NOTICE OF INTENT

**Department of Environmental Quality
Office of the Secretary
Legal Affairs Division**

One-Time Exclusion of Wastes for
Chevron Oronite Co. LLC—Oak Point Plant
(LAC 33:V.4999) (HW138)

Under the authority of the Environmental Quality Act, R.S. 30:2001 et seq., and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the secretary gives notice that rulemaking procedures have been

initiated to amend the Hazardous Waste regulations, LAC 33:V.4999, Appendix E, Table 2 (HW138).

The proposed Rule seeks to exclude (delist) incinerator ash and scrubber mud generated by Chevron Oronite Co. LLC and disposed of in Landfills A, B, and C at its Oak Point Plant in Belle Chasse, Louisiana, from the hazardous waste regulations. Chevron Oronite Co. LLC has submitted a petition to delist approximately 200,500 cubic yards of incinerator ash and scrubber mud, which are currently classified as listed hazardous waste (F005). The request seeks to reclassify these materials as nonhazardous industrial solid waste based on analytical data and risk assessment results, demonstrating that they do not pose a significant risk to human health or the environment. This reclassification will improve waste management efficiency while ensuring environmental protection. It will allow management by either disposal at a permitted off-site facility appropriate for nonhazardous industrial waste or through in-place management using alternate methods approved by LDEQ.

The delisting program is regulated under LAC 33:V.105.M and follows a formal rulemaking process. Applicants must submit a petition and meet all regulatory requirements to qualify for exclusion from hazardous waste regulations. This one-time delisting applies exclusively to the specified 200,500 cubic yards of waste materials located in Landfills A, B, and C at the Chevron Oronite Co LLC - Oak Point Plant site in Belle Chasse, Louisiana. The basis and rationale for this Rule are based on an evaluation of the information provided by the petitioner, including the analytical data, and the department's analysis of the information, including results of the Delisting Risk Assessment Software assessment. This Rule meets an exception listed in R.S. 30:2019(D)(2) and R.S. 49:963.B(3); therefore, no report regarding environmental/health benefits and social/economic costs is required.

Chevron Oronite Company LLC – Oak Point Plant, Belle Chasse, LA
Hazardous waste scrubber mud was generated by scrubbing flue gas resulting from the incineration of a listed liquid hazardous waste previously generated at the Chevron Oronite Company LLC – Oak Point Plant (Chevron) in Belle Chasse, Louisiana. Chevron stabilized the scrubber mud with nonhazardous incinerator ash, nonhazardous sludges, and contaminated soil (collectively referred to as "ash"), all of which were generated at Chevron prior to disposal in Landfills A, B, and C. For the purpose of this one-time exclusion, the ash disposed of in Landfills A, B, and C includes hazardous waste code F005 and hazard codes "I" and "T" as listed in LAC 33:V.4901. This one-time exclusion allows for the management of approximately 200,500 cubic yards of ash for the purpose of excavation, transportation, and off-site disposal as nonhazardous industrial solid waste or management in-place pursuant to alternative methods approved by the administrative authority.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES

**RULE TITLE: One-Time Exclusion of Wastes for
Chevron Oronite Co LLC—Oak Point Plant**

- I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

There are no anticipated implementation costs as a result of the proposed rule change.

The proposed rule change seeks to exclude (delist) incinerator ash and scrubber mud generated by Chevron Oronite Co. LLC and disposed of in Landfills A, B, and C at its Oak Point Plant in Belle Chasse, Louisiana, from the hazardous waste regulations.

- II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

There is no anticipated effect on revenue collections of state or local governmental units as a result of the proposed rule change.

- III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS, SMALL BUSINESSES, OR NONGOVERNMENTAL GROUPS (Summary)

Assuming the delisting petition is granted, Chevron Oronite Co. LLC - Oak Point Plant will remove the material and send it to a permitted nonhazardous industrial solid waste landfill for disposal. This option may produce an economic benefit to Louisiana contractors. Chevron Oronite Co. LLC - Oak Point Plant also has the option for in-place management using alternate methods approved by the Louisiana Department of Environmental Quality (LDEQ). The remediation of the 200,500 cubic yards will benefit Chevron Oronite Co. LLC - Oak Point Plant by allowing its industrial property to be fully utilized.

- IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

The effects on competition are negligible. The delisting facilitates the remediation of materials that have been determined not to exhibit hazardous waste characteristics. The removal and disposal activities related to the 200,500 cubic yards will involve short-term employment in environmental, laboratory, and construction-related fields.
