DEQ offers hands-on training for NetDMR online reporting in three locations

BATON ROUGE – The Louisiana Department of Environmental Quality is offering training for permittees on the use of the NetDMR online application for the submission of discharge monitoring reports. A discharge monitoring report, known as a DMR, is a self-reporting document that is generated by permittees who have a Louisiana Pollutant Discharge Elimination System permit. The DMR contains information about discharges into waters of the state.

DEQ's training is conducted in person in a computer lab setting to allow for hands-on experience using NetDMR. The one-day session lasts approximately three hours and is intended to provide permittees and data providers with an overview of the NetDMR application which will enable the online submission of Discharge Monitoring Reports. Participants will walk through registering for an account, entering data, and signing and submitting a DMR online using the NetDMR test environment.

The training schedule is as follows:

Jennings Area

Thurs., July 30, 9 a.m. to 12 p.m.
SOWELA – Technical College-Morgan Smith
1230 North Main Street, Jennings

Alexandria Area

Thurs., Aug. 27, 9 a.m. to 12 p.m.
LA Technical College – Alexandria Campus
4311 South McArthur Drive, Alexandria

Baton Rouge Area

Thurs., Sept. 10, 8:30 a.m. to 11:30 a.m.
DEQ Headquarters, Galvez Building
602 N. 5th St., Baton Rouge

Registering is required as space is limited. To register, please email deqnetdmr@la.gov.
