

Louisiana Environmental Conference and Trade Fair rescheduled to March 2022

The Louisiana Solid Waste Association (LSWA) and the LDEQ are rescheduling the Louisiana Environmental Conference and Trade Fair, originally scheduled for Sept. 15-17, to **March 16-18, 2022**, in Lafayette. We have been closely monitoring and evaluating the spread of the coronavirus and the concerns of all involved with the conference and feel it is in the best interest of all involved to postpone once again. The health and safety of attendees, speakers, exhibitors, and staff must be our top priority.

Please note that all registrations will be transferred and any additional conference-related information will be posted at the LSWA website at www.LSWA.us.

For any questions please contact Suzanne Bordelon at Suzanne.bordelon@la.gov or Yolunda.righteous@la.gov or Connie.Henry@lwsa.us.
