~~veterans who hold a current, valid certification and recommendation issued by the appropriate branch of the U.S. Armed Forces. Under the proposed rule change, these eligible individuals are considered certified as a JROTC instructor by the Board of Elementary and Secondary Education (BESE), eliminating the need for an additional certification issued by the Louisiana Department of Education (LDOE). Additional changes include updates to paraprofessional Education Testing Services (ETS) assessments, transitioning from use of the ParaPro assessment to the ParaPathways assessment to determine classification as a "highly qualified paraprofessional."~~

~~II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)~~

~~The proposed rule change is anticipated to minimally decrease self-generated revenue collections of LDOE. Historically, the department has received very few applications for JROTC instructor certifications; therefore, any decrease in revenues due to the elimination of the separate JROTC certification and its associated \$50 application fee is not anticipated to be significant.~~

~~III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)~~

~~There are anticipated economic savings to persons, small businesses, or non-governmental groups as a result of the proposed rule change. The cost of the ETS paraprofessional test will decrease from \$85 to \$75 with the transition from the ParaPro exam to the ParaPathways exam. Further, the repeal of the duplicate certification requirement for JROTC instructors will result in a savings of the \$50 application fee for applicants seeking certification by BESE.~~

~~IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)~~

~~The proposed rule change may increase competition and employment as currently serving members of the U.S. Armed Forces may now be eligible to teach JROTC courses instead of limiting access to retirees.~~

**NOTICE OF INTENT**

Office of the Secretary

**Solid Waste and Waste Tire Public Notice Revision  
(LAC 33:VII.509, 513, and 10513)**

Under the authority of the Louisiana Environmental Quality Act, R.S. 30:2001 et seq., and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the secretary gives notice that rulemaking procedures have been initiated to amend the Solid Waste regulations, LAC 33:VII.509, 513, and 10513 (SW078).

This proposed Rule modernizes the public notice requirements for solid waste and waste tires to make the department's website the official location of public notices for draft permit decisions and public hearings. In addition, the proposed Rule allows the department to supplement web publication with other noticing methods at the discretion of the department.

Currently, the public notices for solid waste and waste tire draft permit decisions and public hearings are published on

the department's website and are published one time as a single classified advertisement in the official state journal and a major local newspaper. This proposed Rule will streamline the public notice process for solid waste and waste tires by removing the duplicate publishing effort, removing the cost of publication in the state journal and newspaper, and providing quicker publishing of the notices through the department's website. The proposed Rule also provides that the public notice be published on the department's website for the duration of the public comment period.

The basis and rationale for this proposed Rule are to modernize the solid waste and waste tire regulations regarding the public notice requirements for draft permit decisions and public hearings. The department's website, as the official location of these public notices, provides a centralized approach for the public to be informed of a draft permit decision and a public hearing, access material associated with a draft permit, and provide comments on a draft permit during the public comment period. This Rule meets an exception listed in R.S. 30:2019(D)(2) and R.S. 49:963.B(3); therefore, no report regarding environmental/health benefits and social/economic costs is required.

**FISCAL AND ECONOMIC IMPACT STATEMENT  
FOR ADMINISTRATIVE RULES  
RULE TITLE: Solid Waste and Waste Tire Public  
Notice Revision**

**I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE  
OR LOCAL GOVERNMENT UNITS (Summary)**

There are no anticipated implementation costs or savings associated with the proposed rule change to state agencies or local governmental units. The proposed rule change modernizes public notice requirements for solid waste and waste tire permits by designating the Department of Environmental Quality's (DEQ) website as the official location of public notices of draft permit decisions and public hearings. The proposed rule change also allows the department to supplement web publication with other notice methods at the department's discretion.

Currently, public notices for solid waste and waste tire draft permit decisions and public hearings are published on the department's website, and once as a single classified advertisement in the official state journal and a major local newspaper. The proposed rule change streamlines this process by eliminating duplicative publishing requirements, removing the applicant's cost of publication in the official journal of the state and local newspaper, and allowing for quicker publishing of the notices through the DEQ website. The proposed rule change also provides that the public notice be published on the department's website for the duration of the public comment period. The applicant pays the fee to publish notices; therefore, the department's costs or savings would not be directly impacted. The only impact would be a minor decrease in workload.

**II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE  
OR LOCAL GOVERNMENTAL UNITS (Summary)**

The proposed rule change is not anticipated to result in any increase or decrease in state or local revenue collections.

**III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO  
DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL  
GROUPS (Summary)**

The economic cost and or benefit is negligible to directly affected persons, small businesses, or nongovernmental groups. Publication costs vary by journal and newspaper.

The rule makes the LDEQ's website the official location of public notices for solid waste and waste tire media instead of publishing in the official journal of the state (newspaper) and local newspapers.

**IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT  
(Summary)**

There is no anticipated impact on competition or employment in the public or private sectors.
