Public Meeting Disclaimer  
 This map has been designed as a tool to be used in determining the order of questions at the public hearing and is based on the best information available to the Louisiana Department of Environmental Quality's GIS Center at this time. The Locator icons were drawn around a point which approximates the center of the facility site. It is recognized that the shape and the exact location of the 2-mile radius would vary slightly if property boundaries had been followed, as opposed to showing the center of the facility. Again, this map is solely a tool to help speakers determine their location in relation to the facility.

LDEQ Disclaimer  
 The Louisiana Department of Environmental Quality (LDEQ) has made every reasonable effort to assure the accuracy and reliability of the information on this map or data set. Nevertheless, the user should be aware that the information on which it is based may have come from any of a variety of sources, which are of varying degrees of accuracy. Therefore, LDEQ cannot guarantee the accuracy of the map or data set and does not accept any responsibility for the consequences of its use.

**Public Hearing Disclaimer**  
 This map has been designed as a tool to be used in determining the order of speakers at the public hearing and is based on the best information available to the Louisiana Department of Environmental Quality's GIS Center at this time. The 2-mile buffer circle was drawn around a point which approximates the center of the facility site. It is recognized that the shape and the exact location of the 2-mile buffer would vary slightly if property boundaries had been followed, as opposed to showing the center of the facility. Again, this map is strictly a tool to help speakers determine their location in relation to the facility.
