

**Title 33**  
**ENVIRONMENTAL QUALITY**  
**Part I. Office of the Secretary**  
**Subpart 1. Departmental Administrative Procedures**

**Chapter 11. Declaratory Rulings**

**§1151. Fees**

**A. Fee for Declaratory Ruling**

1. After a petition for a declaratory ruling has been received by the department, the appointing authority will determine how the department will proceed according to LAC 33:I.1119.A. If the department decides to proceed via LAC 33:I.1119.A.1 or LAC 33:I.1119.A.3, a minimum \$1,500 nontransferable and nonrefundable fee shall be submitted to the department.
2. Prior to the issuance of the declaratory ruling, a final fee determination shall be made.
  - a. An appropriate fee shall be computed based on the maximum hourly overtime salary, including associated related benefits, of the department's civil service employee who issues the ruling.
  - b. The fee shall be computed by multiplying the salary figure calculated according to Subparagraph A.2.a of this Section by every overtime hour, or portion thereof, worked by the department employee on the declaratory ruling.
  - c. If the final fee based on these calculations exceeds \$1,500, the applicant shall be invoiced the final fee amount, less the \$1,500 already received paid. The declaratory ruling shall not be issued until this amount is paid.

**B. Refunds. The fees in this Section are nontransferable and nonrefundable.**

**C. Methods of Payment**

1. All payments made by check, draft, or money order shall be made payable to the Louisiana Department of Environmental Quality, and mailed to the department at the address provided on the invoice.
2. Electronic Methods of Payment
  - a. Persons wishing to make payments using the electronic pay method should access the department's website and follow the instructions provided on the website.
  - b. Persons wishing to make payments using the electronic funds transfer (EFT) method shall contact the Office of Management and Finance for further instructions.
3. Cash is not an acceptable form of payment.

## **Chapter 12. Requests for Review of Environmental Conditions**

### **§1201. Applicability and Scope**

- A. This Chapter applies to reviews by the department of reports of environmental conditions at specified tracts of immovable property when such reports from site investigations are not required or requested by the administrative authority.
- B. Nothing herein shall be construed to diminish the responsibility of any person (e.g., owner, operator, employee, agent, contractor, or assign) having knowledge of the presence at any site of any hazardous substance, hazardous waste, hazardous waste constituent, or other pollutant or contaminant, to notify the department pursuant to LAC 33:I.Chapter 39. If additional information becomes available to indicate that the source of the release is a current discharge or a discharge that should have been reported, enforcement action may be taken.

### **§1203. Procedure for Submittal of Request**

- A. All requests for reviews by the department of reports of environmental conditions shall be accompanied by an initial \$1650 minimum fee.
  - 1. All payments made by check, draft, or money order shall be made payable to the Department of Environmental Quality, and mailed to the department with the request.
  - 2. Persons wishing to make payments using the electronic pay (e-pay) method shall access the department's website and follow the instructions provided on the website.
  - 3. Persons wishing to make payments using the electronic funds transfer (EFT) method shall contact the Office of Management and Finance for further instructions.
  - 4. Cash is not an acceptable form of payment.
- B. Contents of Request. An applicant requesting a review of environmental conditions for specific immovable property shall furnish the following information:
  - 1. the agency interest number or a completed agency interest form from the department identifying the facility/agency interest;
  - 2. the area of investigation, if different from the facility/agency interest location;
  - 3. the basis for the request;
  - 4. the purpose of the use of the property and the date-range of the use;
  - 5. a brief description of activities that occurred on the property;
  - 6. the future intended use of the property;
  - 7. the types and results of investigations that have occurred, including the following information:
    - a. report dates;
    - b. the media investigated;
    - c. the constituents of concern (COC);
    - d. the maximum remaining concentration of the COC; and
    - e. the limiting RECAP standards for the COC;
  - 8. any remedial standards previously developed for the property;
  - 9. any remedial actions taken for the property; and
  - 10. any other information requested by the administrative authority.
- C. An applicant shall submit the request for review, in accordance with the requirements of Subsection B of this Section, in triplicate, with the initial minimum fee in Subsection A of this Section, to the administrator of the Office of Environmental Assessment.
- D. The administrative authority will issue the result of the review to the owner/operator of the facility and to the person requesting the review.
- E. The administrative authority shall keep an accounting of time spent by the department civil service employee processing the review request. Every hour or portion thereof that the

department civil service employee works processing the request shall be multiplied by the maximum per-hour overtime salary, including associated related benefits, of the department civil service employee who performed the work. If this amount exceeds the initial minimum fee charged pursuant to R.S. 30:2011(D)(25) and Subsection A of this Section, an additional fee shall be charged for the amount exceeding the initial minimum fee.

1. An invoice for the additional fee shall be transmitted to the person requesting the review after the review is complete.
2. Failure to pay the additional fee by the due date specified on the invoice will constitute a violation of these regulations and shall subject the person requesting the review to relevant enforcement action under the Louisiana Environmental Quality Act.

## **Chapter 14. Groundwater Fees**

### **1401. Authority**

- A. Rules and regulations are hereby established by the Department of Environmental Quality as authorized by R.S. 30:2014.

### **§1403. Scope and Purpose**

- A. The purpose of these regulations is to establish a fee system for funding the departmental review and oversight of assessment and remediation activities undertaken by those entities noted in LAC 33:I.1405 and for funding the monitoring, investigation and other activities required to be conducted for the maintenance of a safe and healthful environment by the Department of Environmental Quality.

### **§1405. Applicability**

- A. These rules and regulations apply to facilities which are required under solid waste regulations or hazardous waste regulations to produce annual reports concerning the groundwater condition at their sites, to facilities which have installed groundwater monitoring systems, and to facilities conducting assessment and/or remediation of groundwater contamination (regardless of whether said contamination originated from a regulated waste management unit or from a non-regulated facility) for which the department is providing oversight. These rules and regulations do not apply:
1. to sites over which other departments, such as the Department of Natural Resources, are legitimately exercising oversight and to which the department provides no assistance or technical guidance;
  2. to sites regulated under the underground storage tank regulations; or
  3. to facilities billed under the authority of another Part or Chapter of Title 33 for the same activity.

### **§1407. Definitions**

- A. The following terms used in this Chapter shall have the meanings listed below, unless the context otherwise requires, or unless specifically redefined in a particular Section.

Assessment—planning, data gathering and reporting, and other activities used to generate a report that appraises groundwater contamination and draws conclusions as to the need for further assessment and/or corrective action.

Assessment Oversight—departmental review and evaluation of a facility's assessment activities.

Corrective Action Oversight—departmental review and evaluation of corrective action plans and of remedial actions undertaken to restore the quality of contaminated groundwater.

Corrective Action Plan—a plan that details a schedule of remedial actions that will restore the quality of contaminated groundwater.

Non-Regulated Facility—a facility that is not classified as a solid or hazardous waste facility but under which groundwater contamination has been detected.

Regulated Unit—a solid waste facility or a hazardous waste facility under which groundwater contamination has been detected.

### **§1409. Groundwater Protection Fees**

- A. Assessment Oversight (Annual). The fee listed below covers the cost of reviewing, evaluating, and approving plans and/or reports that assess groundwater contamination and draw conclusions as to the need for further assessment and/or corrective action.

Hazardous Waste Facilities	\$11,435
Solid Waste Facilities	\$7,623
Nonregulated Facilities	\$3,812

- B. Corrective Action Oversight (Annual). The fee listed below covers the cost of reviewing, evaluating, and approving plans and/or actions to remediate groundwater that has been contaminated by a facility.

Hazardous Waste Facilities	\$15,246
Solid Waste Facilities	\$11,435
Nonregulated Facilities	\$3,812

- C. Annual Report Review Fee. The fee listed below covers the cost of reviewing the groundwater annual reports required by Hazardous and/or Solid Waste regulations.

Hazardous Waste Facilities	\$1,525
Solid Waste Facilities	\$381

- D. Groundwater Monitoring Systems Review. The fee listed below covers the cost of reviewing the geology and design of proposed groundwater monitoring systems to ensure compliance with department specifications.

Each well	\$726
-----------	-------

- E. Groundwater Monitoring Systems Inspection Fee (Annual). The fee listed below covers the cost of inspecting monitoring systems to ensure that they are functioning properly and continue to maintain their integrity. The cost also includes other activities, such as the analysis of boring logs and site geology (cross sections, isopachs, etc.). The maximum fee that can be charged for this category is \$7,260.

Each well	\$363
-----------	-------

- F. Facility Inspection Fee (Annual). The fee listed below covers the cost of inspecting the various facilities to ensure compliance with the groundwater protection requirements contained in the facilities' permits.

Hazardous Waste Facilities	\$1,452
With sampling	\$10,890
Solid Waste Facilities	\$726
With sampling	\$2,178

- G. Oversight of Abandonment Procedures. The fee listed below covers the cost of reviewing plans to plug and abandon all non-permitted groundwater monitoring systems (monitoring wells, piezometers, observations wells, and recovery wells) to ensure that they do not pose a potential threat to groundwater.

Casing pulled	\$146 each well
Casing reamed out	\$291 each well
Casing left in place	\$726 each well

- H. Maximum Total Fee per Facility. The maximum annual fee that can be assessed a facility under these regulations is \$45,739.

**§1411. Methods of Payment**

- A. All payments made by check, draft, or money order shall be made payable to the Department of Environmental Quality, and mailed to the department at the address provided on the invoice.
- B. Electronic Methods of Payment
  - 1. Persons wishing to make payments using the electronic pay method should access the department's website and follow the instructions provided on the website.
  - 2. Persons wishing to make payments using the electronic funds transfer (EFT) method shall contact the Office of Management and Finance for further instructions.
- C. Cash is not an acceptable form of payment.

**§1413. Late Payment Fee**

- A. Payments not received within 15 days of the due date will be charged a late payment fee.
- B. Any late payment fee shall be calculated from the due date indicated on the invoice.
- C. Payments not received by the department by:
  - 1. the fifteenth day from the due date will be assessed a 5 percent late payment fee on the original assessed fee;
  - 2. the thirtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee; and
  - 3. the sixtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee.

**§1415. Failure to Pay**

- A. Failure to pay the prescribed application fee or annual fee as provided herein, within 90 days after the due date, will constitute a violation of these regulations and shall subject the person to applicable enforcement actions under the Louisiana Environmental Quality Act including, but not limited to, revocation or suspension of the applicable permit, license, registration, or variance.

## **Chapter 17. Permit Qualifications and Requirements**

### **§1701. Requirements for Obtaining a Permit**

- A. In addition to meeting the requirements for permits outlined in the applicable sections of the environmental quality regulations, an applicant shall:
  - 1. have no history of environmental violation(s) that demonstrates to the department an unwillingness or inability to achieve and maintain compliance with the permit for which the application is being made, unless the department determines that the applicant's history of environmental violation(s) can be adequately addressed by permit conditions;
  - 2. if required, register with the Secretary of State;
  - 3. owe no outstanding monies including, but not limited to: fees, cost recovery, reimbursement costs, response costs, final judgments, or final penalties to the department; and
  - 4. if under a compliance schedule, be making satisfactory progress in meeting the conditions of the compliance schedule.
- B. Before issuing any permit or transfer of ownership of a permit, the administrative authority may conduct an evaluation of the applicant related to the management of any facilities or activities subject to regulation under any applicable air, water, solid waste, hazardous waste, radiation control, or other environmental programs administered by the various states of the United States or by the federal government. If, pursuant to this evaluation, the administrative authority determines that the applicant has demonstrated an unwillingness or inability to achieve and maintain compliance with the permit for which application is being made, the administrative authority may:
  - 1. include such conditions in the permit as reasonably deemed necessary for the protection of human health and the environment; or
  - 2. deny any application for the issuance or transfer of the permit.
- C. The applicant shall provide to the Office of Environmental Services a list of the state(s) where he or she has federal or state environmental permits identical to, or of a similar nature to, the permit for which application is being made. This information shall be provided for all individuals, partnerships, corporations, or other entities who own a controlling interest (50 percent or more) in the company or who participate in the environmental management of the facility for an entity applying for a permit or an ownership interest.
- D. In addition to providing the information required in Subsection C of this Section, the applicant shall submit a written statement to the Office of Environmental Services as part of the permit application, to certify that:
  - 1. if required, the applicant has registered with the secretary of state; and
  - 2. no outstanding fees or final penalties are owed to the department.
- E. The administrative authority may require the submission of additional information if the administrative authority deems such information necessary in order to make a determination under this Chapter

## Chapter 19. Facility Name and Ownership/Operator Changes Process

### §1911. Fees for Name and Ownership/Operator Changes

- A. Notifications of name or ownership/operator changes at a facility shall be submitted by the new owner or operator with the appropriate fees. The fees listed below cover the cost of reviewing, evaluating, and processing a name or ownership/operator change that has occurred at the facility.

Name and Ownership/Operator Change Fees	
Program	LAC Citation for Fee
Air	LAC 33:III.223, Fee Number 2000
Solid Waste: Type I, I-A, II, and II-A Facilities	LAC 33.VII.1501.C (N/A for name change alone)
Solid Waste: Type III Facilities or Beneficial Use Facilities	LAC 33.VII.1501.D (N/A for name change alone)
LPDES	LAC 33:IX.1309.D.4 (N/A for name change alone)

B. Methods of Payment

1. All payments made by check, draft, or money order shall be made payable to the Department of Environmental Quality, and mailed to the department at the address provided on the NOC-1 form.
2. Electronic Methods of Payment
  - a. Persons wishing to make payments using the electronic pay (e-pay) method shall access the department's website and follow the instructions provided on the website.
  - b. Persons wishing to make payments using the electronic funds transfer (EFT) method shall contact the Office of Management and Finance for further instructions.
3. Cash is not an acceptable form of payment.

- C. Failure to Pay. Failure to pay the prescribed name change or ownership/operator change fee as provided herein shall result in the change request not being processed by the department.

## **Subpart 3. Laboratory Accreditation**

### **Chapter 45. Policy and Intent**

#### **§4501. Description and Intent of Program**

- A. Description and Intent of the Laboratory Accreditation Program
  - 1. These regulations provide requirements for an accreditation program specifically applicable to commercial laboratories, wherever located, that provide chemical analyses, analytical results, or other test data to the department, by contract or by agreement, and the data is:
    - a. submitted on behalf of any facility, as defined in R.S. 30:2004;
    - b. required as a part of any permit application;
    - c. required by order of the department;
    - d. required to be included on any monitoring reports submitted to the department;
    - e. required to be submitted by contract; or
    - f. otherwise required by department regulations.
  - 2. The department laboratory accreditation program is designed to ensure the accuracy, precision, and reliability of the data generated, as well as the use of department-approved methods in the generation of that data. Laboratory data generated by commercial environmental laboratories that are not accredited under this Subpart shall not be accepted by the department.
- B. This accreditation covers the following matrices:
  - 1. air emissions;
  - 2. nonpotable water;
  - 3. solid and chemical material; and
  - 4. biological tissue.
- C. Each matrix, as defined in LAC 33:I.4503, is divided into test categories. Applications for accreditation may be made for one or more test categories within specified matrices. The laboratory shall identify in the application, the specific department-approved methods it will be using for each test category. The laboratory shall also have participated in all relevant department-approved proficiency testing programs and shall indicate this at the appropriate box or location on the application. Any variance from approved protocol or procedure is acceptable only with prior written confirmation by the department.
- D. Applicants must have an acceptable quality control system and associated documentation. Accreditation earned from other states or regulatory agencies may be accepted by the department, provided that a review shows that the requirements are no less stringent than those required by these regulations. Reciprocity with other state accreditation programs will be reviewed by the department, and if the requirements of these regulations are met, then accreditation may be granted.
- E. This Subpart shall not apply to the following:
  - 1. laboratory analyses programs accredited under the regulatory and statutory authority of the Louisiana Department of Health and Hospitals; and
  - 2. personnel monitoring services in accordance with LAC 33:XV.430.C and to those activities specifically licensed in accordance with LAC 33:XV.Chapter 3.Subchapter B, equivalent agreement state regulations, and the Nuclear Regulatory Commission regulations, Title 10 Code of Federal Regulations.

#### **§4503. Definitions**

A. When used in these rules and regulations, the following words and phrases shall have the meanings ascribed to them below.

Accreditation—the formal recognition by the department of a laboratory's competence wherein specific tests or types of tests can be accurately and successfully performed in compliance with all minimum requirements set forth in these regulations.

Annual Renewal Date—July 1.

Applicant—the laboratory requesting accreditation.

Commercial Laboratory—any laboratory, wherever located, that performs analyses or tests for third parties for a fee or other compensation and provides chemical analyses, analytical results, or other test data to the department, by contract or agreement, and the data is: submitted on behalf of any facility, as defined in R.S. 30:2004; or required as a part of any permit application; or required by order of the department; or required to be included on any monitoring reports submitted to the department; or otherwise required by department regulations. The term commercial laboratory does not include laboratories accredited by the Louisiana Department of Health and Hospitals in accordance with R.S. 49:1001, et seq.

Corrective Action Proficiency Test Sample—a proficiency test sample of known composition provided by an external source (e.g., EPA) that is used to evaluate lab performance after completion of required corrective action(s) of a failed proficiency evaluation test round.

Department—the Louisiana Department of Environmental Quality.

Department Accreditation Program—a program instituted by the department by which a laboratory that generates data for submittal to any area of the department may be deemed an accredited laboratory producing acceptable data, based upon the accuracy and reliability of the generated data, the use of department-approved methodology for the generation of the data, and the utilization of an acceptable quality control/quality assurance program to document the quality of the data produced.

Department-Approved Testing Methods—the laboratory and field procedures that have been approved by the department. These include all EPA-recognized methods, as well as those deemed equivalent by the department, that are adopted from existing standards and regulations or developed for specific fields of testing, specific testing technologies, or specific types of tests. This refers to the methods cited in the 40 CFR and subsequent changes published in the Federal Register from such sources as U.S. EPA, Standard Methods for the Examination of Water and Wastewater, ASTM, NIOSH, SW-846, American Public Health Association for Microbiological Methods, USGS, AOAC, and alternate test procedures approved for use.

Discreditation—the revocation by the department of the formal recognition of the laboratory's accredited status because of a violation of LAC 33:I.5705.F.

EPA—the United States Environmental Protection Agency.

EPA-Accepted Methods—the methods cited in the 40 CFR and subsequent changes published in the Federal Register; from such sources as EPA, Standard Methods for the Examination of Water and Wastewater, ASTM, NIOSH, SW846, American Public Health Association for Microbiological Methods, USGS, AOAC, and alternate test procedures approved for nationwide use, as well as any method approved by the department.

Field of Testing—Repealed.

Field Test—any activity or operation conducted on-site resulting in the measurement of a specific parameter. Field tests are generally conducted at or near the site of sampling and include soil classification, pH, temperature, flow rate, fugitive emissions monitoring of valves, pumps, flanges, etc.

Interim Status—a status that exists in the accreditation process wherein all application requirements have been met by the laboratory, but formal accreditation status has not been

granted by the department. Interim status is granted on a case-by-case basis at the discretion of the department and shall not exceed one year in length.

Laboratory—any facility, whether fixed-based, mobile, or field, that analyzes environmental samples and that seeks accreditation by the department.

Laboratory Representative—the laboratory employee who is designated as the contact person responsible for the information provided in the application and for ensuring compliance with the requirements for accreditation.

Matrix (Matrices)—the substrate of a test sample that includes air emissions, nonpotable water, solid and chemical materials, and biological tissue.

Mobile Laboratory—any facility that analyzes environmental samples and that seeks accreditation by the department that is capable of moving or being moved from one site to another.

NIST—National Institute of Standards and Technology.

NRC—Nuclear Regulatory Commission.

Primary Accrediting Authority—for the purpose of NELAP Accreditation, the Louisiana Department of Environmental Quality, with the exception of those laboratory analyses accredited under the regulatory and statutory authority of the Louisiana Department of Health and Hospitals.

Proficiency Evaluation Test Sample (PE)—a sample of known composition (unknown to laboratory) provided by an external source (e.g., EPA) that is used to evaluate lab performance.

Reaccreditation—the reinstatement of a fully accredited status by the department, thereby signifying that all violations of LAC 33:I.5705.F that initiated the discreditation action have been corrected and that the laboratory is deemed in compliance with requirements of these regulations.

Reciprocity—a method of obtaining accreditation, whereby the applicant laboratory provides documentation that demonstrates that its current certification or accreditation is no less stringent than required by these regulations. All fees associated with accreditation in the state of Louisiana shall be applicable. Laboratories located within the state of Louisiana shall be required to apply for a certification and shall not be eligible for reciprocity.

Round Robin Testing—a method of proficiency testing, whereby a blind sample is split and sent to laboratories for analysis from the department or its representative. Laboratories participating in round robin testing shall not pass test samples from one laboratory to another. This form of testing shall be limited to use where applicable.

Small Laboratory—a laboratory consisting of 10 or fewer people who influence the quality of data from sample collection through report generation.

Suspension—a temporary removal by the department of the accredited status, in part or whole, of a laboratory because of an infraction(s) of LAC 33:I.5705.F until such time that the infraction(s) is satisfactorily corrected and the laboratory is returned to a fully accredited status or the infraction(s) is not corrected and the laboratory is discredited.

Test Category—any one of the 11 categories listed in LAC 33:I.4705.B in which a laboratory may request department accreditation for a specific test or analysis.

Traceable Material—any material whose true value or true measurement can be related to a standard reference, usually national or international, all having stated uncertainties (e.g., NIST traceable thermometers, standards, reagents, etc.).

Variance—any deviation from a department-approved method that has the potential for affecting the analytical results generated from a test procedure.

## **Chapter 47. Louisiana Environmental Laboratory Accreditation Program (LELAP) State Accreditation Requirements**

### **§4701. Accreditation Process**

- A. The department accreditation process comprises four basic steps:
  - 1. the submittal to the Office of Environmental Assessment of a written request from the laboratory in the form of an application provided by the department, along with payment of all applicable fees;
  - 2. an on-site assessment/evaluation of the laboratory submitting the request/application by authorized representatives of the department with the appropriate laboratory background;
  - 3. the successful participation in department-approved applicable proficiency evaluations; and
  - 4. both periodic technical evaluation of the laboratory and periodic submittal by the laboratory of written documentation that all requirements of the department accreditation program are being fulfilled in order to maintain accreditation.
- B. When all requirements for accreditation have been successfully fulfilled, the department shall grant the applicant laboratory a formal notice of certification that lists those matrices, analytes, and methods for which the laboratory is certified. The certificate must be posted within public view in the laboratory setting.

### **§4703. Application for Accreditation**

- A. An applicant for environmental laboratory accreditation must be legally identifiable and possess a permanent business address and telephone number. The applicant laboratory must have the staff and resources in order to satisfactorily accomplish those analyses/tests for which accreditation is requested.
- B. An application for environmental laboratory accreditation shall be made in writing to the Office of Environmental Assessment, using the current application provided by the department. This application shall include all requested information and be accompanied by the appropriate application fee. Supplemental information may be required.
- C. Laboratories maintained on separate premises, even though operated under the same management, shall be required to maintain distinct accreditation. If a laboratory is located outside of the state of Louisiana, it shall be considered a separate and distinct laboratory and shall require individual accreditation. Separate accreditation is not required for buildings on the same or adjoining grounds. If a mobile laboratory is operating independently within the state, separate accreditation may be necessary.
- D. Each laboratory shall identify an official to represent it in all matters related to attaining and maintaining environmental laboratory accreditation. This official shall be the point of contact with the laboratory and shall be known as the laboratory representative. The laboratory representative may be any senior person from either the technical or managerial staff. The laboratory shall designate an individual in a position of authority to ensure that the laboratory complies with the criteria and conditions for accreditation. The laboratory shall also designate an individual who has the authority to bind the company in a legal manner.
- E. In cases where all application requirements have been met, including review of all methods and quality assurance program data, a status of interim status, as defined in LAC 33:I.4503.A, may be granted at the discretion of the department on a case-by-case basis.

Interim status may not exceed one year in length. Before a laboratory is granted full accreditation, all requirements of these regulations shall be met.

#### **§4705. Categories of Accreditation**

- A. At the time of application, each applicant shall clearly identify both the matrix (matrices) and the test categories for which accreditation is sought. A copy of each relevant test method documentation and the requisite equipment for the method shall be available at the laboratory. A current list of approved methods for each parameter/analyte shall be maintained by the Office of Environmental Assessment and shall be included as part of the application package. In cases where a method used by the laboratory is not listed, the laboratory shall submit documentation that verifies that the results obtained from the method in use are equal to or better than those results obtained from the approved method(s). The department shall review the data submitted by the laboratory and shall notify the laboratory in writing within 60 calendar days regarding whether the method is acceptable or unacceptable as an alternate method of analysis.
- B. A laboratory may apply for accreditation in any one or more of the four matrices, as defined in LAC 33:I.4503.A, and in one or more of the 11 test categories applicable to the matrix (matrices) selected. The laboratory shall be accredited in those parameters within the test category(ies) for which the laboratory demonstrates acceptable performance on proficiency samples (when available) and meets all other requirements of the department accreditation program. The accreditation test categories are as follows:
  - 1. metals;
  - 2. air pollutants including industrial hygiene and Toxic Organic Compounds (T.O.) methods, stack sampling, and ambient air;
  - 3. nutrients, minerals, ions, demands, classical wet chemistry, and total and fecal coliform;
  - 4. microbiology (including fecal coliform and total coliform);
  - 5. bioassay and biomonitoring;
  - 6. organics (including volatiles, semi-volatiles, pesticides, herbicides, and PCBs);
  - 7. dioxins and furans;
  - 8. radiochemistry and radio assay;
  - 9. asbestos;
  - 10. geo-technical properties of soils including, but not limited to, compaction test, permeability, particle size analysis, soils classification, etc.; and
  - 11. minor conventional parameters - BOD5, oil and grease, TSS, pH, fecal and total coliform, and residual chlorine.
- C. An accredited laboratory may request the addition of a matrix (matrices) and test category (categories) to its scope of accreditation at any time. Such a request shall be submitted on the current application to the Office of Environmental Assessment. Unless the previous on-site inspection can verify the competence of the laboratory to perform the additional tests, another on-site inspection may be required.

#### **§4707. Fees**

- A. Testing laboratories applying for accreditation or renewal of accreditation shall submit the appropriate fee calculated from the fee schedule along with the required application or update

materials. Fees are nonrefundable. Fees are based on the number of test categories in each matrix (matrices).

- B. In-house laboratories owned and/or operated by the state, local, or federal government are exempt from the fee requirements paid to the department, but shall make appropriate application for accreditation in accordance with other provisions of these regulations. Required proficiency samples shall be purchased by the laboratory and the required third-party audit shall be billed directly to the laboratory.
- C. The annual fees shall not be prorated and shall apply in full to any portion of the fiscal year that remains prior to the annual renewal date (July 1).
- D. The following basic fee structure shall be used in determining all application and annual fees due to the department.

Accreditation application fee payable every scope amendment and every three-year renewal	\$726
Per major test category per matrix payable every year	\$363
Minor conventional category payable every year	\$290
Annual surveillance and evaluation applicable to minor conventional facilities and facilities applying for only one category of accreditation	\$363
Annual fee for dependent mobile laboratories, per mobile lab	\$363
Proficiency samples biannually	to be purchased by the laboratory
Bioassay/biomonitoring annually	to be purchased by the laboratory
Third-party audit	to be billed directly to the laboratory
The accreditation fees for in-state laboratories receiving national accreditation (NELAP)	shall be one and one-half times the regular fee as stated above
The accreditation fees for out-of-state laboratories receiving state accreditation	shall be one and one-half times the regular fee as stated above
The accreditation fees for out-of-state laboratories receiving national accreditation (NELAP)	shall be two times the regular fee as stated above
Interim accreditation application fees	shall be two times the regular fee as stated above

- E. Additional fees may be charged for the expansion of accreditation to include new test categories. Accreditation shall be granted only after fees have been received.
- F. Travel expenses incurred by representatives of the department, traveling within and outside of the state of Louisiana, conducting an assessment/inspection for the purpose of accreditation shall be reimbursed by the laboratory. These rates shall be in accordance with the Division of Administration state general travel regulations, within the limits established for state employees.
- G. Methods of Payment
  - 1. All payments made by check, draft, or money order shall be made payable to the Louisiana Department of Environmental Quality and mailed to the department at the address provided on the invoice.
  - 2. Electronic Methods of Payment
    - a. Persons wishing to make payments using the electronic pay method should access the department's website and follow the instructions provided on the website.

- b. Persons wishing to make payments using the electronic funds transfer (EFT) method should contact the Office of Management and Finance for further instructions.
- 3. Cash is not an acceptable form of payment.
- H. Late Payment Fee
  - 1. Payments not received within 15 days of the due date will be charged a late payment fee.
  - 2. Any late payment fee shall be calculated from the due date indicated on the invoice.
  - 3. Payments not received by the department by:
    - a. the fifteenth day from the due date will be assessed a 5 percent late payment fee on the original assessed fee;
    - b. the thirtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee; and
    - c. the sixtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee.

#### **§4709. Inspection of Laboratory**

- A. As a condition of obtaining and maintaining accreditation, a laboratory shall permit and facilitate inspections by personnel or designated representatives of the department. The specific requirements of an on-site inspection are outlined in LAC 33:I.Chapter 51.
- B. Inspectors shall conform to appropriate safety procedures during an on-site inspection. The authorized representatives of the department who perform the on-site evaluation must be experienced professionals and hold at least a bachelor's degree in a science-related field with technical experience in a laboratory. The representative(s) must successfully complete a laboratory certification course presented by the United States Environmental Protection Agency, the National Institute of Standards and Technology, or other department-approved training group.
- C. Regular inspections of accredited laboratories shall be conducted at intervals of not more than two years. Such inspections shall be conducted by representatives of the department upon presentation of credentials. Prior to granting initial accreditation and after all documentation provided to the department has been reviewed, an announced on-site laboratory inspection shall be performed.
- D. Inspections may include on-site proficiency test sample(s) analyses but shall not exceed 10 percent of the test parameter(s) but must maintain minimum of one test. If there is a cost for these samples, the department will bill the laboratory, and the laboratory shall remit within 30 calendar days.
- E. Laboratories that utilize mobile and/or field laboratories shall not be required to certify each laboratory individually. The mobile and/or field facilities shall be considered a part of the fixed-based laboratory and shall be required to participate in performance evaluation studies. Mobile and/or field laboratories shall not be exempt from any applicable requirements of an on-site evaluation as outlined in LAC 33:I.Chapter 51. Mobile and/or field laboratories may be inspected at the discretion of the department. In the event an organization is composed entirely of mobile and/or field laboratories and no fixed-based laboratory exists, the business address of the organization shall be utilized as the location for accreditation purposes.
- F. Fixed-base laboratories that have moved to a new location shall be inspected within 30 calendar days after the laboratory has notified the department, in writing, of such change in location as required in LAC 33:I.5707.
- G. The department shall reserve the right to inspect or observe the testing procedure(s) of the laboratory if such action is deemed necessary by the department.

#### **§4711. Proficiency Testing Participation**

- A. All accredited environmental laboratories or laboratories seeking accreditation must participate in department-approved proficiency testing programs relevant to their scope of accreditation, except when determined by the department that an appropriate proficiency test is not accessible or readily available. The department may provide appropriate commercial test samples at the applicant's expense whenever necessary.
- B. If proficiency test samples are not available for particular test categories, the laboratory requesting accreditation will submit an "analytical data package." An "analytical data package" shall include all relevant analytical methodology, technical information, and quality assurance results concerning a particular type of analysis for which there is no current proficiency testing program.
- C. Department-approved proficiency tests shall be used to provide suitable evidence of laboratory proficiency.
- D. Proficiency testing studies will be available at a minimum of every six months. Laboratories shall participate in two proficiency test studies per year for each field of testing. Failure to meet the minimum semiannual schedule shall be regarded as a failed proficiency test study. Laboratories may set up round robin testing programs under the department's supervision in order to satisfy this requirement, using splits where applicable.
- E. Laboratories shall satisfactorily complete two proficiency test studies offered for each test category accredited within the most recent three proficiency test studies attempted. A year shall be considered as the 12-month period from the first day of July until the last day of June. Results shall be considered satisfactory when they are within the acceptable limits established by the testing agency or the department.
- F. Each participating laboratory shall authorize the proficiency test provider to release the results of the proficiency evaluation (PE) test to the Office of Environmental Assessment at the same time that they are submitted to the laboratory. Every laboratory that receives test results that are "unacceptable" for a specific analyte must investigate and identify likely causes for these results, resolve any problems, and report such activity to the Office of Environmental Assessment, along with the submittal of corrective action proficiency sample test results. The laboratory shall report only the analytes for which corrective action was required.
- G. In cases of on-site proficiency testing, the department shall inform the laboratory of the results of the evaluation. The department may require the laboratory to analyze additional proficiency samples if the results of such test are "unacceptable."
- H. Results of proficiency testing during the preceding 12 months shall be made available by the laboratory, upon request, to any person utilizing or requesting the services of the laboratory.
- I. Accredited laboratories that desire to extend the range of tests or analyses offered shall submit a written request with the appropriate fees, shall comply with the requirements of these regulations, and shall demonstrate satisfactory results in at least one round of proficiency testing samples prior to receiving accreditation.
- J. Laboratories shall bear the cost of any subscription(s) to a proficiency testing program required by the department for compliance purposes.

**§4713. Interim Acceptance of Accreditation by Another Accrediting Authority for In-State Laboratories**

- A. Acceptance of accreditation from another accrediting authority as equivalent accreditation shall be determined by the department.
- B. All of the following requirements must be fulfilled:
  - 1. a completed application form and support documents submitted;
  - 2. any appropriate fee(s) paid;
  - 3. evidence of successful participation in a proficiency testing program or its equivalent;
  - 4. written documentation of accreditation sent to the department;
  - 5. a comparison of certification requirements from the accredited laboratory; and
  - 6. an on-site evaluation/inspection conducted by authorized representatives of the department or the previous inspection conducted by the accrediting authority.

**§4715. Accreditation for Laboratories Not Located in Louisiana**

- A. Out-of-state laboratories may receive accreditation via two mechanisms:
  - 1. direct application to the department based on the requirements of this program; or
  - 2. reciprocity based on evaluation of current accreditation maintained. Reciprocal accreditation is based on meeting the requirements set forth in LAC 33:I.4713.
- B. A testing laboratory located outside of Louisiana may receive accreditation from the department or from another agency having environmental regulatory responsibility or delegated administrative authority, if approved by the department. The laboratory shall comply with all documentation and fee requests from the department.
- C. If the out-of-state laboratory's accreditation is revoked, the Louisiana authorization is thereby automatically canceled. The environmental representative shall notify the state and all clients in Louisiana that utilize the laboratory of the revocation within 10 calendar days.
- D. When accreditation of the laboratory has been reinstated, the department will request adequate documentation from the laboratory indicating that the laboratory is in compliance with these regulations. The following requirements must be fulfilled before the department reinstates the laboratory as accredited:
  - 1. a completed application form and support documents submitted;
  - 2. fee(s) paid in accordance with LAC 33:I.4707;
  - 3. evidence of successful participation in a proficiency testing program or its equivalent;
  - 4. written documentation of accreditation sent to the department; and
  - 5. an on-site evaluation/inspection conducted by authorized representatives of the department.

**§4719. Implementation**

- A. All commercial laboratories analyzing data as of the effective date of these regulations that are directly or indirectly submitting data to the department must submit an application for accreditation as required in LAC 33:I.4701.A.1, including the review fee, by July 1, 2000. The department shall not accept laboratory data generated by laboratories that do not comply with this deadline until such laboratories receive accreditation and fully comply with the requirements of this Section. The department shall not accept environmental data submitted to the department either directly or indirectly until the laboratory has applied for accreditation under these regulations.

- B. All laboratories subject to these regulations must receive accreditation from the department, as provided in these regulations, undergo an on-site inspection as specified in LAC 33:I.4701.A.2, and successfully participate in proficiency evaluations as required in LAC 33:I.4701.A.3 by December 31, 2000, or as otherwise agreed to by the department and the applicant, not to exceed one year from December 31, 2000. The department shall not accept data generated by laboratories that do not comply with these deadlines until such laboratories receive accreditation and fully comply with the requirements of this Section.
- C. The department will accept analytical data generated by laboratories that do not comply with the deadlines established in Subsection B of this Section for accreditation if such laboratories:
  - 1. have submitted a complete application form and supporting documents;
  - 2. have submitted documentation verifying certification/accreditation by a department-approved accreditation program or supporting documentation showing the quality assurance and quality control program used to generate analytical data by the laboratory; and
  - 3. have paid appropriate fees.
- D. These regulations shall not apply to field tests as defined in LAC 33:I.4503.

## **Chapter 59. Accreditation for Laboratories Participating in the NELAP Certification Program**

### **§5903. Categories of Accreditation**

- A. A laboratory may apply for accreditation in any 1 or more of the 4 matrices and in 1 or more of the 11 test categories applicable to the matrix (matrices) selected. The laboratory shall be accredited in those parameters/analytes within the test category(ies) found in LAC 33:I.4705.B and matrix (matrices), as defined in LAC 33:I.4503. The laboratory shall be accredited in those parameters/analytes within the test category(ies) for which the laboratory demonstrates acceptable performance on proficiency samples (when available) and meets all other requirements of these regulations.

## **Part III. Air**

### **Chapter 2. Rules and Regulations for the Fee System of the Air Quality Control Programs**

#### **§201. Scope and Purpose**

- A. It is the purpose of these regulations to establish a fee system for funding the monitoring, investigation and other activities required to be conducted for the maintenance of a safe and healthful environment by the Department of Environmental Quality in accordance with the Louisiana Environmental Quality Act (R.S. 30:2001 et seq.). Fees are required for all permits, licenses, registrations, and variances authorized by the Act.

#### **§203. Authority**

- A. These regulations provide fees as required by R.S. 30:2014.

#### **§205. Definitions**

- A. All terms used in these rules, unless the context otherwise requires or unless specifically defined in the Louisiana Environmental Quality Act, or in other regulations promulgated by the secretary of the Department of Environmental Quality or his predecessor, shall have their usual meaning.

#### **§207. Application Fees**

- A. No application or amendments thereto shall be processed prior to payment of a permit fee, when it is determined that a permit fee is due. No permit, license, registration, or variance, unless otherwise authorized by the secretary, shall be issued until the full amount of the fee has been paid and such check or draft has been accepted by the bank or drawee and the department's account has been credited with the amount of the fee, when it is determined that a permit fee is due.

#### **§209. Annual Fees**

- A. All parties conducting activities for which an annual maintenance fee is provided shall be subject to the payment of such fee by the due date indicated on the invoice. The annual maintenance fees are based on a state fiscal year from July 1 to June 30. All major and all minor sources that have been issued a permit for air pollution emissions shall pay an annual maintenance fee.
- B. Additional Fees for Part 70 Sources. In addition to the annual maintenance fee required by Subsection A of this Section, the department may assess an additional annual fee not to exceed 20 percent of the annual maintenance fee on each part 70 source, as defined in LAC 33:III.502. This fee shall be used to fund the department's ambient air monitoring operations and/or other air quality-related activities of the department.

#### **§211. Methodology**

- A. Formula to Apportion Fees

Air Toxics Permits Application Fee for major sources of toxic pollutants (based on type of facility and on rated production capacity/throughput)	Surcharge of 10% of the permit application fee to be charged when there is an increase in toxic air pollutant emissions above the Minimum Emission Rates (MER) listed in LAC 33:III.5112, Table 51.1
Air Toxics Annual Emissions Fee for major sources of toxic air pollutants (based on air toxic pollutants emitted) <sup>1</sup>	Variable
Annual Maintenance Fee (based on type of facility and on rated production capacity/throughput)	Variable
New Application Fee (based on type of facility and on rated production capacity/throughput)	Variable
Major and Minor Modification Modified Permit Fee (based on type of facility and on rated production capacity/throughput)	Variable
PSD Application Fee (based on type of facility and on rated production capacity/throughput)	Surcharge of 50% of the application fee when a PSD permit application is being processed
"NESHAP" Maintenance Fee (based on type of facility and on rated production capacity/throughput)	Surcharge of 25% of the Annual Maintenance Fee for that particular process/plant to be added to the Annual Maintenance Fee
"NSPS" Maintenance Fee (based on type of facility and on rated production capacity/throughput)	Surcharge of 25% of the permit application fee to be charged for any permit application that includes the addition of new equipment subject to NSPS regulation
<sup>1</sup> Fees shall be assessed on major sources as defined in LAC 33:III.5103. Sources that have reduced emissions below major source thresholds are not required to submit annual emissions reports in accordance with LAC 33:III.5107.	

#### B. Fee Methodology

1. All fees required by this Chapter are listed in LAC 33:III.223, Fee Schedule Listing, which shall be referred to as the Fee Schedule in the remainder of this Chapter. All persons required to obtain a new or modified permit shall be subject to a permit application fee (see Fee Schedule) unless otherwise exempted. This fee shall be submitted with any application for a new or modified permit. The annual maintenance fee for a new or modified source shall be paid during the fiscal year (July 1 to June 30) in which the process specified in the permit comes on line.
2. The Standard Industrial Classification (SIC) codes listed in the Fee Schedule shall be used to assist in the determination of the proper fees to assess.

3. The permit fee for sources or facilities with multiple processes shall be equal to the total amounts required by the individual processes involved, as listed in the Fee Schedule, unless the entire facility is covered by a single fee category.
4. All invoices for annual maintenance fees for major sources shall be submitted to those sources during the fiscal year. The annual maintenance fee shall be applicable to the fiscal year beginning July 1 of each year and ending the following June 30. Failure to remit the annual maintenance fee in accordance with the above shall be considered grounds for revoking an existing permit. Maintenance fees not received for prior fiscal years are due upon receipt of new or duplicate invoices. Minor sources may or may not receive an annual compliance inspection. In this case the maintenance fee must be paid within 30 days after notification by the agency of the amount due. Only one such fee shall be charged annually.
5. If a conditional permit is issued in accordance with adopted procedures, fees submitted with that application for permit shall be retained and be applicable to the regular permit when it is acted upon.
6. If a process is not listed in the fee schedule and is not a source type exempted from fees by this regulation, then the department shall assign a fee using the negotiated fee set forth in fee number 1710 or 1712, as applicable. If a process or facility is specifically listed in the fee schedule, then fee number 1710 or 1712 cannot be utilized.
7. Annually, the department shall reevaluate the Fee Schedule based upon the previous fiscal year's reasonable costs involved in the operation of the permit system and submit such revised schedule to the secretary for approval.
8. When a company withdraws its application and claims refund for the permit fee, no refund shall be made if the review of the application is essentially completed at the time of withdrawal. However, up to 50 percent refund may be made when the review has been initiated, but is not essentially completed.
9. Annual maintenance fees (AMF) are not prorated. If a facility operates any part of a year or at a reduced rate during the year, the full annual maintenance fee is still charged. In order for the annual maintenance fee to be cancelled, the facility must not operate at all during the year and the permit to operate for the facility must be cancelled and/or changes must be made to the process or facility in order to make the process or facility not subject to regulation by the department. The cancellation of the permit shall require that a new permit be issued before the facility could be operated again. Failure to pay the annual maintenance fee will cause the permit for the facility covered by the fee to be cancelled.
10. When a permanent shutdown occurs and a company properly notifies the Office of Environmental Services by official change in the Emission Inventory Questionnaire (EIQ) and permit, then the maintenance fee would be dropped for that shutdown portion of the process/plant. This fee reduction or cancellation shall apply only in the fiscal years in which the shutdown portion of the plant or process did not operate at all. The EIQ and permit shall also need to be changed to delete the emissions from the shutdown portion of the plant or process before the start of the fiscal year in which the fee would have been charged.
11. Reserved.
12. NSPS fees may be waived when a PSD application fee is imposed.
13. The department shall determine the type of fee. This determination shall be based on the work load created by the permit application and shall be determined based on the factors described as follows.

- a. New Application Fee. The new application fee shall be based on the new capacity when a new process or operation is added or the incremental increase in capacity when the capacity is increased by more than 80 percent. It applies when:
  - i. a new facility is added;
  - ii. a new operation in an existing facility is added; or
  - iii. an existing operation is expanded by more than 80 percent in capacity.
- b. Major Modification Fee. The major modification fee shall be based on the existing capacity when the capacity is increased by more than 40 percent and less than 80 percent. The applicant has the option to choose to base the major modification fee on the incremental capacity increase and using the new permit application rate in cases where the incremental increase is small compared to the existing capacity. In that case, the applicant can choose the smaller fee as long as it is larger than the minimum major modification fee listed for the category. In all cases, the minimum amount of the fee would be equal to or greater than the minimum major modification fee for the category. The major modification fee applies when:
  - i. the modification will trigger PSD review;
  - ii. the modification would have triggered PSD review without the use of contemporaneous emission reductions or banked emissions;
  - iii. the modification will increase emissions by 25 tons/year or more of nonattainment pollutant;
  - iv. the modification will change emissions over 100 tons/year of a criteria pollutant for which the standard has been attained; or
  - v. the modification will increase capacity of an existing operation at least by 40 percent and less than 80 percent.
- c. Minor Modification Fee. The minor modification fee (based on existing capacity) applies when a modification is not qualified under new application fee or major modification fee. The minor modification fee shall be based on the existing capacity when the capacity is increased by less than 40 percent. The applicant has the option to choose to base the minor modification fee on the incremental capacity increase and using the new permit application rate in cases where the incremental increase is small compared to the existing capacity. In that case, the applicant can choose the smaller fee as long as it is larger than the minimum minor modification fee listed for the category. In all cases, the minimum amount of the fee would be equal to or greater than the minimum minor modification fee for the category.
- d. If a permit modification is such that it does not increase capacity and changes emissions by less than 25 tons/year of all nonattainment pollutants, by less than 10 tons/year of an individual toxic air pollutant, by less than 25 tons/year of total toxic air pollutants, and by less than 100 tons/year of all other criteria (attainment) pollutants, then the permit fee shall be charged equal to the minimum minor modification permit fee for each fee process category involved. If no minimum minor modification permit fee is listed in LAC 33:III.223, then the minimum minor modification fee is calculated as follows:
  - i. if the minor modification fee is greater than \$2,000, then the minimum minor modification fee is equal to 25 percent of the minor modification fee;
  - ii. if the minor modification fee is \$500 to \$2,000, then the minimum minor modification fee is \$500.
- e. Small Source Permit. The small source permit, as defined by LAC 33:III.503.B.2, applies when a permitted source is not a *Part 70 source* as defined in LAC 33:III.502.

The permitted source must also emit or have the potential to emit less than 25 tons/year of any criteria pollutant, and less than 10 tons per year of any toxic air pollutant. For permit applications with processes specifically listed in the fee schedule that would also qualify for the small source permit fee, the permit fee shall be the lesser of these listed fees.

14. Air Toxics Annual Emissions Fees based on actual annual emissions that occurred during the previous calendar year shall be assessed on *major sources* as defined in LAC 33:III.5103.
15. For permits issued under LAC 33:III.507 (title V permits), the following applies:
  - a. no application fee shall be charged for the initial permit provided no modifications are being made at the facility; and
  - b. the application fee for renewals of permits where no modifications are being made at the facility shall be the minimum minor modification fee as listed in LAC 33:III.223, or where no such fee is listed in the fee schedule, as calculated in accordance with Subparagraph B.13.d of this Section.

### **§213. Determination of Fee**

- A. These regulations apply to all registrants, specific licenses, permittees and other persons subject to charges concerned with one or more of the various programs of the Department of Environmental Quality.

### **§215. Methods of Payment**

- A. All payments made by check, draft, or money order shall be made payable to the Department of Environmental Quality, and mailed to the department at the address provided on the invoice.
- B. Electronic Methods of Payment
  1. Persons wishing to make payments using the electronic pay method should access the department's website and follow the instructions provided on the website.
  2. Persons wishing to make payments using the electronic funds transfer (EFT) method shall contact the Office of Management and Finance for further instructions.
- C. Cash is not an acceptable form of payment.

### **§217. Late Payment Fee**

- A. Payments not received within 15 days of the due date will be charged a late payment fee.
- B. Any late payment fee shall be calculated from the due date indicated on the invoice.
- C. Payments not received by the department by:
  1. the fifteenth day from the due date will be assessed a 5 percent late payment fee on the original assessed fee;
  2. the thirtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee; and
  3. the sixtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee.

### **§219. Failure to Pay**

- A. Failure to pay the prescribed application fee or annual fee as provided herein, within 90 days after the due date, will constitute a violation of these regulations and shall subject the person to applicable enforcement actions under the Louisiana Environmental Quality Act including, but not limited to, revocation or suspension of the applicable permit, license, registration, or variance.

**§221. Effective Date**

- A. The application fees prescribed herein shall be effective upon publication in the *Louisiana Register* as adopted.
- B. The annual fees prescribed herein shall be effective for the state fiscal year in which these fee regulations are published in the *Louisiana Register* as adopted and each state fiscal year thereafter. Fees submitted to the department in accordance with previous fee regulations for the state fiscal year in which these fee regulations are published in the *Louisiana Register* as adopted shall be credited against the fees due and payable under these fee regulations.

## §223. Fee Schedule Listing

### A. Table 1–Fee Schedule Listing

Table 1						
Fee Schedule Listing						
Fee Num	Air Contaminant Source	SICC	Annual Maintenance Fee	New Permit Application Fee	Modified Permit Fees	
					Major	Minor
0010	Reserved.					
0015 *Note	Iron Ore Processing per Million Dollars in Capital Cost	1011 MIN.	\$58.08 \$250.00	\$290.40 \$500.00	\$173.80 \$500.00	\$58.08 \$500.00
0020	Bituminous Coal and Lignite Mining	1211	\$832.00	\$4,158.00	\$2,497.00	\$832.00

B. Table 2—Additional Fees

Table 2		
Additional Fees		
Fee Number	Fee Description	Amount
2000 *Note 22	Name and Company Ownership/Operator Changes under LAC 33:1.Chapter 19	\$500.00
2010	The Issuance or Denial of Variances and Permit Exemptions. The fee for a variance shall be waived for sources operating under an air permit.	\$500.00
2016	New, Modified, or Renewed Acid Rain Permits	\$500.00
2020	The Issuance of an Asbestos Disposal Verification Form (ADVF)—(at least 10 working days notification given)—Fee is nontransferable and nonrefundable.	\$73.00
2025	The Issuance of Asbestos Disposal Verification Forms (ADVF) for a single agency interest site for the period of one fiscal year—(at least 10 workng days notification given)—Fee is nontransferable and nonrefundable	\$5,000.00
2030	The Issuance of an Asbestos Disposal Verification Form (ADVF)—(less than 10 working days notification given)—Fee is nontransferable and nonrefundable.	\$109.00
2040	Agent Accreditation for Asbestos: Includes Contractor/Supervisor, Inspector, Management Planner, or Project Designer—Normal Application Processing per Discipline (greater than five working days after receipt of required documentation and fees)—Fee is nontransferable and nonrefundable.	\$291.00
2050	Agent Accreditation for Asbestos: Includes Contractor/Supervisor, Inspector, Management Planner, or Project Designer—Emergency Application Processing per Discipline (less than or equal to five working days after receipt of required documentation and fees)—Fee is nontransferable and nonrefundable.	\$436.00
2060	Worker Accreditation for Asbestos—Normal Application Processing (greater than five working days after receipt of required documentation and fees)—Fee is nontransferable and nonrefundable.	\$73.00
2070	Worker Accreditation for Asbestos—Emergency Application Processing (less than or equal to five working days after receipt of required documentation and fees)—Fee is nontransferable and nonrefundable.	\$109.00
2080	Duplicate Certificate—Fee is nontransferable and nonrefundable.	\$37.00

Table 2		
Additional Fees		
Fee Number	Fee Description	Amount
2090	Asbestos Training Organization Recognition Plus Trainer Recognition per Trainer—Normal Application Processing (greater than five working days after receipt of required documentation and fees)—Fee is nontransferable and nonrefundable.	\$436.00 \$73.00
2100	Asbestos Training Organization Recognition Plus Trainer Recognition per Trainer—Emergency Application Processing (less than or equal to five working days after receipt of required documentation and fees)—Fee is nontransferable and nonrefundable.	\$654.00 \$109.00
2200 *Note 13*	Air Toxics Annual Fee per Ton Emitted on an Annual Basis:	
	Class I Pollutants	\$156.82
	Class II Pollutants	\$78.41
	Class III Pollutants	\$39.20
2300 *Note 14*	Criteria Pollutant Annual Fee per Ton Emitted on an Annual Basis (Non-Title V Facility): Nitrogen oxides (NOx) Sulfur dioxide (SO2) Non-toxic organic (VOC) Particulate (PM10)	\$16.61/ton
2310 *Note 14*	Criteria Pollutant Annual Fee per Ton Emitted on an Annual Basis (Title V Facility): Nitrogen oxides (NOx) Sulfur dioxide (SO2) Non-toxic organic (VOC) Particulate (PM10)	\$16.61/ton
2400	An application approval fee for Stage II Vapor Recovery	\$ 146.00
	An annual facility inspection fee for Stage II Vapor Recovery	\$218.00
2600 *Note 16*	Accident Prevention Program Annual Maintenance Fee: Program 1	\$291.00
2620 *Note 16*	Accident Prevention Program Annual Maintenance Fee: Program 2	\$581.00
2630 *Note 16*	Accident Prevention Program Annual Maintenance Fee: Program 3	\$3,630.00
2810	An application fee for point source emissions banking (not applicable when filing application with a new permit or permit modification)	\$500.00
2900 *Note 19*	Lead Contractor License Evaluation Processing Fee—Fee is nontransferable and nonrefundable.	\$550.00

Table 2		
Additional Fees		
Fee Number	Fee Description	Amount
2901 *Note 19*	Lead Project Supervisor Accreditation Application Processing Fee—Fee is nontransferable and nonrefundable.	\$275.00
2902 *Note 19*	Lead Project Designer Accreditation Application Processing Fee—Fee is nontransferable and nonrefundable.	\$550.00
2903 *Note 19*	Lead Risk Assessor Accreditation Application Processing Fee—Fee is nontransferable and nonrefundable.	\$275.00
2904 *Note 19*	Lead Inspector Accreditation Application Processing Fee—Fee is nontransferable and nonrefundable.	\$165.00
2905 *Note 19*	Lead Worker Accreditation Application Processing Fee—Fee is nontransferable and nonrefundable.	\$55.00
2906 *Note 19*	Recognition Application Processing Fee for In-State Louisiana Lead Training Organizations per Training Organization—Fee is nontransferable and nonrefundable.	\$550.00
2907 *Note 19*	Recognition Application Processing Fee for Louisiana Lead Training Organizations per Instructor—Fee is nontransferable and nonrefundable.	\$55.00
2908 *Note 19*	Recognition Application Processing Fee for Out of State Lead Training Organizations per Out of State Training Organization—Fee is nontransferable and nonrefundable.	\$825.00
2909 *Note 19*	Recognition Application Processing Fee for Out of State Lead Training Organizations per Instructor—Fee is nontransferable and nonrefundable.	\$110.00
2910 *Note 19*	Lead Abatement Project Notification Processing Fee, 2000 Square Feet and under—Fee is nontransferable and nonrefundable.	\$220.00
2911 *Note 19*	Lead Abatement Project Notification Processing Fee for Each Additional Increment of 2000 Square Feet or Portion Thereof—Fee is nontransferable and nonrefundable.	\$110.00
2912 *Note 19*	Lead Abatement Project Notification Processing Fee (Fee Per Revision)—Fee is nontransferable and nonrefundable.	\$55.00
2913 *Note 19*	Soil Lead Abatement Project Notification Processing Fee, Half Acre or Less—Fee is nontransferable and nonrefundable.	\$220.00
2914 *Note 19*	Soil Lead Abatement Project Notification Processing Fee, Each Additional Half Acre or Portion Thereof—Fee is nontransferable and nonrefundable.	\$110.00

NOTE: Explanatory Notes for Fee Schedule

Note 1. This category does not include building paper.

Note 2. This category is considered one process with the fee based on the rated yearly chlorine capacity.

Note 3. Reserved.

Note 4. The fees for this category apply to both batch and continuous processes.

Note 5. This fee applied to lubricants meaning lubricating oils and greases. This fee is not to be charged for units which are part of a facility for which the petroleum refinery fee was paid.

Note 6. The fees for this category are based on the organic compound storage capacity of the facility.

Note 7. For an electric power generation unit to be placed in this category it must burn fuel oil or coal of less than 0.7 percent Sulphur.

Note 8. Wholesale grain distribution is not included in this category.

Note 9. Facilities with no fuel or waste burning equipment are exempted from both the annual compliance and permit fees. Power must be supplied by electric motors or internal combustion engines.

Note 10. For coal gasification and cogeneration projects when computing application fees, the capital cost for the control equipment that reduces emissions to a level below the applicable NSPS regulations should be deducted from the capital cost.

Note 11. The maximum annual maintenance fee for Categories 1430-1490 is not to exceed \$41,612 total for any one gas transmission permit.

Note 12. The maximum annual maintenance fee for one location with two or more plants shall be \$1,883.

Note 13. Fees will be determined by aggregating and rounding (e.g., parts of a ton less than 0.50 are invoiced as zero and parts of a ton equal to or greater than 0.50 are invoiced as one ton) actual annual emissions of each class of toxic air pollutants (as delineated in the tables in LAC 33:III.5112) for a facility and applying the appropriate fee schedule for that class. If a facility emits more than 4000 tons per year of any single toxic air pollutant, fees shall be assessed on only the first 4000 tons. In no case shall the fee for this category be less than \$250.

Note 14. Fees will not be assessed for emissions of a single criteria pollutant over and above 4,000 tons per year from a facility. Criteria fees will be assessed on actual annual emissions that occurred during the previous calendar year. The minimum fee for this category shall be \$250.

Note 14a. The throughput of these categories shall be based on the amount of grain or other materials that are known to produce significant amounts of particulate emissions. The determination of which materials or grains are considered as dusty materials is based on the material having similar emission factors to grain or having similar properties that can be used to estimate potential emissions.

Note 15. Applications must be accompanied by a certificate of eligibility authorized by the department's Small Business Technical Assistance Program. Final determination of a facility's eligibility is to be made by the administrative authority or his designee and may be based on (but not limited to) the following factors: risk assessment, proposed action, location, etc. For the purpose of this Chapter a small business is a facility which: has 50 employees or fewer; is independently owned; is a small business concern as defined pursuant to the Small Business Act; emits less than 5 tons/year of any single hazardous air pollutant and less than 15 tons/year of any combination of hazardous air pollutants; emits less than 25 tons/year of any criteria pollutant; has an annual gross revenue that does not exceed \$5,000,000; is not a major stationary source; and does not incinerate, recycle, or recover any off-site hazardous, toxic, industrial, medical, or municipal waste.

Note 16. The choice of which program level applies is based on the highest level assigned to any process at the facility that applies at any time during the state fiscal year for which the invoice is being prepared (Program 3 being the highest). This annual maintenance fee is charged based on a state fiscal year from July to June.

Note 17. Reserved.

Note 18. Reserved.

Note 19. The fee for emergency processing will be 1.5 times the regular fees.

Processing Timelines		
Notification or Application	Normal Processing	Emergency Processing
Asbestos and Lead Training Organizations' and Trainers' Recognition	30 days	Application to be processed less than or equal to five working days after receipt of required documentation and fees
Asbestos and Lead Accreditation	30 days	Application to be processed less than or equal to five working days after receipt of required documentation and fees
Asbestos Demolition and Renovation Notification	Notification to be processed less than or equal to 10 working days after receipt or postmark of required documentation and fees	Notification to be processed less than or equal to 10 working days after receipt or postmark of required documentation and fees
Lead Contractors' "Letter of Approval"	30 days	Notification to be processed less than or equal to five working days after receipt of required documentation and fees

Note 20. This fee category applies to facilities that use a direct reduction process to process iron ore. The fees are based on the capital cost of the facility. In determination of fees for this fee category, the capital cost shall be used in the same manner as the capacity in other fee categories.

Note 21. Tons shall refer to the permitted total of criteria pollutants, excluding PM2.5. The minimum fee applies only if the requirement for a Part 70 permit is triggered by criteria pollutant emissions.

Note 22. No fee shall be assessed when only the name of a facility is changed.

### **Chapter 3. Regulatory Permits**

#### **§307. Regulatory Permit for Oil and Gas Well Testing**

G. In accordance with LAC 33:III.Chapter 2, the fee for this regulatory permit shall be \$500. There shall be no annual maintenance fee associated with this regulatory permit.

#### **§309. Regulatory Permit for Release of Natural Gas from Pipelines and Associated Equipment**

I. In accordance with LAC 33:III.Chapter 2, the fee for this regulatory permit shall be \$500. There shall be no annual maintenance fee associated with this regulatory permit.

#### **§311. Regulatory Permit for Stationary Internal Combustion Engines**

M. In accordance with LAC 33:III.Chapter 2, the fee for this regulatory permit is \$785. In accordance with LAC 33:III.209 and 211, the annual maintenance fee associated with this regulatory permit shall be \$250. Applicable surcharges as described in LAC 33:III.211.A shall also be assessed.

#### **§313. Regulatory Permit for Portable Air Curtain Incinerators**

F. In accordance with LAC 33:III.Chapter 2, the fee for this regulatory permit is \$2,634 (fee number 1520). If emissions from the ACI are such that it qualifies for a small source permit as described in LAC 33:III.503.B.2, the fee is \$785 (fee number 1722), in accordance with LAC 33:III.211.B.13.e. In accordance with LAC 33:III.209 and 211, the annual maintenance fee associated with this regulatory permit shall be \$526, if fee number 1520 is applicable, or \$250, if fee number 1722 is applicable.

#### **§315. Regulatory Permit for Concrete Manufacturing Facilities**

H. In accordance with LAC 33:III.Chapter 2, the fee for this regulatory permit is \$785 (fee number 1722). In accordance with LAC 33:III.209 and 211, the annual maintenance fee associated with this regulatory permit shall be \$250.

#### **§317. Regulatory Permit for Rock, Concrete, and Asphalt Crushing Facilities**

K. Fees. In accordance with LAC 33:III.223, Table 1, the new permit application fee for this regulatory permit shall be \$2,288 (fee number 0870). In accordance with LAC 33:III.209 and 211, the annual maintenance fee associated with this regulatory permit shall be \$458. If potential emissions from the crusher are such that it qualifies for a small source permit as described in LAC 33:III.503.B.2, then fee number 1722 located in LAC 33:III.223, Table 1 shall apply in accordance with LAC 33:III.211.B.13.e.

#### **§319. Regulatory Permit for Flaring of Materials Other than Natural Gas**

I. In accordance with LAC 33:III.223, Table 1, the fee for this regulatory permit shall be \$500. There shall be no annual maintenance fee associated with this regulatory permit.

#### **§321. Regulatory Permit for Storage Vessels**

- H. Fees. Fees for this regulatory permit shall be as prescribed by fee number 1670 of LAC 33:III.223, Table 1. Applicable surcharges as described in LAC 33:III.211.A shall also be assessed.

**§323. Regulatory Permit for Boilers and Process Heaters**

- J. Fees. Fees for this regulatory permit shall be as prescribed by fee number 1540 or 1550, as applicable, of LAC 33:III.223, Table 1, or the applicable major or minor modification fee for the stationary source as determined in accordance with LAC 33:III.211.B, whichever is lower. Applicable surcharges as described in LAC 33:III.211.A shall also be assessed.

**§325. Regulatory Permit for Cooling Towers**

- H. Fees. Fees for this regulatory permit shall be the applicable major or minor modification fee for the stationary source as determined in accordance with LAC 33:III.211.B. Applicable surcharges as described in LAC 33:III.211.A shall also be assessed.

**§327. Regulatory Permit for Stationary Combustion Turbines**

- I. Fees. Fees for this regulatory permit shall be the applicable major or minor modification fee for the stationary source as determined in accordance with LAC 33:III.211.B. Applicable surcharges as described in LAC 33:III.211.A shall also be assessed.

**Part V. Hazardous Waste and Hazardous Materials**  
**Subpart 1. Department of Environmental Quality—Hazardous Waste**

**Chapter 51. Fee Schedules**

**§5101. Applicability**

- A. The regulations in this Chapter apply to generators of hazardous waste as well as treaters, storers, and disposers of hazardous waste except as provided in LAC 33:V.1101 and LAC 33:V.1501.

**§5103. Scope and Purpose**

- A. It is the purpose of these regulations to establish a fee system for funding the monitoring, investigation, and other activities required to be conducted for the maintenance of a safe and healthful environment by the Department of Environmental Quality in accordance with the Louisiana Environmental Quality Act (R.S. 30:2014 et seq.). Fees are required for all permits, licenses, registrations, and variances authorized by the Act.

**§5105. Authority**

- A. These regulations provide fees as required by R.S. 30:2014.

**§5107. Definitions**

(See LAC 33:V.109)

**§5109. Application Fees**

- A. Treaters, Storers, and/or Disposers (TSD)
1. A one-time application fee shall be paid to cover application, evaluation, and other related program costs.
  2. Major amendments of applications for operating permits, closure/post-closure permits, and modifications of permits may be considered as separate applications for purposes of calculating fees.
  3. The application fee shall be assessed subsequent to the receipt and review of an application or other request for permit action.
  4. There shall be no refunds of TSD application fees.

**§5111. Treaters, Storers, and/or Disposers Application Fees**

- A. The applicant is required to calculate the appropriate application fee and, if applicable, siting fee according to the schedule included in the permit application form. Payment shall be made in accordance with the requirements of LAC 33:V.5127.
- B. Application Fee Schedule

Item	Fee
Site Analysis—per acre site size	\$413 <sup>1</sup>
Process and Plan Analysis	\$1,650

Facility Analysis—per unit <sup>2</sup>	\$825
Management/Financial Analysis	\$1,650

[Note: Fee equals total of the four items.]

1 Up to 100 acres, no additional fee thereafter.

2 Incinerator, land farm, treatment pond, etc., each counted as a facility.

C. Administrative Cost Fee

$\text{Application Fee} \times 0.30 = \text{Administrative Cost Fee}$
---

- D. Siting Fee. This fee will be applicable to new commercial hazardous waste treatment, storage, and disposal facilities. This fee will be used to assess the impact of the location of the facility on the citizens in the surrounding area, the local infrastructure, and on the environment. A portion of this fee shall be allocated to the local governmental subdivision for the preparation of an infrastructure assessment report as determined by the secretary. When siting a commercial facility, the secretary shall determine whether the local governmental subdivision should be compensated for any reasonable and necessary cost for preparation of the infrastructure report:

$\text{Application Fee} \times 0.05 = \text{Siting Fee}$
--

**§5113. Provision for Collection of Additional Fees Should Application Fees Paid Be Less Than Program Costs**

- A. Operators who paid an application fee of \$15,000 will be assessed an additional fee equaling the deficit, apportioned equally, provided that no operator pays more than the calculated fee of LAC 33:V.5111.

**§5115. Provision of Funds Collected in Excess of Program Costs**

- A. Excess funds over program cost generated by this fee shall be credited to the following year's budget.

**§5117. Annual Monitoring and Maintenance Fees**

- A. All annual fees provided by this Chapter shall be paid within 30 days from receipt of billing.
- B. Annual maintenance fees are not prorated. If a facility operates any part of a year or at a reduced rate during the year, the full annual maintenance fee is still charged.
- C. The annual maintenance fee for a new or modified permit shall be paid during the fiscal year (July 1 to June 30) in which the process specified in the permit comes on line.

**§5119. Treaters, Storers, and/or Disposers Annual Maintenance Fees****A. Fee per Facility**

Off-Site Disposer (Commercial)	\$131,670
Reclaimer (compensated for waste removed)	\$57,750
Reclaimer (uncompensated for waste removed or pays for waste removed)	\$41,250
Off-Site Disposer (Noncommercial)	\$33,000
On-Site Disposer	\$16,500

NOTE: The higher fee for off-site disposal is due to the cost of the manifest system and emergency response to transport spills (neither cost is applicable to on-site disposers).

**B. Fee per Hazardous Waste Unit Type**

Unit Type	Fee
<b>Storage:</b>	
Container/Tank/Waste Pile/etc.	\$5,400
<b>Treatment:</b>	
Incinerator/Boiler/Industrial Furnace/Filtration Unit/etc.	\$8,695
<b>Disposal:</b>	
Landfill/Miscellaneous Unit/etc.	\$13,645

**C. Fee Based on Volume**

Less than 1,000 tons	\$3,222
Less than 10,000 tons	\$8,092
Less than 100,000 tons	\$12,963
Less than 1,000,000 tons	\$17,834
More than 1,000,000 tons	\$22,704

**D. Administrative Cost Fee**

Annual Maintenance Fee x 0.30 = Administrative Cost Fee
--

E. Land Disposal Prohibitions Fee. The land disposal prohibitions fee includes treatment, processing (including use, reuse, recycling), and/or disposal facility annual fee (not on storage facilities). This fee applies to facilities handling wastes subject to the land disposal prohibitions in LAC 33:V.Chapter 22.

On-Site	\$1,650
Off-Site Noncommercial	\$3,300
Reclaimer	\$4,125
Off-Site Commercial	\$8,250

F. Incinerator and Boiler/Industrial Furnace Inspection and Monitoring Fee. This is an annual fee applied to defray the cost of annually inspecting the required continuous monitors and recording devices for each incinerator, boiler, or industrial furnace to

determine whether they are being properly maintained and calibrated. This fee will annually be a flat rate of \$1,650.

- G. Annual Landfill Inspection and Monitoring Fee. An annual fee shall be charged for the inspection of the regulatory requirement for leak detection and leachate collection systems associated with hazardous waste landfills to determine operational status and degree of proper maintenance. For each landfill unit or cell with a separate leak detection and leachate collection system, the annual fee will be \$165.
- H. Annual Land Treatment Unsaturated Zone Monitoring Inspection Fee.
1. Semiannual Zone of Incorporation (ZOI) Inspection Fee. This fee covers the cost of inspection, random sampling and laboratory analysis of the zone of incorporation.

ZOI soil samples	\$1,650 each acre
Soil-pore liquid monitors (Lysimeters)	\$4,125 each monitor

2. Annual Land Treatment Unit Report Review Fee. This fee covers the cost of reviewing the report required by final permits for land treatment. Included in the annual land treatment unit report are the results of the unsaturated zone monitoring, semiannual soil core sample analyses, quarterly soil-pore liquid quality analyses from below the treatment zone, and soil moisture tensiometer readings of the ZOI.

Hazardous Waste Facilities	\$1,650 each report
----------------------------	---------------------

I. Formula to Apportion Fees

Annual Maintenance Fee = Fee per Facility + Fee per Unit + Fee based on Volume + Administrative Cost Fee + Land Disposal Prohibitions Fee + Groundwater Protection Annual Fee + Incineration Inspection and Monitoring Fee + Boiler/Industrial Furnace Inspection and Monitoring Fee + Annual Landfill Inspection and Monitoring Fee + Annual Land Treatment Unsaturated Zone Monitoring Inspection Fee

**§5120. Land Disposal Prohibition Petition Fees**

- A. Petitions submitted in accordance with R.S. 30:2193(E)(2) and/or LAC 33:V.Chapter 22 are subject to additional fees as noted below for each petition submitted. These fees must be submitted at the time a petition is submitted.

Variance	\$16,500
Exemption	\$74,250
Extension	\$8,250
No-Alternatives Determinations:	
Original Petition	\$16,500
Renewal Petition/Request	\$16,500

Request for determination for addition of a hazardous waste(s) not covered by existing determination	\$1,650
--	---------

## **§5121. Generators and Transporters of Hazardous Waste**

### **A. Registration**

1. All generators of hazardous waste must file or have on file a notification of that facility, using Notification Form HW-1 available from the administrative authority (see LAC 33:V.303.A).
2. For generators of hazardous waste, the Notification Form HW-1 shall be deemed a registration upon acceptance and approval by the administrative authority.

### **B. Application Fees**

1. Transfer Facilities
  - a. Hazardous Waste Transfer Facility Fee. All hazardous waste transfer facilities in Louisiana shall pay an application fee of \$1,900 to the department.
  - b. Used Oil Transfer Facility Fee. All used oil transfer facilities in Louisiana shall pay an application fee of \$1,300 to the department.
2. 90-day Storage Extension. Application for 30-day Extension of Accumulation Time Limit in LAC 33:V.1109.E.2 and LAC 33:V31109.E.9. All requests for extension of accumulation time limit shall be accompanied by a \$500 application fee.

### **C. Annual Fees**

1. Large Quantity Generators (LQG) or Small Quantity Generators (SQG)
  - a. Generators Annual Fee. Fee will annually be \$469, plus the prohibited waste fee.
  - b. Prohibited Waste Fee. Annual prohibited waste fee is \$165 for each generator who generates for land disposal as provided in LAC 33:V.Chapter 22. The generator will be subject to this fee if any waste generated is prohibited from disposal at any time during the year for which the fee is assessed.
2. Conditionally Exempt Small Quantity Generators (CESQG). Conditionally exempt small quantity generators (see LAC 33:V.108) shall pay a fee of \$83 per year to the department.
3. Transporters. All transporters of hazardous waste with a facility in Louisiana shall pay a fee of \$330 per year to the department. There will be only one fee regardless of the number of vehicles in the service of the transporter.

## **§5123. Annual Fee for Facilities with Closed Hazardous Waste Units in Post-Closure**

- A. Post-Closure Annual Fee. This is an annual fee applied to defray the cost of annually inspecting the facilities with closed hazardous waste units in post-closure care and with no operating unit/permit. This fee shall be \$4,125 annually.

## **§5127. Methods of Payment**

- A. All payments made by check, draft, or money order shall be made payable to the Department of Environmental Quality, and mailed to the department at the address provided on the invoice.
- B. Electronic Methods of Payment

1. Persons wishing to make payments using the electronic pay method should access the department's website and follow the instructions provided on the website.
  2. Persons wishing to make payments using the electronic funds transfer (EFT) method shall contact the Office of Management and Finance for further instructions.
- C. Cash is not an acceptable form of payment.

#### **§5129. Late Payment Fee**

- A. Payments not received within 15 days of the due date will be charged a late payment fee.
- B. Any late payment fee shall be calculated from the due date indicated on the invoice.
- C. Payments not received by the department by:
  1. the fifteenth day from the due date will be assessed a 5 percent late payment fee on the original assessed fee;
  2. the thirtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee; and
  3. the sixtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee.

#### **§5131. Failure to Pay**

- A. Failure to pay the prescribed application fee or annual fee as provided herein, within 90 days after the due date, will constitute a violation of these regulations and shall subject the person to applicable enforcement actions under the Environmental Quality Act including, but not limited to, revocation or suspension of the applicable permit, license, registration, or variance.

#### **§5133. Effective Date**

- A. The application fees prescribed herein shall be required for all applications filed on or after these fee regulations are published in the Louisiana Register as adopted.
- B. The annual fees prescribed herein shall be effective for the state fiscal year in which these fee regulations are published in the Louisiana Register as adopted and each state fiscal year thereafter. Fees submitted to the department in accordance with previous fee regulations for the state fiscal year in which these fee regulations are published in the Louisiana Register as adopted shall be credited against the fees and due and payable under these fee regulations.

#### **§5139. Groundwater Protection Permit Review Fee**

- A. Permit Review Fee. This fee covers the cost of reviewing permits for geology, geotechnical design, and groundwater protection aspects.

Hazardous Waste Facilities (1 time)	\$8,250 each
Permit Modifications:	
Class 1 and 2	\$330 each
Class 3	\$1,238 each

Solid Waste Facilities (1 time)	\$8,250 each
Permit Modifications:	
Major	\$825 each
Minor	\$330 each

- B. Oversight of Abandonment Procedures. This fee covers the cost of reviewing plans to plug and abandon all permitted groundwater monitoring systems (monitoring wells, piezometers, observations wells, and recovery wells) to ensure that they do not pose a potential threat to groundwater.

Casing pulled	\$146 each
Casing reamed out	\$291 each
Casing left in place	\$726 each

#### **§5141. Incinerator and Boiler/Industrial Furnace Inspection and Monitoring Fee**

- A. Trial Burn or Test Burn Observer Fee. This is a special fee charged at a daily rate to cover the cost to the department of providing and placing on site a regulatory observer team during incinerator trial burns, boiler/industrial furnace trial burns, or other types of test burns required by regulations or the administrative authority when an observer team is required by regulations, specified by permit conditions, or considered necessary to ensure that human health and the environment are adequately protected.
1. This fee will be \$825 for each day of the test burn or trial burn.
  2. This fee will be billed following completion of the trial burn or test burn and must be paid by the due date indicated on the invoice.

#### **§5145. Annual Land Treatment Unsaturated Zone Monitoring Inspection Fee**

- A. Permit Review Fee. This fee covers the cost of reviewing permits for geology, geotechnical design, and hydrological separation requirements of these regulations.

Initial Permit	\$8,250 each
Permit Modifications:	
Class 1	\$330 each
Class 2 or 3	\$1,238 each

#### **§5147. Fee for NHEM Determination for Contaminated Environmental Media**

- A. A fee of \$4,125 shall be submitted at the time a request for a review of contaminated environmental media for a NHEM determination is made in accordance with LAC 33:V.106.

**§5149. Annual Fee for Facilities with Closed Hazardous Waste Units in Post Closure**

- A. Post Closure Annual Fee. This is an annual fee applied to defray the cost of annually inspecting the facilities with closed hazardous waste units in post-closure care. This fee shall be \$4,125 annually.

**Part VII. Solid Waste**  
**Subpart 1. Solid Waste Regulations**

**Chapter 15. Solid Waste Fees**

**§1501. Standard Permit Application Review Fee**

- A. Applicants for type I, I-A, II, and II-A standard permits shall pay a \$6,125 permit application review fee for each facility. The fee shall accompany each permit application submitted.
- B. Applicants for type III standard permits or beneficial-use plans shall pay a permit application review fee of \$1,325 for each facility. The fee shall accompany each permit application submitted.
- C. Permit holders providing permit modifications for type I, I-A, II, and II-A facilities shall pay a \$2,650 permit-modification review fee. The fee shall accompany each modification submitted. Permit holders providing mandatory modifications in response to these regulations shall pay a \$825 permit-modification fee. The fee shall accompany each mandatory modification submitted. Permit modifications required by LAC 33:VII.805.A will not be subject to a permit modification fee.
- D. Permit holders providing permit modifications for type III facilities or beneficial use facilities shall pay a \$813 modification review fee. The fee shall accompany each modification submitted.
- E. The administrative authority may waive fees for modifications that are:
  - 1. initiated by the administrative authority; or
  - 2. submitted as a result of a permit condition that requires submittal of a modification request.

**§1503. Closure Plan Review Fee**

- A. Applicants for type I, I-A, II, and II-A closures shall pay a \$1,650 closure-plan review fee. The fee shall accompany each closure plan submitted.
- B. Applicants for type III or beneficial-use facilities closures shall pay a \$413 closure-plan review fee. The fee shall accompany each closure plan submitted.
- C. Permit holders providing closure-plan modifications for type I, I-A, II, and II-A facilities shall pay a \$825 closure-plan modification review fee. The fee shall accompany each modification submitted.
- D. Permit holders providing closure-plan modifications for type III or beneficial-use facilities shall pay a \$207 closure-plan modification review fee. The fee shall accompany each modification submitted.

**§1505. Annual Monitoring and Maintenance Fee**

- A. Transporters. All transporters of solid waste shall pay a fee of \$250 per year to the department. There will be only one fee regardless of the number of vehicles in the service of the transporter.
- B. All holders of permits for solid waste processing and/or disposal facilities that have not completed closure, including post-closure activities, in accordance with an approved plan, shall be charged an annual monitoring and maintenance fee and an annual tonnage fee for each permit. Annual monitoring and maintenance fees shall be charged for each permitted waste type.
  - 1. Annual monitoring and maintenance fees are as follows:
    - a. \$9,900 for type I facilities (including facilities that handle both industrial and non-industrial waste);

- b. \$2,475 for type II facilities; and
  - c. \$825 for type I-A, II-A, III, and beneficial-use facilities.
- 2. Annual tonnage fees will be based on the wet-weight tonnage, as reported in the previous year's disposer annual report, and are calculated as follows:
  - a. for industrial wastes (type I facilities, except surface impoundments), \$0.99/ton;
  - b. for non-industrial wastes (type II facilities, except surface impoundments), \$0.25/ton for amounts exceeding 25,000 tons;
  - c. for construction or demolition debris deposited at permitted construction or demolition debris facilities (type III facilities), \$0.25/ton; and the fee is only applicable to construction or demolition debris that is subject to a fee imposed by the facility;
  - d. for surface impoundments, no tonnage fee;
  - e. for publicly operated facilities that treat domestic sewage sludge, no tonnage fee; and
  - f. for type I-A, II-A, III (except construction or demolition debris disposal facilities), and beneficial-use facilities, no tonnage fee.
  - g. The maximum annual tonnage fee per facility for type I facilities (including facilities that handle both industrial and non-industrial solid wastes) is \$120,000. The maximum annual tonnage fee for type II facilities is \$30,000. Surface impoundments, as noted above, are assessed only the base fee.
- C. The annual monitoring and maintenance period shall be from July 1 through June 30, commencing upon promulgation of these regulations and terminating upon completion of closure or post-closure activities for the facility in accordance with the permit of the administrative authority. The annual monitoring and maintenance fee for facilities during post-closure shall be 25 percent of the applicable base fee in Paragraph B.1 of this Section.
- D. Annual maintenance fees are not prorated. If a facility operates any part of a year or at a reduced rate during the year, the full annual maintenance fee is still charged.
- E. The annual maintenance fee for a new or modified permit shall be paid during the fiscal year (July 1 to June 30) in which the process specified in the permit comes on line.
- F. The annual fees prescribed herein shall be effective retroactive for the state fiscal year in which these fee regulations are published in the Louisiana Register as adopted and each state fiscal year thereafter.

#### **§1507. Methods of Payment**

- A. All payments made by check, draft, or money order shall be made payable to the Louisiana Department of Environmental Quality, and mailed to the department at the address provided on the invoice.
- B. Electronic Methods of Payment
  - 1. Persons wishing to make payments using the electronic pay method should access the department's website and follow the instructions provided on the website.
  - 2. Persons wishing to make payments using the electronic funds transfer (EFT) method shall contact the Office of Management and Finance for further instructions.
- C. Cash is not an acceptable form of payment.

#### **§1509. Late Payment Fee**

- A. Payments not received within 15 days of the due date will be charged a late payment fee.

- B. Any late payment fee shall be calculated from the due date indicated on the invoice.
- C. Payments not received by the department by the:
  - 1. fifteenth day from the due date will be assessed a 5 percent late payment fee on the original assessed fee;
  - 2. thirtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee; and
  - 3. sixtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee.

#### **§1511. Failure to Pay**

- A. Failure to pay the prescribed application fee or annual fee as provided herein, within 90 days after the due date, will constitute a violation of these regulations and shall subject the person to applicable enforcement actions under the Louisiana Environmental Quality Act including, but not limited to, revocation or suspension of the applicable permit, license, registration, or variance.

### **Subpart 2. Recycling**

#### **Chapter 105. Waste Tires**

##### **§10535. Fees and Fund Disbursement**

- A. Permit and Application Fees. Each applicant for the following permits or other authorization from the administrative authority shall submit with the application or request a non-refundable fee for the following categories in the amount specified.
  - 1. Transporter Fees. The transporter authorization application fee is \$250. There will be only one fee regardless of the number of vehicles in the service of the transporter.
  - 2. The collection center permit application fee is \$1,000.
  - 3. The mobile processor annual application fee is \$750.
  - 4. The standard processor permit application fee is \$1,563.
  - 5. The permit modification fee is \$125.
  - 6. The high volume end use facility application fee is \$313.
- B. A waste tire fee is hereby imposed on each tire sold in Louisiana, to be collected from the purchaser by the tire dealer or motor vehicle dealer at the time of retail sale. The fee shall be \$2 for each passenger/light truck tire, \$5 for each medium truck tire, and \$10 for each off-road tire. For recapped or retreaded tires, a waste tire fee of \$1.25 shall be collected upon the sale of each recapped or retreaded tire. This fee shall be collected whether or not the purchaser retains the waste tires. The department does not require the collection of fees on the sale of tires weighing 500 pounds or more, solid tires, or tires de minimis in nature, including but not limited to lawn mower tires, bicycle tires, and golf cart tires.
- C. Waste Tire Fee Audits and Informal Resolution Procedures
  - 1. Audits shall be undertaken to ensure waste tire generators are in compliance with all applicable regulations and that all monies owed to the waste tire management fund are efficiently, effectively, and timely collected and remitted to the fund.
  - 2. Waste tire generators are audited for various reasons, including but not limited to, referrals resulting from department inspections and enforcement issues, waste tire program or financial services staff collection efforts, and/or research initiated and performed by the auditors based on various circumstances.

3. Upon a determination that outstanding waste tire fees are owed, the administrative authority shall mail a written demand letter and invoice to the generator. The written demand letter shall include the following:
  - a. the amount of the debt owed;
  - b. a plan of action for recovery of the debt by the administrative authority;
  - c. options available to the generator for repayment of the debt; and
  - d. the informal procedures available to the generator by which the written demand letter, and contents of the invoice including the amount of the debt may be disputed.
4. Demand letters and invoices may be disputed by either sending a written dispute letter to the administrative authority requesting that the invoice be reevaluated, or by sending a written letter to the administrative authority requesting an informal meeting with the department to discuss the matter.
  - a. Written Dispute Process. Within 30 calendar days of the date on the written demand letter, the generator may dispute the debt by sending a letter to the administrative authority containing a concise statement, along with any supporting documentation, demonstrating why the debt is not owed. After a written dispute is received, the administrative authority will review the dispute, along with any supporting documentation submitted, and thereafter take any of the following actions:
    - i. reverse the amount of the debt in dispute and close the invoice;
    - ii. partially reduce the amount of the debt and issue a new written demand letter and invoice; or
    - iii. deny the dispute on grounds that insufficient information has been provided by the generator and proceed with appropriate department debt collection efforts.
  - b. Informal Dispute Meeting. Within 30 calendar days of the date on the written demand letter, the generator may dispute the debt by sending a letter to the administrative authority requesting an informal meeting to discuss the debt. Upon a determination by the administrative authority that a meeting is warranted, the administrative authority will notify the generator in writing of the date, time, and place of the informal meeting. The generator shall bring to the meeting all supporting documentation, including but not limited to, receipts, sales invoices, or any other documentation to dispute the debt. After the meeting, the administrative authority will consider the information discussed at the meeting, review all supporting documentation, if any, presented by the generator at the meeting, and thereafter take any of the following actions:
    - i. reverse the amount of the debt in dispute and close the invoice;
    - ii. partially reduce the amount of the debt and issue a new written demand letter and invoice; or
    - iii. deny the dispute on grounds that insufficient information was provided to dispute the debt and proceed with appropriate debt collection efforts.
- D. The disposition of the fee shall be as follows.
  1. The entire waste tire fee shall be forwarded to the Office of Management and Finance by the tire dealer and/or motor vehicle dealer and shall be deposited in the waste tire management fund.
  2. The waste tire fee shall be designated as follows:
    - a. a minimum of seven and a half cents per pound of whole waste tires and/or waste tire material that is recycled or that reaches an approved end-market use will be utilized to pay permitted waste tire processors that have entered into a

processor agreement with the administrative authority, and are in compliance with all applicable requirements of these regulations;

- b. a maximum of 10 percent of the waste tire fees collected may be utilized for program administration; and
- c. ten percent of the waste tire fees collected may be used for the cleanup of unauthorized waste tire piles and waste tire material.

E. Payments for Processing and Marketing Waste Tires and Waste Tire Material.

Payments made by the state of Louisiana are meant to temporarily supplement the business activities of processors and are not meant to cover all business expenses and costs associated with processing and marketing. Payments shall only be paid to standard permitted processors under written agreement with the administrative authority in accordance with LAC 33:VII.10516.

- 1. No payments shall be made for waste tires generated outside of the state of Louisiana.
- 2. No payments shall be made for used tires or for tires destined to be retreaded.
- 3. The payment for marketing or recycling of waste tire and/or waste tire material shall be a minimum of seven and a half cents per pound of waste tires and/or waste tire material that is recycled in accordance with a department approved end-market use. The determination that waste tires and/or waste tire material is being marketed to an end-market use shall be made by the administrative authority. This determination may be reviewed at any time. The processor shall maintain documentation demonstrating the waste tires and/or waste tire material has been recycled or has reached end-market use.
- 4. The payment for marketing waste tires and/or waste tire material produced by means other than shredding shall be determined on a case-by-case basis, but shall be a minimum of seven and a half cents per pound of waste tires and/or waste tire material.
- 5. Payments shall be made to the processor on a monthly basis, after properly completed monthly reports are submitted by the processor to the administrative authority. Reporting forms will be provided by the administrative authority.
- 6. The amount of payments made to each processor is based on the availability of monies in the waste tire management fund.
- 7. All, or a portion, of a processor's payments may be retained by the administrative authority if the administrative authority has evidence that the processor is not fulfilling the terms of the processor agreement and/or the conditions of the processor's standard permit or the standards and requirements of these regulations.
- 8. Waste tire material that was produced prior to January 1, 1998, and for which processing payments were made are only eligible for the additional \$0.15 incentive for marketing the waste tire material when the material is marketed after December 31, 1997.

**Part IX. Water Quality**  
**Subpart 1. Water Pollution Control**

**Chapter 13. Louisiana Water Pollution Control Fee System Regulation**

**§1309. Fee System**

- A. Applicability. Fees established by these regulations shall be applicable to all facilities subject to regulation under the Louisiana Water Control Law, R.S. 30:2071 et seq., including those with no discharge and/or closed system permits.
- B. Annual Fee
  - 1. The annual fee shall be calculated by multiplying the rating points times the rate factor except that the annual fee for each general permit shall be established by the administrative authority as provided below.
  - 2. The rating points shall be computed using the appropriate Annual Fee Rating Worksheet.
  - 3. The rate factor shall be applied per rating point as follows:
    - a. for municipal facilities:
      - i. \$162.80 per rating point as of July 1, 2017; and
    - b. for all other facilities:
      - i. \$299.16 per rating point as of July 1, 2017.
  - 4. The annual fee shall be paid each year a facility is subject to regulation under the Louisiana Water Control Law, R.S. 30:2071 et seq. The year shall correspond with the state's fiscal year, July 1 through June 30.
  - 5. For new facilities, the annual fee may be prorated to correspond to the start-up date.
  - 6. The annual fee for inactive facilities may be reduced by 50 percent during any fiscal year in which the facility was inactive for the entire fiscal year. In no case shall the fee be reduced below the minimum fee.
- C. New Permit Fee
  - 1. A new permit fee shall be paid for issuance of any new or temporary permit.
  - 2. The new permit fee shall be assessed subsequent to the receipt and review of an application or other request for permit action.
  - 3. This fee shall be 20 percent of the calculated annual fee but not less than the minimum annual fee, as defined in Paragraph E.1 of this Section.
- D. Modified or Reissued Permit Fee
  - 1. A modified or reissued permit fee shall be paid for any permit action which requires modification or reissuance of an existing permit.
  - 2. The modified or reissued permit fee shall be assessed subsequent to the receipt and review of an application or other request for permit action.
  - 3. This fee shall be 20 percent of the calculated annual fee but not less than the minimum annual fee, as defined in Paragraph E.1 of this Section, for permit actions requiring implementation of the public notice procedure.
  - 4. For all other permit actions, this fee shall be 10 percent of the calculated annual fee but not less than the minimum annual fee, as defined in Paragraph E.1 of this Section.
- E. Minimum and Maximum Annual Fee
  - 1. The minimum annual fee shall be \$380 as of July 1, 2017.
  - 2. The maximum annual fee shall be \$150,000 as of July 1, 2017.
- F. General Permit Fee. At the discretion of the administrative authority, an annual fee may be assessed for facilities regulated by a general permit. In deciding to establish an annual fee for facilities covered by a general permit, the administrative authority should consider the resources involved in administering the general permit, the

- economic impact on the regulated community, and the economic impact on the fee program. If the decision is made to assess an annual fee for an activity covered by a general permit, then each facility involved in that activity and covered by the general permit shall be assessed the fee.
- G. Due Date. Fees shall be received by the department by the due date indicated on the invoice.
- H. Late Payment Fee
1. Fee payments not received within 15 days of the due date will be charged a late payment fee.
  2. Any late payment fee shall be calculated from the due date indicated on the invoice.
  3. Payments not received by the department by:
    - a. the fifteenth day from the due date will be assessed a 5 percent late payment fee on the original assessed fee;
    - b. the thirtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee; and
    - c. the sixtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee.
- I. Failure to Pay. Failure to pay the prescribed application fee or annual fee as provided herein, within 90 days after the due date, will constitute a violation of these regulations and shall subject the person to applicable enforcement actions under the Louisiana Environmental Quality Act including, but not limited to, revocation or suspension of the applicable permit, license, registration, or variance.
- J. Refunds
1. There shall be no refunds of new, modified or reissued permit fees.
  2. The annual fee may be prorated and/or refunded should a facility relinquish its discharge permit.
- K. Annual Fee Rating Worksheet. The annual fee shall be computed using the appropriate Annual Fee Rating Worksheet as provided in LAC 33:IX.1313 or LAC 33:IX.1317. Instructions for completing the appropriate Annual Fee Rating Worksheet are provided in LAC 33:IX.1311 and LAC 33:IX.1315.
- L. Facility Complexity Designation
1. The facility complexity designation shall be based on the SIC code as established in the tables in LAC 33:IX.1319.
  2. If a facility is not specifically covered by an SIC code, the administrative authority may assign an SIC code and/or Facility Complexity Designation on a case-by-case basis.
  3. When it is demonstrated that factors associated with processes and waste generation are fundamentally different from those considered in assignment of a complexity designation, the administrative authority, on a case-by-case basis, may assign a minor facility a different complexity designation than that indicated in LAC 33:IX.1319. In making such a reassignment the administrative authority shall consider:
    - a. type and quantity of wastewaters discharged, the ultimate avenue of disposal, and the potential to discharge; and
    - b. complexity of the permitting procedure and the inspection requirements for this type of facility.
- M. Methods of Payment
1. All payments made by check, draft, or money order shall be made payable to the Department of Environmental Quality, and mailed to the department at the address provided on the invoice.
  2. Electronic Methods of Payment

- a. Persons wishing to make payments using the electronic pay method shall access the department's website and follow the instructions provided on the website.
- b. Persons wishing to make payments using the electronic funds transfer (EFT) method shall contact the Office of Management and Finance for further instructions.

3. Cash is not an acceptable form of payment.

## Chapter 15. Water Quality Certification Procedures

### §1507. Procedures for Issuance of Water Quality Certification

#### A. Application Requirements

1. Application Requirements. Any person, desiring issuance of a state water quality certification, shall file an application for certification with the Department of Environmental Quality at its office in Baton Rouge. The application should include:
  - a. the date of application;
  - b. the name, address, or principal place of business of the applicant;
  - c. if the applicant is a corporation, the state in which it is incorporated, the name of its principal officers and the name and address of the Louisiana agent for service of process;
  - d. the name of the individual who shall be primarily responsible for conduct of the activity for which certification is sought (plant manager or other person responsible for facility operation);
  - e. the nature of the activity to be conducted by the applicant, including estimates of volume of excavation for dredge and fill activities;
  - f. whether the discharge is occurring or proposed, including an estimated schedule for all proposed activities;
  - g. the location of the discharge, stating if applicable, the municipality, the parish, the drainage basin, the name of the receiving water, and the location of the point of discharge with regard to the receiving water;
  - h. the nature of the receiving water, including type (creek, river, swamp, canal, lake or pond), nature (fresh, brackish or salt), and direction of flow;
  - i. description of waste treatment works, if any, that will receive and process the wastewater before discharge into the receiving water;
  - j. the type of discharge, including chemical composition, quantity (expressed as gallons per unit of time), frequency, temperature, and kinds and quantities of pollutants or contaminants;
  - k. projected future variations in the nature of the discharge;
  - l. the type, diameter or cross-section and length of any conduit conveying the discharge;
  - m. names and addresses of adjoining riparian owners; and
  - n. maps, drawings, or plats at an appropriate scale and referenced to a commonly used set of geographic coordinates (latitude/longitude or section/range/township) which provide sufficient detail to accurately delineate:
    - i. the boundaries of the lands owned or to be utilized by the applicant in carrying out any activity;
    - ii. the location and extent of receiving waters in the vicinity of said lands;
    - iii. the location, dimensions, and type of any temporary or permanent structures or conveyances erected or to be erected on said lands; and
    - iv. the location of discharges into receiving waters.
2. Processing Fee
  - a. A one-time processing fee will be assessed all applicants to help defray the costs of this expanded program. The fee schedule will be as follows.

Noncommercial Activities	\$37/application
Commercial Activities	\$385/application

- b. Payment shall accompany the application for certification. The department shall consider the application incomplete and initiation of the application review process will not begin until payment of the processing fee is received. Payment shall be by one of the methods listed in LAC 33:IX.1309.M.1-2.b and shall be nonrefundable.
3. Exemptions from Processing Fee. All 402 permit applications will be exempt from this fee since fees are already assessed as part of the state permit system.
4. Approved Land Management Plan Requirement. Applicants whose applications involve the clearing of land for agricultural purposes shall submit to the Office of Environmental Services an approved land management plan for the land to be cleared before the application will be deemed adequate.
5. Power to Request Additional Information. The administrative authority may request, and the applicant shall furnish, any additional information deemed necessary for the proper consideration of the application to determine if the proposed discharge meets all applicable effluent limitations, water quality related effluent limitations, water quality standards, new source performance standards, and toxic and pretreatment standards.
6. Omissions from Applications. If the applicant considers that it is not feasible or is unnecessary to furnish any portion of the information required by Paragraphs 1 and 2 of this Section, applicant shall submit a detailed statement explaining the reasons for omission of any such information; but if the administrative authority does not concur in such omission, applicant shall submit the omitted information.
7. Confidentiality of Information. Any information submitted by the applicant, as required by an application for certification, and declared as confidential by the applicant shall be handled in accordance with LAC 33:I.Chapter 5.
8. Signing of Applications. Applications will be considered valid only if the application bears the signature of an individual authorized by a company, corporation, municipality, governmental agency, or an individual if the individual is the applicant. The signatory shall certify that all information contained in the application is true and correct to the best of his knowledge.

### **Subpart 3. Louisiana Sewage Sludge and Biosolids Program**

## **Chapter 73. Standards for the Use or Disposal of Sewage Sludge and Biosolids**

### **Subchapter A. Program Requirements**

#### **§7301. General Provisions**

- F. Registration Requirements and Standards for Transporters of Sewage Sludge and Standards for Vehicles and/or Containers Used in the Transport of Sewage Sludge
  1. Registration Requirements
    - a. A transporter of sewage sludge and/or grease mixed with sewage sludge shall not transport any sewage sludge and/or grease mixed with sewage sludge without first registering such activity with the Office of Environmental Services in writing and paying all associated fees.
    - b. Registration shall be through a form obtained from the Office of Environmental Services or through the department's website. All the information required by the form shall be provided. The method of payment of fees shall be in accordance with LAC 33:IX.1309.

- c. The registration period shall be for one state fiscal year period of July 1 to June 30. All registrations shall expire on June 30 of each year. If a person wishes to continue the operation of transporting sewage sludge, he or she shall apply for re-registration to the Office of Environmental Services on or before May 1 of each year.
- d. The fee for registration shall be an annual fee of \$110.
- e. The Office of Environmental Services shall be notified prior to any modification to the information submitted for registration, including, but not limited to, the following:
  - i. the removal and/or addition of information about the facility to which the sewage sludge is being transported; and
  - ii. the removal and/or addition of a vehicle that will be utilized for the transporting of sewage sludge.

### **§7315. Fee Schedule**

- A. Applicability. Fees established by these regulations shall be applicable to all facilities subject to regulation under this Chapter.
- B. Annual Fee
  - 1. The annual sewage sludge fee shall be \$2,000.
  - 2. The billing period shall correspond with the state's fiscal year (July 1 through June 30).
- C. General Permit Fee. At the discretion of the administrative authority, an annual fee may be assessed for facilities regulated by a general permit. In deciding to establish an annual fee for facilities covered by a general permit, the administrative authority should consider the resources involved in administering the general permit, the economic impact on the regulated community, and the economic impact on the fee program. If the decision is made to assess an annual fee for an activity covered by a general permit, then each facility involved in that activity and covered by the general permit shall be assessed the fee.
- D. Other Fees

Permit Type	Amount
Gen-LAJ65-Disposal in Landfill	\$600

- E. Due Date. Fees shall be received by the department by the due date indicated on the invoice.
- F. Late Payment Fee
  - 1. Payments not received within 15 days of the due date will be charged a late payment fee.
  - 2. Any late payment fee shall be calculated from the due date indicated on the invoice.
  - 3. Payments not received by the department by the:
    - a. fifteenth day from the due date will be assessed a 5 percent late payment fee on the original assessed fee;
    - b. thirtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee; and
    - c. sixtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee.
- G. Failure to Pay. Failure to pay the prescribed application fee or annual fee as provided herein, within 90 days after the due date, will constitute a violation of these

regulations and shall subject the person to applicable enforcement actions under the Louisiana Environmental Quality Act including, but not limited to, revocation or suspension of the applicable permit, license, registration, or variance.

H. Refunds. The fees in this section are nontransferable and nonrefundable.

I. Methods of Payment

1. All payments made by check, draft, or money order shall be made payable to the Louisiana Department of Environmental Quality, and mailed to the department at the address provided on the invoice.
2. Electronic Methods of Payment
  - a. Persons wishing to make payments using the electronic pay method should access the department's website and follow the instructions provided on the website.
  - b. Persons wishing to make payments using the electronic funds transfer (EFT) method shall contact the Office of Management and Finance for further instructions.
3. Cash is not an acceptable form of payment.

## Part XI. Underground Storage Tanks

### Chapter 3. Registration Requirements, Standards, and Fee Schedule

#### §307. Fee Schedule

- A. Applicability. These regulations apply to registered UST systems, regardless of their operational status.
- B. Annual Fees
1. Fees shall be assessed for the State of Louisiana fiscal year (July 1 through June 30).
  2. Any UST system shall be assessed the entire annual fee for the fiscal year in which it is installed or permanently closed, regardless of the date during that year on which such action occurs.
  3. The owner of the UST system is responsible for payment of the annual fee, any late payment fees, and all outstanding fees and late payment fees.
  4. Fees are assessed according to the following schedule.

Fee Number	Annual Fees	Amount
1	Annual Registration Fee	
	All registered UST systems	\$60
2	Annual Maintenance and Monitoring Fees	
a	UST systems at federal facilities (all categories except USTs defined in Fee Number 2.b., which shall be assessed the higher fee)	\$174
b	UST systems containing any substance defined in section 101(14) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980 (but not including any substance regulated as hazardous waste under the department's Hazardous Waste Regulations, LAC 33:V.Subpart 1)	\$726
c	UST systems containing petroleum products not meeting the definition of motor fuels	\$174
3	Motor Fuels Underground Storage Tank Trust Fund Fee	
	UST systems containing new or used motor oil (except USTs identified in LAC 33:XI.1101.C and D)	\$303

- C. Amended Registration Fees. The fee for amending or modifying a registration for change of ownership shall be \$60.
- D. Methods of Payment
1. All payments made by check, draft, or money order shall be made payable to the Louisiana Department of Environmental Quality, and mailed to the department at the address provided on the invoice.
  2. Electronic Methods of Payment
    - a. Persons wishing to make payments using the electronic pay method should access the department's website and follow the instructions provided on the website.

- b. Persons wishing to make payments using the electronic funds transfer (EFT) method shall contact the Office of Management and Finance for further instructions.
- 3. Cash is not an acceptable form of payment.
- E. Late Payment Fee
  - 1. Fee payments not received within 15 days of the due date will be charged a late payment fee.
  - 2. Any late payment fee shall be calculated from the due date indicated on the invoice.
  - 3. Payments not received by the department by:
    - a. the fifteenth day from the due date will be assessed a 5 percent late payment fee on the original assessed fee;
    - b. the thirtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee; and
    - c. the sixtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee.
- F. Failure to Pay. Failure to pay the prescribed fees as provided herein, within 90 days after the due date, shall constitute a violation of these regulations and shall subject the person to applicable enforcement actions under the act including, but not limited to, revocation or suspension of the applicable permit, license, registration, or variance.

## **Chapter 13. Certification Requirements for Persons Who Install, Repair, or Close Underground Storage Tank Systems**

### **§1305. Categories of Certification and Requirements for Issuance and Renewal of Certificates**

- A. Categories of Certification. UST certificates issued by the department will address the following categories:
  - 1. installation/repair; and
  - 2. closure.
- B. Requirements for Certification Examination
  - 1. To qualify for an examination, a person need not be a resident of Louisiana. A person shall provide, to the Office of Environmental Assessment, payment of the examination fee and meet the following requirements to be eligible for a UST certification examination.
    - a. Any person who applies for a certificate addressing UST system installation/repair shall demonstrate:
      - i. two years of experience in UST system installation/repair; and
      - ii. active participation in a minimum of five separate jobs involving UST system installations/repairs (three of which must be installations) conducted after December 22, 1988.
    - b. Any person who applies for a certificate addressing UST system closure shall demonstrate:
      - i. two years of experience in UST system closures; and
      - ii. active participation in a minimum of five jobs involving UST system closures conducted after December 22, 1988.
    - c. The following may substitute for the experience required in LAC 33:XI.1305.B.1.a or b:
      - i. a civil, environmental, or mechanical engineering degree from a recognized college or university; or
      - ii. closely related work experience on a year-for-year basis.

2. All information regarding an applicant's qualifications shall be provided on a department-prescribed application form. Applications shall include a listing of jobs performed, their locations, and the names of the companies/employers for whom the jobs were conducted.
- C. Requirements for Certification. No person shall be issued a certificate unless he or she has successfully passed a written examination described in LAC 33:XI.1307.
- D. Fees. The following fees are hereby established for certification and renewal:
  1. examination fee for individual certification, \$146; and
  2. certification renewal fee, \$146.
- E. Jurisdiction. The UST certificate shall be valid in all parishes and municipalities throughout Louisiana. All certified persons shall be required to conduct their operations within local jurisdictions in conformity with local requirements.
- F. Expiration and Renewal of Certificates
  1. All UST certificates and certificate renewals shall expire December 31 of every second year. Applications for certificate renewal and payment of the renewal fee should be submitted to the Office of Management and Finance by November 1 of each year they expire. A person whose certificate has expired prior to his or her submission of evidence of compliance with Paragraph F.2 of this Section shall be considered a new applicant for certification.
  2. A person who has been issued a certificate may renew it for another two-year period by paying the designated renewal fee and:
    - a. submitting, on a department-prescribed form, a certificate renewal application demonstrating that he or she has completed 16 hours of department-approved continuing education training courses; or
    - b. submitting, on a department-prescribed form, a certificate renewal application and successfully passing a written examination described in LAC 33:XI.1307. Payment of the examination fee specified in LAC 33:XI.1305.D.1 is not required.
- G. Issuance and Display of Identification Cards and Certificates
  1. Upon issuance of a UST certificate, the department will issue an identification card to the successful applicant that shows the person's name, driver's license or state identification number and the issuing state, categories of certification, certificate number, certificate issuance date, and certificate expiration date.
  2. A person who holds a current certificate shall present his or her identification card upon request by a representative of the Department of Environmental Quality or the owner or operator of the UST system for which installation, repair, or closure is to be conducted.
- H. Changes in Employment. It is incumbent upon a certified person to provide written notification to the Office of Environmental Assessment within 20 days after his or her knowledge of a change in employment.

## **Part XV. Radiation Protection**

### **Chapter 5. Radiation Safety Requirements for Industrial Radiographic Operations**

#### **Subchapter B. Personal Radiation Safety Requirements for Radiographers**

##### **§579. Identification (I.D.) Cards for Radiographers or Radiographer Trainees**

###### **A. Issuance**

1. An I.D. card shall be issued to each person who successfully completes the requirements of LAC 33:XV.575.A or B.
2. A radiographer I.D. card shall contain the radiographer's photograph. The department will take the photograph at the time the examination is administered. The radiographer trainee I.D. card does not require a photograph.
3. An I.D. card remains the property of the state of Louisiana and may be revoked or suspended under the provisions of this Section.
4. Any individual who wishes to replace his/her I.D. card shall submit to the Office of Environmental Compliance a written request for a replacement I.D. card, stating the reason a replacement I.D. card is needed. A non-refundable fee of \$29 shall be paid to the department for each replacement of an I.D. card. The prescribed fee shall be submitted with the written request for a replacement I.D. card. The individual shall maintain a copy of the request in his/her possession while performing industrial radiographic operations until a replacement I.D. card is received from the department.

###### **B. Expiration of I.D. Card. Each I.D. card is valid for a period of five years, unless revoked or suspended in accordance with LAC 33:XV.579. Each I.D. card expires at the end of the day indicated on the I.D. card.**

###### **C. Renewal of a Radiographer I.D. Card**

1. Applications for examination to renew an I.D. card shall be filed in accordance with LAC 33:XV.575.A.
2. The examination for renewal of an I.D. card shall be administered in accordance with LAC 33:XV.575.
3. A renewal I.D. card shall be issued in accordance with this Section.

###### **D. Renewal of a Radiographer Trainee I.D. Card**

1. Applications for a renewal radiographer trainee I.D. card shall be filed in accordance with LAC 33:XV.575.B.
2. A renewal I.D. card shall be issued in accordance with this Section.

###### **E. Revocation or Suspension of an I.D. Card**

1. Any radiographer or radiographer trainee who violates these Rules may be required to show cause at a formal hearing why his or her I.D. card should not be revoked or suspended in accordance with these regulations.
2. When a department order has been issued for an industrial radiographer or radiographer trainee to cease and desist from the use of sources of radiation or the department revokes or suspends his or her I.D. card, the industrial radiographer or radiographer trainee shall surrender the I.D. card to the department until the order is changed or the suspension expires.

### **Chapter 25. Fee Schedule**

#### **§2501. Scope and Purpose**

- A. It is the purpose of these regulations to establish a fee system for funding the monitoring, investigation, and other activities required to be conducted for the maintenance of a safe and healthful environment by the Department of Environmental Quality in accordance with the Louisiana Environmental Quality Act (R.S. 30:2101 et

seq.). Fees are required for all permits, licenses, registrations, and variances authorized by the Act.

**§2502. Authority**

- A. These regulations provide fees as required by R.S. 30:2014(B), R.S. 30:2106, and R.S. 30:2115.

**§2503. Definitions**

- A. All terms used in these rules, unless the context otherwise requires or unless specifically defined in the Louisiana Environmental Quality Act, or in other regulations promulgated by the administrative authority or his or her predecessor, shall have their usual meanings.

**§2504. Application Fees**

- A. Each application or amendment thereto for which a fee is prescribed shall be accompanied by a remittance in the full amount of the fee. No application or amendment thereto shall be accepted or processed prior to payment of the full amount specified. No permit, license, registration, or variance shall be issued, unless otherwise authorized by the administrative authority, until such check or draft has been accepted by the bank or drawee and the department's account has been credited with the amount of the fee in full.
- B. Payment of the prescribed annual fee does not automatically renew the license, certificate, registration, or approval for which the fee is paid. License renewal applications must be filed in accordance with LAC 33:XV.333.A. The accompanying renewal fee must be submitted with a full license renewal application every nine years.

**§2505. Annual Fees**

- A. All activities for which an annual fee is provided shall be subject to the payment of such fee by the due date indicated on the invoice, except that any fee in excess of \$50,000, upon written application to, and approval of, the administrative authority, may be paid in installments over a period not to exceed six months, according to a payment schedule established by the administrative authority.

**§2506. Reciprocal Agreements—Licenses and Registrants**

- A. Persons operating within Louisiana under the provisions of LAC 33:XV.212 or LAC 33:XV.390 shall submit to the Office of Environmental Compliance the annual fee of the applicable category before the first entry into the state. The fee will allow reciprocal recognition of the license or registration for one year from the date of receipt.

**§2507. Reimbursements**

- A. One-half of the annual fee will be reimbursed to the licensee or registrant upon receipt of a written request to terminate the license or registration, provided that the

- request has been received by the Office of Environmental Compliance within 180 days after the annual fee due date, and the fee has not been delinquent. Requests for termination of the license or registration received after 180 days of the annual fee due date will not entitle the licensee or registrant to reimbursement of any portion of the annual fee. No interest, legal or otherwise, will be paid on the funds withheld prior to reimbursement.
- B. One-half of the application fee will be reimbursed to the licensee or registrant upon receipt of a written request from the applicant to withdraw an application prior to final approval. In the case of the denial of an application, for whatever reason, one half of the application fee will be refunded. No interest, legal or otherwise, will be paid on the funds withheld prior to reimbursement.

#### **§2508. Determination of Fee**

- A. The fee for each applicable category is listed in LAC 33:XV.2599.Appendix A.
- B. In the case of licenses that authorize more than one activity, the total fee will be for the activity assigned the higher fee.
- C. Licenses that are amended and that result in a change in the LAC 33:XV.2599.Appendix A category to a more costly license shall be assessed the entire fee for that type of license effective with the amendment without regard to any fees already paid.
- D. Electronic products that are in storage are subject to the same initial application fee and annual maintenance fee unless the X-ray unit is rendered permanently incapable of producing radiation and this fact is documented in writing to the Office of Environmental Compliance.
- E. Electronic products that are no longer possessed by the registrant (e.g., sold, donated, or transferred) shall not be subject to the annual maintenance fee, provided written documentation is received by the invoice due date, which includes the name, address, and telephone number to whom possession was transferred.

#### **§2509. Methods of Payment**

- A. All payments made by check, draft, or money order shall be made payable to the Department of Environmental Quality, and mailed to the department at the address provided on the invoice.
- B. Electronic Methods of Payment
1. Persons wishing to make payments using the electronic pay method shall access the department's website and follow the instructions provided on the website.
  2. Persons wishing to make payments using the electronic funds transfer (EFT) method shall contact the Office of Management and Finance for further instructions.
- C. Cash is not an acceptable form of payment.

#### **§2510. Late Payment Fee**

- A. Payments not received within 15 days of the due date will be charged a late payment fee.
- B. Any late payment fee shall be calculated from the due date indicated on the invoice.
- C. Payments not received by the department by:

1. the fifteenth day from the due date will be assessed a 5 percent late payment fee on the original assessed fee;
2. the thirtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee; and
3. the sixtieth day from the due date will be assessed an additional 5 percent late payment fee on the original assessed fee.

**§2511. Failure to Pay**

- A. Failure to pay the prescribed application fee or annual fee as provided herein, within 90 days after the due date, will constitute a violation of these regulations and shall subject the person to applicable enforcement actions under the Environmental Quality Act including, but not limited to, revocation or suspension of the applicable permit, license, registration, or variance.

**§2512. Effective Date**

- A. The fees prescribed herein shall be effective on August 20, 1995 or upon publication in the Louisiana Register as adopted.

**§2513. Multiple Locations**

- A. Those persons possessing licenses or registrations that name multiple locations where sources of radiation are stored, used, or otherwise possessed, shall be subject to an additional fee of 10 percent of the annual maintenance fee for each such location within the state of Louisiana, not to exceed an amount equal to the annual maintenance fee.

**§2599. Appendix A**

<b>Appendix A—Radiation Protection Program Fee Schedule</b>		
	<b>New/Renewal Application Fee</b>	<b>Annual Maintenance Fee</b>
<b>I. Radioactive Material Licensing</b>		
A. Medical licenses:		
1. Therapy:		
a. Teletherapy	\$807	\$807
b. Brachytherapy	\$807	\$807
2. Nuclear medicine diagnostic only	\$995	\$995
3. Nuclear medicine diagnostic/therapy	\$1,067	\$1,067
4. Nuclear pacemaker implantation	\$400	\$400
5. Eye applicators	\$400	\$400
6. In-vitro studies or radioimmunoassays or calibration sources	\$400	\$400
7. Processing or manufacturing and distribution of radiopharmaceuticals	\$1,569	\$1,336
8. Mobile nuclear medicine services	\$1,569	\$1,336
9. "Broad scope" medical licenses	\$1,569	\$1,336
10. Manufacturing of medical devices/sources	\$1,830	\$1,525

<b>Appendix A–Radiation Protection Program Fee Schedule</b>		
	New/Renewal Application Fee	Annual Maintenance Fee
11. Distribution of medical devices/sources	\$1,372	\$1,140
12. All other medical licenses	\$444	\$444
<b>B. Source material licenses:</b>		
1. For mining, milling, or processing activities, or utilization which results in concentration or redistribution of naturally occurring radioactive material	\$7,928	\$7,928
2. For the concentration and recovery of uranium from phosphoric acid as "yellow cake" (powered solid)	\$3,965	\$3,965
3. For the concentration of uranium from or in phosphoric acid	\$1,983	\$1,983
4. All other specific "source material" licenses	\$400	\$400
<b>C. Special nuclear material (SNM) licenses:</b>		
1. For use of SNM in sealed sources contained in devices used in measuring systems	\$610	\$610
2. SNM used as calibration or reference sources	\$400	\$400
3. All other licenses or use of SNM in quantities not sufficient to form a critical mass, except as in I.A.4, I.C.1, and 2	\$400	\$400
<b>D. Industrial radioactive material licenses:</b>		
1. For processing or manufacturing for commercial distribution	\$7,841	\$5,903
2. For industrial radiography operations performed in a shielded radiography installation(s) or permanently designated areas at the address listed in the license	\$1,336	\$1,053
3. For industrial radiography operations performed at temporary jobsite(s) of the licensee	\$3,935	\$2,963
4. For possession and use of radioactive materials in sealed sources for irradiation of materials where the source is not removed from the shield and is less than 10,000 Curies	\$1,983	\$995
5. For possession and use of radioactive materials in sealed sources for irradiation of materials when the source is not removed from the shield and is greater than 10,000 Curies, or where the source is removed from the shield	\$3,935	\$1,968
6. For distribution of items containing radioactive material	\$1,983	\$1,983
7. Well-logging and subsurface tracer studies:		
a. Collar markers, nails, etc. for orientation	\$400	\$400

<b>Appendix A–Radiation Protection Program Fee Schedule</b>		
	New/Renewal Application Fee	Annual Maintenance Fee
b. Sealed sources less than 10 Curies and/or tracers less than or equal to 500 mCi	\$1,184	\$1,184
c. Sealed sources of 10 Curies or greater and/or tracers greater than 500 mCi but less than 5 Curies	\$1,983	\$1,983
d. Field flood studies and/or tracers equal to or greater than 5 Curies	\$2,977	\$2,977
8. Operation of a nuclear laundry	\$7,856	\$3,935
9. Industrial research and development of radioactive materials or products containing radioactive materials	\$995	\$995
10. Academic research and/or instruction	\$807	\$807
11. Licenses of broad scope:		
a. Academic, industrial, research and development, total activity equal to or greater than 1 Curie	\$1,983	\$1,983
b. Academic, industrial, research and development, total activity less than 1 Curie	\$1,184	\$1,184
12. Gas chromatographs, sulfur analyzers, lead analyzers, or similar laboratory devices	\$400	\$400
13. Calibration sources equal to or less than 1 Curie per source	\$400	\$400
14. Level or density gauges	\$610	\$610
15. Pipe wall thickness gauges	\$807	\$807
16. Soil moisture and density gauges	\$610	\$610
17. NORM decontamination/maintenance:		
a. at permanently designated areas at the location(s) listed in the license	\$4,574	\$3,812
b. at temporary jobsite(s) of the licensee	\$4,574	\$4,574
18. Commercial NORM storage	\$3,812	\$3,812
19. All other specific industrial licenses except as otherwise noted	\$807	\$807
20. Commercial NORM treatment	\$18,296	\$15,246
E. Radioactive waste disposal licenses:		
1. Commercial waste disposal involving burial	\$1,029,105	\$1,029,105
2. Commercial waste disposal involving incineration of vials containing liquid scintillation fluids	\$7,841	\$3,935
3. All other commercial waste disposal involving storage, packaging and/or transfer	\$3,935	\$3,935
4. Commercial naturally occurring radioactive materials waste disposal	\$23,000	\$20,000
F. Civil defense licenses	\$480	\$400
G. Teletherapy service company license	\$1,983	\$1,983
H. Consultant licenses:		

<b>Appendix A–Radiation Protection Program Fee Schedule</b>		
	New/Renewal Application Fee	Annual Maintenance Fee
1. No calibration sources	\$196	\$114
2. Possession of calibration sources equal to or less than 500 mCi each	\$291	\$196
3. Possession of calibration sources greater than 500 mCi	\$400	\$291
4. Installation and/or servicing of medical afterloaders	\$531	\$458
<b>II. Electronic Product Registration</b>		
1. Medical diagnostic X-ray (per registration)	\$129	\$129
2. Medical therapeutic X-ray (per registration):		
a. below 500 kVp	\$305	\$305
b. 500 kVp to 1 MeV (including accelerator and Van deGraaf)	\$610	\$610
c. 1 MeV to 10 MeV	\$916	\$916
d. 10 MeV or greater	\$1,220	\$1,220
3. Dental X-ray (per registration)	\$115	\$106
4. Veterinary X-ray (per registration)	\$115	\$115
5. Educational institution X-ray (teaching unit, per registration)	\$190	\$115
6. Industrial accelerator (includes Van de Graaf machines and neutron generators)	\$610	\$610
7. Industrial radiography (per registration)	\$305	\$305
8. All other X-ray (per registration) except as otherwise noted	\$138	\$138
<b>III. General Licenses</b>		
A. NORM (Operators reporting contamination by field will be invoiced for all wellheads in the field. Operators reporting contamination by wellhead will be invoiced only for contaminated units.)		
1. Contaminated wellheads per wellhead	\$125	\$125
2. Stripper wells-contaminated per wellhead	\$125	\$125
3. NORM locations (other than fields):		
a. gas plants, pipeyards, chemical plant, refinery	\$458	\$458
b. warehouses, pipeline, manufacturing plant, NORM equipment storage site, etc.	\$458	\$458
4. Interim container storage per NORM Waste Management Plan of an approved location		\$1,525
5. NORM location as otherwise defined in LAC 33:XV.1403 and not exempted by LAC 33:XV.1404, not included in III.A.1-4 of this Appendix	\$153	\$153
B. Tritium sign	\$109	\$0
C. All other general licenses which require registration	\$153	\$153

<b>Appendix A–Radiation Protection Program Fee Schedule</b>		
	New/Renewal Application Fee	Annual Maintenance Fee
<b>IV. Reciprocal Recognition</b>		
The fee for reciprocal recognition of a license or registration from another state or the NRC is the annual fee of the applicable category. The fee covers activities in the state of Louisiana for one year from the date of receipt.		
<b>V. Shielding Evaluation (per room)</b>		
A. Diagnostic	\$153	*
B. Therapeutic (below 500 kVp)	\$230	*
C. Therapeutic (500 kVp to 1 MeV)	\$378	*
D. Therapeutic (1 MeV to 10 MeV)	\$531	*
E. Therapeutic (10 MeV or greater)	\$1,148	*
F. Industrial and industrial radiography	\$531	*
<b>VI. Device, Product, or Sealed Source Evaluation</b>		
A. Device evaluation (each)	\$5,000	*
B. Sealed source design evaluation (each)	\$2,000	*
C. Update sheet	\$500	*
<b>VII. Testing</b>		
Testing to determine qualifications of employees, per test administered	\$196	*
<b>VIII. Nuclear Electric Generating Station</b>		
Located in Louisiana		\$432,696
Located near Louisiana (Plume Exposure Pathway Emergency Planning Zone —includes area in Louisiana)		\$313,632
Uranium Enrichment Facility		\$76,230
<b>Appendix A–Radiation Protection Program Fee Schedule</b>
