Environmental Regulation Update sessions scheduled through DEQ EnviroSchool

BATON ROUGE - The Louisiana Department of Environmental Quality's EnviroSchool will host four free sessions on environmental regulation updates. The sessions will provide a review of some state and federal regulations and their implications. Included in the sessions will be help in understanding the delegation of authority to DEQ, how regulations govern the DEQ activities and processes and how the public can participate in the rule making process. The session will also include a review of any new regulatory changes resulting from of the recent legislative session.

Please register for one of the sessions below:
