designated Uses	Priority Number
100402	Red Chute Bayou - From Cypress Bayou junction to Flat River	5	5	25
100403	Cypress Bayou - Headwaters to Cypress Bayou Reservoir	2	15	30
100404	Cypress Bayou Reservoir	2	15	30
100405	Black Bayou (including Black Bayou Reservoir)	2	15	30
100406	Flat River - Headwaters to Loggy Bayou	5	5	25
100501	Bayou Dorcheat - Arkansas State Line to Lake Bistineau (Scenic)	4	10	40
100502	Lake Bistineau	2	5	10
100503	Caney Creek - Headwaters to Cow Branch (Excluding Caney Lake)	2	5	10
100504	Caney Lake	2	5	10
100505	Loggy Bayou - Lake Bistineau Dam to Flat River	2	5	10
100506	Loggy Bayou - From Flat River to Red River	2	5	10
100601	Bayou Pierre - Headwaters to Sawing Lake	5	5	25
100602	Boggy Bayou - Headwaters to Wallace Lake at U.S. Highway 171	5	5	25
100603	Wallace Lake	5	5	25
100604	Wallace Bayou -Wallace Lake to Bayou Pierre	2	5	10
100605	Lake Edwards & Smithport Lake	4	5	20
100606	Bayou Pierre - From Sawing Lake to Red River	2	5	10
100701	Black Lake Bayou - Headwaters to Webster-Bienville Parish Line	2	5	10

Exhibit D to the LDEQ CWSRF IUP

TABLE B-2		Stream Subsegments and Subsegment Priority		
Subsegment Number	Stream Description	Degree of Support	Designated Uses	Priority Number
100702	Black Lake Bayou - Webster-Bienville Parish Line to Black Lake (Scenic)	4	10	40
100703	Black Lake and Clear Lake	2	5	10
100704	Kepler Creek - Headwaters to Kepler Lake	4	5	20
100705	Kepler Lake	2	5	10
100706	Kepler Creek - Kepler Lake to Black Lake Bayou	2	5	10
100707	Castor Creek - Headwaters to Black Lake Bayou	2	5	10
100708	Unnamed Tributary to Castor Creek near Town of Castor	2	5	10
100709	Grand Bayou -Headwaters to Black Lake Bayou	2	5	10
100710	Unnamed tributary to Grand Bayou near Town of Hall Summit	2	5	10
100801	Saline Bayou - From its origin near Arcadia to LA Hwy 156 in Winn Parish (Scenic)	4	10	40
100802	Saline Lake	3	5	15
100803	Saline Bayou - From Saline Lake to Red River	2	5	10
100804	Unnamed Tributary to Saline Bayou near Town or Arcadia	4	5	20
100901	Bayou Nantaches- Headwaters to Nantachie Lake	2	5	10
100902	Nantachie Lake	2	5	10
100903	Bayou Nantachie - Nantachie Lake to Red River	2	5	10
101001	Sibley Lake	2	15	30
101101	Cane River - Above Natchitoches to Red River	2	15	30
