Slide 7

GENTILLY DISPOSAL SITE

A Decisional Document was recently issued regarding ground and surface water monitoring, stability, and impact to the levee.

Results show that stability is good and the facility will not have any impact to the levee.

As a result, the facility was authorized to take a weekly average of 210 thousand cubic yards a week up from the FEMA cap of 35 thousand cubic yards a week.

* 9.2 Million Cubic Yards disposed as of 12/31/06.

Slide 29

DEBRIS MANAGEMENT PLAN

Purpose

The purpose of the Comprehensive Plan for Disaster Clean-up and Debris Management is to establish a framework to facilitate the proper management of debris generated by natural disasters within the state.

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY
ASSISTANT SECRETARY CHUCK CARR BROWN, Ph.D.

Slide 30

DEBRIS MANAGEMENT PLAN

Background

The LDEQ prepared a Hurricane Katrina Debris Management Plan which was released on September 28, 2005, and revised on October 14, 2005. Additionally during the 2006 Regular Session of the Louisiana Legislature, Senate Bill 583 (SB 583, Act 662) was enacted. SB 583 directs the LDEQ to build upon its existing plan for the handling of debris generated as a result of a natural disaster.

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY
ASSISTANT SECRETARY CHUCK CARR BROWN, Ph.D.

Slide 31

DEBRIS MANAGEMENT PLAN

Background

SB 583 dictates the use of the following debris management practices, in order of priority, to the extent they are “appropriate, practical, efficient, timely and have available funding: recycling and composting; weight reduction; volume reduction; incineration or co-generation; and land disposal.”

LOUISIANA DEPARTMENT OF **ENVIRONMENTAL QUALITY**
*ASSISTANT SECRETARY CHUCK CARR BROWN, Ph.D.

Slide 32

DEBRIS MANAGEMENT PLAN

The Debris Management plan is designed to encompass LDEQ’s goal of reduction, conservation and management relative to debris management. The plan also encompasses the legislative goal to reduce debris 50% by volume and 50% by weight prior to disposal in a landfill.

LOUISIANA DEPARTMENT OF **ENVIRONMENTAL QUALITY**
*ASSISTANT SECRETARY CHUCK CARR BROWN, Ph.D.

Slide 33

DEBRIS MANAGEMENT PLAN

The Plan Addresses the Proper Handling of:

- Construction Debris
- Green Waste
- Munitions
- Household Hazardous Waste
- Debris in the Marsh
- Vehicles and Vessels
- Electronic Goods
- White Goods
- Asbestos
- Demolition
- Tires

LOUISIANA DEPARTMENT OF **ENVIRONMENTAL QUALITY**
ASSISTANT SECRETARY CHUCK CARR BROWN, Ph.D.

Slide 34

DEBRIS MANAGEMENT PLAN

Key Factors

This plan includes the authorization of Debris Management Sites.

The Plan encourages local governments to establish standby contracts.

The Plan is evergreen.
