

## **CORRECTIVE ACTION PLAN CONCURRENCE**

I, \_\_\_\_\_, as the duly authorized agent for \_\_\_\_\_, the owner/operator of the Underground Storage Tanks located at the site referred to in the official records of the Louisiana Department of Environmental Quality (LDEQ) as \_\_\_\_\_, and carrying the Agency Interest Number \_\_\_\_\_, have reviewed the proposed Corrective Action Plan (CAP) for the remediation of the release at the site and concur in the proposed approaches and associated costs enumerated in that plan. Furthermore, if the site is considered an eligible participant in the Motor Fuels Trust Fund, I understand the owner/operator of the site is ultimately responsible for the continued remediation and the associated costs of the remedial action at the site in so much as it exceeds the reimbursement limits of the Motor Fuels Trust Fund. I also understand that the remedial activities at the site are subject to LDEQ approval and/or modifications. By the signing of this Concurrence, I urge that the proposed CAP be considered for approval.
