DEFINITIONS

BULK FACILITY: A facility, including pipeline terminals, refinery terminals, motor fuel distribution terminals, rail and barge terminals, and association tanks, connected or separate, from which motor fuels are withdrawn from bulk and delivered into a cargo tank or a barge used to transport these materials.

CARGO TANK: An assembly that is used for transporting, hauling, or delivering liquids and that consists of a tank having one or more compartments mounted on a wagon, truck, trailer, railcar, or wheels.

MOTOR FUEL: All grades of gasoline, including but not limited to gasohol, No. 1 diesel, No. 2 diesel, kerosene, and all aviation fuels; liquid petroleum (LP) gas shall not be included in this definition of motor fuel.

WITHDRAWAL FROM BULK: The removal of a motor fuel from a bulk facility storage tank directly into a cargo tank or a barge to be transported to another location other than another bulk facility and deposited into an underground storage tank for distribution, direct consumption, or sale in this state.
