## DEQ ACTIONS

UPDATED: February 28, 2018

The following is a summary of actions taken by the Department of Environmental Quality with adoption, amendment, or repeal of proposed rules and of actions taken by the agency with respect to adoptions, increases, or decreases. Included are actions January 1, 2017, to February 28, 2018.

Proposed dates are those on which the notice of intended action was published in the Louisiana Register pursuant to La. R.S. 49:953. Public hearing dates are those on which the agency held public hearings pursuant to La. R.S. 49:953. Oversight hearing dates are those on which oversight hearings were conducted pursuant to La. R.S. 49:968. Final dates are those on which the actions were published in the Louisiana Register pursuant to La. R.S. 49:954.

- MM018 - Fee Increase Authorized by Act 451 of the 2016 Regular Legislative Session  
LAC 33:I.1119, 1151, 1409, 1411, 1413, 1701, 4501, 4503, 4701, 4703, 4705, 4707, 5903;

- AQ368 - Electronic Notice of Air Permit Actions  
LAC 33:III.504.E, 509.Q and W, and 531.A

The Rule will allow LDEQ to provide public notice of all air permit actions, including Title V and Prevention of Significant Deterioration (PSD) permits, by posting notices on the department's website ([www.deq.louisiana.gov](http://www.deq.louisiana.gov)) instead of by publishing advertisements in The Advocate and in local newspapers. The Rule will also allow LDEQ to make certain documents available via the department's Electronic Document Management System (EDMS) rather than at a physical location in the area of a proposed source or modification. On October 18, 2016, the Environmental Protection Agency (EPA) promulgated a rule entitled "Revisions to Public Notice Provisions in Clean Air Act Permitting Programs" (81 FR 71613). The federal rule removes the mandatory requirement to provide public notice of proposed air permits (and certain other related actions) via publication of an advertisement in a newspaper. Permitting authorities may now satisfy the public participation requirements of the Act by providing electronic notice ("e-notice") of proposed air permits. When e-notice is provided, the federal rule also requires permitting authorities to provide electronic access to proposed permits.

The federal rule also clarifies that the provisions under 40 CFR 51 requiring permitting authorities to make certain elements of the administrative record available in the area of a proposed source or modification may be satisfied by making such materials available at either a physical location or on a public website identified by the permitting authority.

HW107 - RCRA Issues

LAC 33:V.108, 109, 309, 517, 537, 705, 1103, 1107, 1109, 1515, 1516, 1529, 1751, 1903, 1907, 2201, 2203, 2207, 2209, 2211, 2216, 2221, 2227, 2231, 2239, 2241, 2243, 2245, 2299 Tables 4 and 12, 3001, 3203, 3301, 3511,4037, 4053, 4071, 4085, 4301, 4399, 4407,

This Rule makes amendments to the regulations to correct errors and make clarifications in regards to certain definitions, notification, permitting, financial assurance, generator waste analysis, recordkeeping, and notice requirements, and required approval by the EPA administrator for certain land disposal restrictions.

This Rule is in response to EPA's review of the state's authorized program. The amendments are necessary to maintain equivalency and authorization for the state's hazardous waste program.

HW122 - Technical Amendment to Hazardous Waste Delisting - Denka Performance Elastomers LLC

LAC 33:V.4999. Appendix E

This Rule is a technical amendment of a hazardous waste delisting of Dynawave Scrubber Effluent, which was approved and promulgated under DuPont/Dow Elastomers LLC on December 20, 1999. This rulemaking will amend the description of the wastes excluded in the Denka Performance Elastomer LLC delisting. In a previous rule, a name change was completed for a delisting of hazardous waste. As part of public comments, the facility requested a technical change to the description of the wastes excluded. These changes were necessary because EPA has revised the waste codes since the original promulgation in 1999. LDEQ has reviewed the request to amend the waste codes and considers it justified.

HW118 - Revised Definition of Solid Waste

LAC 33:V.105, 109 and 322

This Rule requires all secondary hazardous materials (materials that are recycled or re-used in industrial processes) to be managed in accordance with new, strict requirements. This Rule will require secondary hazardous materials to be managed as if they were already hazardous wastes that have been discarded. It also requires that the uses of secondary hazardous materials as ingredients and the products created with the materials, be evaluated for legitimacy. Any facility that utilizes hazardous secondary materials will be required to conduct a costly evaluation of its industrial uses and practices for managing the hazardous secondary materials. Most industries use hazardous secondary materials in their production processes in order to avoid wasting valuable intermediate materials. This regulation change is required by EPA.

WQ095ft - Municipal Separate Storm Sewer Systems General Permit Revisions  
LAC 33:IX.2515, 2521, 2523 and 2525

This Rule revises the Municipal Separate Storm Sewer Systems (MS4s) general permit requirements and is identical to portions of the recent MS4 General Permit Remand Rule, finalized by EPA on November 17, 2016. In this rule, the EPA changed the regulations on how small MS4s obtain coverage under NPDES general permits. This change addresses the partial 2003 remand of the Phase II storm water regulations by the U.S. Court of Appeals. The court found that EPA failed in two areas: (1) to require permitting authority review of the best management practices (BMPs) to be used at a particular MS4 to ensure that the small MS4 permittee reduces pollutants in the storm water discharges to the maximum extent practical (MEP); and (2) failed to provide for adequate public notice and opportunity to request a hearing. The final rule provides two methods to the permitting authority on how to develop small MS4 general permits and issue coverage to regulated small MS4s. The final rule also changes notice of intent requirements and clarifies that it is the permitting authority's responsibility to establish permit terms and conditions that meet the MS4 regulatory standard. The rule also emphasizes that permit requirements must be expressed in "clear, specific and measurable" terms.

AQ346 - Regulatory Permit for Oil and Gas Well Testing  
LAC 33:III.307

This revision to the section, Regulatory Permit for Oil and Gas Well Testing will allow well testing equipment to be utilized for longer than 10 operating days. The section, Regulatory Permit for Oil and Gas Well Testing currently limits operation of temporary separators, tanks, meters, and fluid-handling equipment to 10 operating days (LAC 33:III.307.E). The revision will allow well testing equipment to be utilized for longer periods such that additional testing events can be authorized by the regulatory permit process.

AQ348 - Regulatory Permit for Storage Vessels  
LAC 33:III.321

This Rule will establish a regulatory permit for storage vessels, which can be used to authorize air emissions resulting from the storage of volatile organic liquids in tanks, reservoirs, containers, etc. Authorization to construct and use a storage vessel will become effective only upon notification by the department that the application required by the regulatory permit has been determined complete. R.S. 30:2054(B)(9)(a) allows LDEQ to develop regulatory permits for certain sources of air emissions provided the conditions in R.S. 30:2054(B)(9)(b) are satisfied. A regulatory permit is a permit that is incorporated into the regulations in the form of a rule.

Pursuant to R.S. 30:2054(B)(9)(b)(viii), all regulatory permits shall be promulgated in accordance with the procedures provided in R.S. 30:2019-Promulgation of rules and regulations (i.e., the Administrative Procedure Act, R.S. 49:950 et seq.).

**AQ371ft - Rescission of PSD Permits**  
**LAC 33:III.509**

LAC 33:III.509.W.4 requires the public to be given "adequate notice of the rescission" of a Prevention of Significant Deterioration (PSD) permit. This Rule will specify that the department must provide such notice with 60 days of the rescission. The federal PSD program requires notice of the rescission of a PSD permit to be provided within 60 days of the rescission. 40 CFR 52.21(w)(4) reads: If the Administrator rescinds a permit under this paragraph, the Administrator shall post a notice of the rescission determination on a public website identified by the Administrator within 60 days of the rescission.

**AQ372 - In-Kind Replacements**  
**LAC 33:III.501.D**

This Rule would allow the owner/operator of a facility that requires an air permit to replace an emissions unit with an identical or functionally equivalent unit without prior approval of the department, provided that the replacement unit:

- does not increase the potential to emit of any regulated pollutant on an hourly or annual basis;
- does not alter the basic design parameters of the process unit or facility;
- is not subject to regulatory requirements that differ from those applicable to the emissions unit being replaced; and
- does not result in a significant emissions increase of any nonattainment pollutant (if the facility is a "major stationary source" as defined in LAC 33:III.504 – Nonattainment New Source Review) or regulated NSR pollutant (if the facility is a "major stationary source" as defined in LAC 33:III.509 – Prevention of Significant Deterioration).

The replaced emissions unit must also be removed from the facility or otherwise permanently disabled. Currently, the owner/operator of a facility that requires an air permit must obtain approval of the department prior to replacing an emissions unit with an identical or functionally equivalent unit, even if no changes to the emission limits and monitoring, recordkeeping, and reporting requirements of the facility's permit are necessary.

**MM019 - Rule to Add References to Office of Environmental Assessment**

LAC 33:I, III, V, VI, IX and XI

In response to Act 378 of the 2016 Regular Legislative Session, the Department of Environmental Quality has created the Office of Environmental Assessment. This office will absorb functions and units from the Office of Environmental Compliance and the Office of Environmental Services. Due to the creation of the new office, this rulemaking revises references instructing where documents and notifications must be submitted.

**WQ096ft - Chapter 49 Incorporation by Reference Update**

LAC33:IX.4901 and 4903

This Rule changes the reference dates to 40 CFR Part 136 and 40 CFT Parts 401 and 405-471. This updates the regulation to reflect the July 1, 2016 EPA publication. LAC33:IX, Chapter 49 incorporates the following portions of the federal regulations into the Louisiana water quality regulations:

1. 40CFR Part 136, Guidelines Establishing Test Procedures for the Analysis of Pollutants, July 1, 2016, in its entirety;
2. 40CFR Chapter I, Subchapter N, Effluent Guidelines and Standards, parts 401 and 405-471, July 1, 2016.

This action will incorporate the recently updated federal regulations into Louisiana's Water Quality Regulations, increasing the enforceability of LPDES permits that include EPA-approved analytical methods and effluent limitations guidelines. The published edition of the 40 CFR is regularly updated on July 1 of every calendar year; therefore, this Rule will incorporate the date of July 1, 2016.

This Rule amends the regulations to correct errors and clarifies certain hazardous waste generator requirements, land disposal restrictions and recycling requirements. This Rule is in response to EPA's review of the state's authorized program. The amendments are necessary to maintain equivalency and authorization of the state's hazardous waste program.

AQ370ft - 2017 Annual Incorporation by Reference of Certain Federal Air Quality Regulations

LAC 33:III.506, 507, 2160, 3003, 5116, 5122, 5311 and 5901

This rule incorporates by reference (IBR) into the Louisiana Administrative Code (LAC), Title 33, Part, Air, the following federal regulations included in the July 1, 2017 edition of the Code of Federal Regulations (CFR): 40 CFR Parts 51, Appendix M, 60, 61, 63, 68, 70.6(a) and 96. Any exception to the IBR is explicitly listed in the Rule.

The Rule updates the references to July 1, 2017, for Standard of Performance for New Stationary Sources, 40 CFR Part 60. It also updates the references to July 1, 2017, for the National Emission Standards for Hazardous Air Pollutants (NESHAP) and for NESHAP for Source Categories, 40 CFR Part 61 and 63.

In order for Louisiana to maintain equivalency with federal regulations, certain regulations in the most current Code of Federal Regulations, July 1, 2017, must be adopted into the Louisiana Administrative Code (LAC). This rulemaking is also necessary to maintain delegation authority granted to Louisiana by the Environmental Protection Agency.

AQ376ft - Definition of Major Source  
LAC 33:III.502.A

This rule will revise the definition of “major source” in LAC 33:III.502.A to parallel the federal definition of the term at 40 CFR 70.2. A “major source” is a stationary source or group of stationary sources that are located on one or more contiguous or adjacent properties, that are under common control of the same person (or persons under common control), and that meet certain additional criteria, such as having the potential to emit air pollutants at or above prescribed thresholds. On June 3, 2016, the U.S. Environmental Protection Agency (EPA) promulgated a rule entitled “Source Determination for Certain Emission Units in the Oil and Natural Gas Sector” (81 FR 35622). This rule amended the definition of “major source” in 40 CFR 70.2 to stipulate the circumstances under which EPA would consider two or more nominally separate onshore crude oil and natural gas production operations to be “adjacent.”

Although adoption of the amended definition is not mandatory, LDEQ published a Potpourri Notice (1607Pot2) in the July 20, 2016, Louisiana Register explaining that the department will “now interpret the term adjacent consistent with the definitions of major source under 40 CFR 70.2 and building, structure, facility, or installation under 40 CFR 51.165(a)(1)(ii) and 40 CFR 51.166(b)(6) in order to be consistent with federal regulations.”
