III

Respondent denies it committed any violations or that it is liable for any fines, forfeitures and/or penalties.

IV

Nonetheless, Respondent, without making any admission of liability under state or federal statute or regulation, agrees to pay, and the Department agrees to accept, a payment in the amount of SEVENTEEN THOUSAND AND NO/100 DOLLARS (\$17,000.00), of which Two Thousand Two Hundred Fifty-Nine and 67/100 Dollars (\$2,259.67) represents the Department's enforcement costs, in settlement of the claims set forth in this Settlement Agreement. The total amount of money expended by Respondent on cash payments to the Department as described above, shall be considered a civil penalty for tax purposes, as required by La. R.S. 30:2050.7(E)(1).

V

Respondent further agrees that the Department may consider the permit record(s), the Consolidated Compliance Order & Notice of Potential Penalty and this Settlement Agreement for the purpose of determining compliance history in connection with any future enforcement or permitting action by the Department against Respondent, and in any such action Respondent shall be estopped from objecting to the above-referenced documents being considered as proving the violations alleged herein for the sole purpose of determining Respondent's compliance history.

VI

This Settlement Agreement shall be considered a final order of the Secretary for all purposes, including, but not limited to, enforcement under La. R.S. 30:2025(G)(2), and Respondent hereby waives any right to administrative or judicial review of the terms of this agreement, except such review as may be required for interpretation of this Settlement Agreement in any action by the Department to enforce this Settlement Agreement.

VII

This Settlement Agreement is being made in the interest of settling the state's claims and avoiding for both parties the expense and effort involved in litigation or an adjudicatory hearing. In agreeing to the compromise and Settlement Agreement, the Department considered the factors for issuing civil penalties set forth in La. R.S. 30:2025(E) of the Act.

VIII

As required by law, the Department has submitted this Settlement Agreement to the Louisiana Attorney General for approval or rejection. The Attorney General's concurrence is appended to this Settlement Agreement.

IX

The Respondent has caused a public notice advertisement to be placed in the official journal of the parish governing authority in Plaquemines Parish, Louisiana. The advertisement, in form and wording approved by the Department, announced the availability of this Settlement Agreement for public view and comment and the opportunity for a public hearing. Respondent has submitted an original proof-of-publication affidavit and an original public notice to the Department and, as of the date this Settlement Agreement is executed on behalf of the Department, more than forty-five (45) days have elapsed since publication of the notice.

X

An initial payment of \$5,000.00 is to be made within thirty (30) days from notice of the Secretary's signature. The remaining balance of \$12,000.00 shall be made over a period of six (6) consecutive months in the amount of \$2,000.00 per month due on the 15th of each month. If payment is not received within that time, this Settlement Agreement is voidable at the option of the Department. The Respondent shall provide its tax identification number when submitting payment. Payments are to be made by check, payable to the Department of Environmental Quality, and mailed or delivered to the attention of Accounts Receivable, Financial Services Division, Department of Environmental Quality, Post Office Box 4303, Baton Rouge, Louisiana, 70821-4303 or by Electronic Funds Transfer (EFT) to the Department of Environmental Quality, in accordance with instructions provided to Respondent by the Financial Services Division. Each payment shall be accompanied by a completed Settlement Payment Form attached hereto.

XI

In consideration of the above, any claims for penalties are hereby compromised and settled in accordance with the terms of this Settlement Agreement.

XII

Each undersigned representative of the parties certifies that he or she is fully authorized to execute this Settlement Agreement on behalf of his or her respective party, and to legally bind such party to its terms and conditions.

II.

On or about May 8, 2024, the Department conducted a file review to determine the Respondent's degree of compliance with the Act, the Air Quality Regulations, the Water Quality Regulations, and all applicable permits. While the investigation by the Department is not yet complete, the following violations were noted during the course of the file review:

- A. The Respondent became the owner/operator of the five (5) aforementioned Facilities on April 1, 2022, and the Notification of Change Form (NOC-1) was postmarked on December 12, 2022. LPDES General Permits were transferred to the Respondent by the Department with an effective date of November 21, 2023, for each of the five (5) Facilities as noted in Table B. The failure to submit the NOC-1 and associated documentation to the Department within forty-five (45) days after a change in ownership of a permitted facility is a violation of LAC 33:I.1907.B, LAC 33:III.517.G, La. R.S. 30:2057(A)(2), and La. R.S. 30:2076(A)(3).
- B. The Respondent became the owner/operator of five (5) facilities listed in Table B on April 1, 2022. The air permits for three (3) facilities were transferred from Petrodome Operating, LLC to the Respondent effective November 21, 2023. The unauthorized operation of these facilities from the date the facilities were acquired until the date the

permits were transferred is a violation of LAC 33:III.501.C.2, La. R.S. 30:2057(A)(1), and La. R.S. 30:2057(A)(2).

- C. The Respondent failed to submit a permit renewal application that renews an existing permit at least six (6) months prior to the date of permit expiration. On or about February 20, 2015, the Department promulgated amendments to LAC 33:III.503, which established a regulatory framework setting forth maximum terms and renewal procedures for minor source permits. Per the final rule, LAC 33:III.503.C.1.a and La. R.S. 30:2023(A)(1), permits issued to minor sources of air emissions shall have an effective term of ten (10) years unless a shorter period is provided in the permit. Applications to renew existing permits that expired after January 1, 2016 were required to be submitted in accordance with LAC 33:III.503.C.3.a, at least six (6) months prior to their date of expiration. Specifically, Minor Source Air Permit No. 2240-00156-03 for Pointe a la Hache Compressor Station (Agency Interest Number 13776) expired on April 16, 2024; therefore, the deadline to submit a permit renewal application was on October 16, 2023. The Respondent submitted to the Department an air permit renewal application dated April 15, 2024 for Minor Source Air Permit No. 2240-00156-03. The failure to submit a permit renewal application that renews an existing permit at least six (6) months prior to the date of permit expiration is a violation of LAC 33:III.503.C.3.a and La. R.S. 30:2057(A)(2). The operation of the Pointe a la Hache Compressor Station (Agency Interest Number 13776) from April 16, 2024 until a permit is issued is a violation of LAC 33:III.501.C.2, La. R.S. 30:2057(A)(1), and La. R.S. 30:2057(A)(2).

III.

The Respondent owns and/or operates an oil and gas production facility known as the Pointe a la Hache South Barge Facility (Agency Interest Number 4616) located on Louisiana Highway 39, 7.8 miles northwest of Port Sulphur, Plaquemines Parish, Louisiana. The Respondent was transferred authorization under Louisiana Pollutant Discharge Elimination System (LPDES) General Permit LAG33A396 on November 21, 2023, with an expiration date of May 4, 2026. Under the terms and conditions of LPDES General Permit LAG33A396, the Respondent is permitted to discharge dewatering effluent from reserve pits which have not received drilling fluids and/or drill cuttings since December 15, 1996 (Outfall 001), deck drainage (Outfall 002), formation test fluids (Outfall 003), treated sanitary wastewater (Outfalls 04B

and 04C), domestic wastewater (Outfall 005), hydrostatic test wastewater (Outfall 006), and/or miscellaneous discharges (Outfall 007) into Pointe a la Hache Canal, all waters of the state.

Effective January 1, 2013, the Respondent was automatically covered under the Louisiana Sewage Sludge and Biosolids Use or Disposal General Permit LAJ660000.

If you assert that no monetary benefits have been gained, you are to fully justify that statement. If the Respondent chooses not to submit the requested most current annual gross revenues statement within ten (10) days, it will be viewed by the Department as an admission that the Respondent has the ability to pay the statutory maximum penalty as outlined in La. R.S. 30:2025.

IV.

The Department assesses civil penalties based on LAC 33:1.Subpart1.Chapter7. To expedite closure of this **NOTICE OF POTENTIAL PENALTY** portion, the Respondent may offer a settlement amount to resolve any claim for civil penalties for the violation(s) described herein. WHAT IS A SETTLEMENT AGREEMENT?

Once the Department has determined that a penalty is warranted for a violation, the Assistant Secretary of the Department, with the concurrence of the Attorney General, may enter into a settlement agreement with the Respondent as a means to resolve the Department's claim for a penalty.

HOW DOES THE SETTLEMENT AGREEMENT PROCESS WORK?

To begin the settlement agreement process, the Department must receive a written settlement offer. Once this offer is submitted, it is sent for approval by the Assistant Secretary of the Office of Environmental Compliance. The formal Settlement Agreement is drafted and sent to the Attorney General's office where the Attorney General has a 90 day concurrence period. During this time, the Respondent is required to run a public notice in an official journal and/or newspaper of general circulation in each affected parish. After which, a 45 day public comment period is opened to allow the public to submit comments. Once the Department has received concurrence, the settlement agreement is signed by both parties. The Department then forwards a letter to the responsible party to establish a payment plan and/or beneficial environmental project (BEP).

WHAT SHOULD I INCLUDE IN A SETTLEMENT AGREEMENT?

The Department uses the penalty determination method defined in LAC 33:1.705 as a guideline to accepting settlement offers. The penalty matrix is used to determine a penalty range for each violation based on the two violation specific factors, the nature and gravity of the violation and the degree of risk/impact to human health and property.

DEGREE OF RISK OR IMPACT TO HUMAN HEALTH OR PROPERTY	NATURE AND GRAVITY OF THE VIOLATION		
	MAJOR	MODERATE	MINOR
	\$32,500 to \$20,000	\$20,000 to \$15,000	\$15,000 to \$11,000
	\$11,000 to \$8,000	\$8,000 to \$5,000	\$5,000 to \$3,000
	\$3,000 to \$1,500	\$1,500 to \$500	\$500 to \$100

Degree of Risk to Human Health or Property

Major: (actual measurable harm or substantial risk of harm) A violation of major impact to an environmental resource or a hazard characterized by high volume and/or frequent occurrence and/or high pollutant concentration.

Moderate: (potential for measurable detrimental impact) A violation of moderate impact and hazard may be one characterized by occasional occurrence and/or pollutant concentration that may be expected to have a detrimental effect under certain conditions.

Minor: (no harm or risk of harm) A violation of minor impact are isolated single incidences and that cause no measurable detrimental effect or are administrative in nature.

Nature and Gravity of the Violation

Major: Violations of statutes, regulations, orders, permit limits, or permit requirements that result in negating the intent of the requirement to such an extent that little or no implementation of requirements occurred.

Moderate: Violations that result in substantially negating the intent of the requirements, but some implementation of the requirements occurred.

Minor: Violations that result in some deviation from the intent of the requirement; however, substantial implementation is demonstrated.

The range is adjusted using the following violator specific factors:

1. history of previous violations or repeated noncompliance;
2. gross revenues generated by the respondent;
3. degree of culpability, recalcitrance, defiance, or indifference to regulations or orders;
4. whether the Respondent has failed to mitigate or to make a reasonable attempt to mitigate the damages caused by the violation; and
5. whether the violation and the surrounding circumstances were immediately reported to the department, and whether the violation was concealed or there was an attempt to conceal by the Respondent.

Given the previous information, the following formula is used to obtain a penalty amount.

$$\text{Penalty Event Total} = \text{Penalty Event Minimum} + (\text{Adjustment Percentage} \times [\text{Penalty Event Maximum} - \text{Penalty Event Minimum}])$$

After this, the Department adds any monetary benefit of noncompliance to the penalty event. In the event that a monetary benefit is gained due to the delay of a cost that is ultimately paid, the Department adds the applicable judicial interest. Finally, the Department adds all response costs including, but not limited to, the cost of conducting inspections, and the staff time devoted to the preparation of reports and issuing enforcement actions.

WHAT IS A BEP?

A BEP is a project that provides for environmental mitigation which the respondent is not otherwise legally required to perform, but which the defendant/respondent agrees to undertake as a component of the settlement agreement.

Project categories for BEPs include public health, pollution prevention, pollution reduction, environmental restoration and protection, assessments and audits, environmental compliance promotion, and emergency planning, preparedness and response. Other projects may be considered if the Department determines that these projects have environmental merit and is otherwise fully consistent with the intent of the BEP regulations.

WHAT HAPPENS IF MY OFFER IS REJECTED?

If an offer is rejected by the Assistant Secretary, the Legal Division will contact the responsible party, or anyone designated as an appropriate contact in the settlement offer, to discuss any discrepancies.
