Part III. Air

Chapter 11. Control of Emissions of Smoke

§1109. Control of Air Pollution from Outdoor Burning

A. — C.7. ...

D. Exceptions to Prohibition against Outdoor Burning. Outdoor burning of waste material or other combustible material may be conducted in the situations enumerated below if no public nuisance is or will be created and if the burning is not prohibited by and is conducted in compliance with other applicable laws and with regulations and orders of governmental entities having jurisdiction, including air control regulations and orders. The authority to conduct outdoor burning under this regulation does not exempt or excuse the person responsible from the consequences of or the damages or injuries resulting from the burning:

1. — 5. ...

6. outdoor burning, in other than rural park or rural recreation area, of trees, brush, grass, and other vegetable matter from such area in land clearing and right-of-way maintenance operations if the following conditions are met:

a. prevailing winds at the time of the burning must be away from any city or town, the ambient air of which may be affected by smoke from the burning;

b. the location of the burning must be at least 1,000 feet (305 meters) from any dwelling other than a dwelling or structure located on the property on which the burning is conducted;

c. care must be used to minimize the amount of dirt on the material being burned;

d. heavy oils, asphaltic materials, items containing natural or synthetic rubber, or any materials other than plant growth which produce unreasonable amounts of smoke may not be burned; nor may these substances be used to start a fire;

e. the burning may be conducted only between the hours of 8 a.m. and 5 p.m. Piles of combustible material should be of such size to allow complete reduction in this time interval; and

f. the burning must be controlled so that a traffic hazard as prohibited by Subsection E of this Section is not created;

7. — 9.c. ...

10. in accordance with MM023E and Paragraph F of this Section, outdoor burning of trees, brush, grass, and other vegetable matter generated from 2023 drought conditions and/or insect pests in parishes having a population greater than 90,000 provided that a variance pursuant to LAC 33:III.917 is applied for and obtained from the administrative authority prior to the burning, and the burning is conducted in accordance with the limitations set forth in LAC 33:III.1109.D.6 at the location(s) specified in the variance application, and in accordance with the following:

a. burn site activities shall occur at least 100 feet from surrounding tree lines, fire prevention measures shall be maintained, and personnel shall remain onsite until burning activities, including smoldering, are completed for the day. The local fire marshal shall be made aware of proposed burning activities prior to site activation. If a burn ban is in effect at the local and/or state level, burning of vegetative debris is prohibited;

b. ash resulting from the burning activities shall be handled or disposed of in accordance with the following limitations:

i. ash may be disposed of at a properly permitted landfill; or

ii. ash may be handled as outlined in a Best Management

Practices (BMP) Plan approved through the Louisiana Department of Agriculture and in accordance with LAC 33:VII.303.A.10;

c. outdoor burning of non-listed debris streams, including painted wood, pressure-treated wood, untreated wood contaminated with petroleum-based hydrocarbons, asbestos-containing materials, and hazardous waste, is prohibited. In addition, per LAC 33:VII.315.M, open burning of solid waste is prohibited, except in accordance with R.S. 30:2001 et seq and this Section; and

d. the variance fee of \$500 pursuant to LAC 33:III.223, Table 1, Fee Number 2010 shall be waived for all qualifying variances.
