RE: Summary Report for Proposed Rule WQ118S
Turbidity Criteria Refinement
LAC 33:IX.1113 and 1123
Proposed on May 20, 2026

Pursuant to the Louisiana Administrative Procedure Act, the Louisiana Department of Environmental Quality is submitting a report regarding the above-referenced proposed rule, which was published in the *Louisiana Register*. Two public hearings were held with comments received. Amendments have been made to the proposed rule in response to the comments. This revised rule language is attached. This final summary report is comprised of the attached electronic documents.

We would appreciate it if you would acknowledge receipt of this message by return email. Please contact our office at (225) 219-3985 if you have questions regarding this material.

Sincerely yours,

Jill C. Clark
General Counsel

==========

This concludes this transmission.

District. Rules for these functions are presently scattered through several LAC titles, making them less accessible to water-well owners, drillers, regulated users, and the general public.

C&E also seeks to re-promulgate rules to ensure they conform to changes made by Act 458 of the 2025 Regular Session, reorganizing the former Department of Energy and Natural Resources (DENR), transferring the authority of the former commissioner of Conservation to the C&E Secretary, as the commissioner of Conservation title was changed/consolidated to Secretary of C&E.

In addition to the changes described above, there are several proposed changes for which C&E wishes to give particular notice:

- defining *large volume well* to include any well with an eight-inch or greater diameter screen, or any well (alone or in combination with related wells) determined capable of producing 300 gallons per minute, in place of the prior 1,500-gallon-per-minute threshold;
- strengthening of language relative to variance requests made to the department and the flexibility of the department in responding to, granting, altering, or otherwise handling such requests;
- creation of Areas of Investigation terminology as a tool for the collection of data in a specific geographic region under an order of the secretary, separate and apart from Groundwater Area of Concern and Critical Area of Concern designations;
- making orders of the secretary appealable to the Nineteenth Judicial District Court as provided by law;
- making new provisions prohibiting screening or perforating a water well, environmental well, test hole, or borehole across or into more than one distinct aquifer;
- carrying forward the special rules for the Capital Area Ground Water Conservation District, while removing duplicative rules specific to this district that were previously separate from state rules.

Public Comments

C&E requests persons or organizations interested in providing written comments or other feedback on the proposed rule changes do so through the Rule Comment Webpage (https://www.dce.louisiana.gov/form/rulemaking-comments) or by email to cerulecomments@stateofla.onmicrosoft.com. All comments must be received by the close of business on October 15, 2026.

Department of Environmental Quality
Office of the Secretary
Legal Affairs Division

Notice of Public Hearing
Substantive Changes to Proposed Rule WQ118
Turbidity Criteria Refinement
(LAC 33:IX.1113 and 1123)

Under the authority of the Environmental Quality Act, R.S. 30:2001 et seq., and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the secretary gives notice that the department is seeking to incorporate substantive changes to proposed regulation (LAC 33:IX.1113 and 1123), which was originally noticed as WQ118 in the May 20, 2026, issue of the *Louisiana Register*. (2609Pot1)

The department has proposed substantive changes to address comments received during the public comment period of proposed rule WQ118. Louisiana's turbidity criteria are expressed as general and numeric criteria. In 2025, the Water Planning and Assessment Division completed a study with the objective to determine appropriate methods for developing numeric turbidity criteria in select water bodies. https://edms.deq.louisiana.gov/app/doc/view?doc=14986295 An endnote is incorporated as a placeholder, because this subsegment may or may change in the future and the subsegment is retaining the current 50 NTU criteria based on LAC 33:IX.1113.B.9.b. In the interest of clarity and transparency, the department is providing public notice and opportunity to comment on the proposed changes to the amendments of the regulation in question. The department is also providing an interim response to comments received on the initial regulation proposal.

A strikeout/underline/shaded version of the proposed rule that distinguishes original proposed language from language changed by this proposal and the interim response to comments are available on the department's website under Rules and Regulations at https://www.deq.louisiana.gov/about-ldeq/rules-regulations. The following change is to be incorporated into the Notice of Intent:

Title 33

AUTHORITY NOTE: Promulgated in accordance with R.S. 30:2074(B)(1).

HISTORICAL NOTE: Promulgated by the Department of Environmental Quality, Office of Water Resources, LR 15:738 (September 1989), amended LR 17:264 (March 1991), LR 20:431 (April 1994), LR 20:883 (August 1994), LR 21:683 (July 1995), LR 22:1130 (November 1996), LR 24:1926 (October 1998), amended by the Office of Environmental Assessment, Environmental Planning Division, LR 25:2405 (December 1999), LR 27:289 (March 2001), LR 28:462 (March 2002), LR 28:1762 (August 2002), LR 29:1814, 1817 (September 2003), LR 30:1474 (July 2004), amended by the Office of Environmental Assessment, LR 30:2468 (November 2004), LR 31:918, 921 (April 2005), amended by the Office of the Secretary, Legal Affairs Division, LR 32:815, 816, 817 (May 2006), LR 33:832 (May 2007), LR 34:1901 (September 2008), LR 35:446 (March 2009), repromulgated LR 35:655 (April 2009), amended LR 36:2276 (October 2010), amended by the Office of the Secretary, Legal Division, LR 41:2603 (December 2015), LR 42:737 (May 2016), amended by the Office of the Secretary, Legal Affairs and Criminal Investigations Division, LR 45:1178 (September 2019), LR 46:1087 (August 2020), LR 46:1555 (November 2020), LR 47:876 (July 2021), amended by the Office of the Secretary, Legal Affairs Division, LR 49:1554 (September 2023), LR 52:

Public Comments

All interested persons are invited to submit written comments on the substantive changes to WQ118. Persons commenting should reference potpourri notice 2609Pot1. Such comments must be received no later than October 28, 2026, at 4:30 p.m., and should be sent to William Little, Attorney Supervisor, Office of the Secretary, Legal Affairs Division, P.O. Box 4302, Baton Rouge, LA 70821-4302, by fax (225) 219-4068, or by E-mail to DEQ.Reg.Dev.Comments@la.gov. Copies of the proposed Rule can be purchased by contacting the LDEQ Public Records Center at (225) 219-3168. Check or money order is required in advance for each copy of WQ118. The proposed regulation is available on the Internet at https://deq.louisiana.gov/page/monthly-regulation-changes-2026%20.

Public Hearing

A public hearing will be held on October 28, 2026, at 1:30 p.m. in the Galvez Building, Oliver Pollock Conference Room, 602 N. Fifth Street, Baton Rouge, LA 70802. Interested persons are invited to attend in person or online via Microsoft Teams at https://teams.microsoft.com/meet/225581962557365?p=WA1olUFploGq8u2YOV Meeting ID: 225 581 962 557 365 Passcode: A2NL2hJ9 or by phone (872) 239-6160 using phone conference ID: 833 450 698#. Should individuals with a disability need an accommodation to participate, contact Doug Bordelon at the address given below or at (225) 219-1325.

The notice is available for inspection at the following LDEQ office locations from 8 a.m. until 4:30 p.m.: 602 N. Fifth Street, Baton Rouge, LA 70802; 508 Downing Pines Road, West Monroe, LA 71292; State Office Building, 1525 Fairfield Avenue, Shreveport, LA 71101; 1301 Gadwall Street, Lake Charles, LA 70615; 111 New Center Drive, Lafayette, LA 70508; 110 Barataria Street, Lockport, LA 70374; 201 Evans Road, Bldg. 4, Suite 420, New Orleans, LA 70123.

Department of Environmental Quality
Office of the Secretary
Legal Affairs Division

Regional Haze First Planning Period
State Implementation Plan (SIP) Revision

Under the authority of the Louisiana Environmental Quality Act, R.S. 30:2051 et seq., and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the Secretary gives notice that the Office of Environmental Assessment, Air Planning and Assessment Division, is seeking to revise the Louisiana State Implementation Plan (SIP) for Regional Haze, namely the Regional Haze First Planning Period, as required by 40 CFR 51.308 (a) and (b). (2609Pot2)

The Air Planning and Assessment Division is submitting a revision to the regional haze provisions of the Louisiana SIP, specifically for the Best Available Retrofit Technology (BART) requirements for one source, Phillips 66 – Alliance Refinery. This revision is necessary due to a change in ownership of Phillips 66 – Alliance Refinery.

LDEQ has revised the Administrative Order on Consent (AOC) to reflect the change in ownership. None of the required emission limitations or the associated recordkeeping, monitoring, testing, and reporting requirements have changed. Because the emission limitations or the associated recordkeeping, monitoring, testing and reporting requirements remain unchanged for the facility, this SIP revision meets the Clean Air Act (CAA) section 110(l) requirements.

Public Comments

All interested persons may submit written comments no later than 4:30 p.m., October 30, 2026, to Arlys Dalton, Office of Environmental Assessment, P.O. Box 4314, Baton Rouge, LA 70821-4314, or by E-mail at arlys.dalton@la.gov.

Public Hearing

A public hearing will be held on October 28, 2026, at 1:30 p.m. in the Galvez Building, Oliver Pollock Conference Room 602 N. Fifth Street, Baton Rouge, LA 70802. Interested persons are invited to attend in person, online via Microsoft Teams at https://teams.microsoft.com/meet/225581962557365?p=WA1olUFploGq8u2YOV Meeting ID: 225 581 962 557 365 Passcode: A2NL2hJ9, or by phone (872) 239-6160 using phone conference ID: 833 450 698#. Should individuals with a disability need an accommodation to participate, contact Doug Bordelon at the address given below or at (225) 219-1325.

The revision is available for review via LDEQ's electronic document management system (EDMS), AI# 174156, or at LDEQ Headquarters, 602 North 5th Street, Baton Rouge, Louisiana, 70802.

Department of Health
Board of Medical Examiners

Notice of Public Hearing
Substantive Changes to Proposed Rule;
Respiratory Therapists (LAC 46:XLV.Chapters 25 and 55)

The board published a Notice of Intent to promulgate LAC 46:XLV.Chapters 25 and 55, Respiratory Therapists in the January 2026 edition of the *Louisiana Register* (LR 52:117-122). The notice was reviewed by the Department of Justice's Occupational Licensing Review Program. As a result of OLRP review, the board proposes to amend certain portions of the proposed Rule. In §2549, the board proposes to withdraw the proposed amendment of raising the reimbursement to $75 and keep the reimbursement rate at $50. In §5507, the board proposes to withdraw the deletion of §5507(A)(4) and maintain the existing language.

The proposed amendments will align the proposed Rule with existing law. No fiscal or economic impact will result from the amendments proposed in this notice.

Comment Summary Response & Concise Statement – WQ118

Turbidity Criteria Refinement
LAC 33:IX.1113 and 1123

COMMENT 1: Under the Clean Water Act, the U.S. Environmental Protection Agency (EPA) and authorized states are required to hold a public hearing with at least 45 days' advance notice before reviewing, revising, or adopting any new Water Quality Standards (CWA 303(c)(1); 40 CFR § 25.5(b)). The time between publication of this draft rule (5/20/2026) and the public hearing (6/25/2026) was only 36 days. For future actions that fall under the Clean Water Act, the EPA asks that the public is given at least 45 days' notice of public hearings.

FOR/AGAINST No arguments necessary; comment does not suggest amendment or change to rule.

RESPONSE 1: According to the Louisiana Administrative Procedures Act, a hearing must be held no earlier than thirty-five days and no later than forty-five days after the publication of the Louisiana Register in which the notice of the intended action appears.." (Louisiana RS 49:961.B.2). CWA 303(c)(1); 40 CFR § 25.5(b) also states that the public notice may be reduced to no less than 30 days when there are no complex or controversial matters to be addressed by the hearing. The department determined that the public hearing met these requirements as appropriate.

COMMENT 2: The link referenced in the Public Comments section of the draft rule does not function properly. The link as written (https://deq.louisiana.gov/page/monthly-regulation-changes-2025%20) is not hyperlinked in the draft rule and must be copied and pasted into a search engine. When copied onto a search engine you are directed to a 404 page. This problem can be bypassed by deleting the "%20" found at the end of the link, however this is not intuitive. Also, we believe that this link should be updated to the website for regulation changes in 2026 at https://www.deq.louisiana.gov/about-ldeq/monthly-regulation-changes-2026. Please provide a correct and functioning link. The EPA also suggests adding further identifying information such as the REG and title that this document can be found under.

FOR/AGAINST No arguments necessary; comment does not suggest amendment or change to rule.

RESPONSE 2: The department addressed this error by providing the functioning

link, https://www.deq.louisiana.gov/about-ldeq/monthly-regulation-changes-2026, in the email listserv for disseminating information pertaining to regulation development sent out on May 7, 2026.

COMMENT 3: Page 1 paragraph 3 of the NOI refers to "the report" multiple times when describing Table 3. It is unclear what report this language is referring to. The EPA asks that this language is clarified by including a full reference and a link to the report in question.

FOR/AGAINST No arguments necessary; comment does not suggest amendment or change to rule.

RESPONSE 3: The completion of the department's 2025 study, described in the Notice of Intent as the basis for the proposed Rule, resulted in a report that was accepted by EPA on December 3, 2025. Full reference and link to report is provided below:
LDEQ (2025). *Developing Numeric Turbidity Criteria for Louisiana Waterbodies.* Water Planning and Assessment Division, Office of Environmental Assessment, Baton Rouge, Louisiana. https://edms.deq.louisiana.gov/app/doc/view?doc=14986295

COMMENT 4: Page 1 paragraph 3 of the NOI describes how subsegments not included in "the report" are denoted with either a footnote in Table 3 or with "N/A" depending on if the subsegment is retaining criteria established for waterbody types or has no numeric criteria. There are several subsegments listed in Table 3 that are not included in the report that have numeric criteria listed (see below for list of subsegment codes). Explain how the numeric criteria were determined for these subsegments.

- 010101
- 010201
- 010701
- 021101
- 050401
- 050402
- 050801
- 060401
- 060501
- 060801
- 060802
- 100101
- 100201
- 110201
- 110301

FOR/AGAINST No arguments necessary; comment does not suggest amendment or change to rule.

RESPONSE 4: Historic numeric criteria for those subsegments were determined without an established methodology and are outside the scope of the 2025 study and resulting report due to lack of ecoregional reference data.

COMMENT 5: Revised turbidity criteria based on ecoregion and waterbody characteristics (i.e., substrate composition) are proposed for the 8 subsegments listed below. When reviewing the status of these subsegments, none were impaired for turbidity. Because these waters are meeting the current turbidity levels necessary to support their designated uses and based on the EPA's and LDEQ's antidegradation policy, the EPA recommends these subsegments retain their current criteria.

Subsegment	Description	Impairments	Ecoregion	Current Criteria (NTU)	Recommended Criteria (NTU)
LA020103_00	Lake Boeuf	DO, pH	LMRAP	25	50
LA020202_00	Lac Des Allemands	DO	LMRAP	25	50
LA020303_00	Lake Cataouatche and Tributaries	None	LMRAP	25	50
LA070103_00	Marengo Bend-Portion within the Louisiana state line	DO	MR	25	50
LA070401_00	Mississippi River Passes - Head of Passes to Mouth of Passes; includes all passes in the birdfoot delta (Estuarine)	Fecal Coliform	MR	50	100
LA101504_00	Saline Bayou-From Larto Lake to Saline Lake (ONRW)	Mercury, Temperature	UMRAP	25	50
LA120204_00	Lake Verret and Grassy Lake	None	LMRAP	25	50
LA120404_00	Lake Penchant	None	CDM	25	50

FOR: The department should retain the current turbidity criteria of these subsegments based on the impairment status in the 2024 Integrated Report[1].

AGAINST: The department should refine criteria based on the best science

[1] LDEQ. 2024. Louisiana Water Quality Inventory: Integrated Report. Available at: https://edms.deq.louisiana.gov/app/doc/view?doc=14228058.

available.

RESPONSE 5: The proposed criteria refinements were developed with available reference data to account for local ecological attributes of naturally turbid waterbodies. USEPA guidance documents[2] on suspended and bedded sediment (SABS) criteria state, "The problem of SABS imbalance resulting from too little sediment should not be overlooked". Wetland subsidence issues in Louisiana are specifically referenced and mentions, "criteria should be sensitive to the state's efforts at arresting wetland subsidence". Because these subsegments are located in ecoregions where sediment transport is an important ecological function that influences ambient turbidity, the department believes the criteria refinements of these subsegments are appropriate.

COMMENT 6: Appropriate water quality criteria for turbidity should include not only the magnitude, but also duration and frequency components in state WQS. The EPA recommends defining and including duration and frequency components for the proposed turbidity criteria.

FOR: The department should consider adding duration and/or frequency components based on EPA's recommendation.

AGAINST: The department should not consider adding duration and frequency components to the turbidity criteria values because duration would not be appropriate for defining turbidity criteria and exceedance frequency is already established in the assessment protocol for the Integrated Report.

RESPONSE 6: Criteria are defined in 40 CFR 131.3 (b)., "*Criteria* are elements of State water quality standards, expressed as constituent concentrations, levels, or narrative statements, representing a quality of water that supports a particular use. When criteria are met, water quality will generally protect the designated use." The proposed turbidity criteria fit this definition. Current recommended turbidity criterion in EPA's Quality Criteria for Water (1986)[3] do not contain duration or frequency components. The department finds making acute/chronic duration distinctions for turbidity are not necessary in Louisiana. The department will utilize established

---

HISTORICAL NOTE: Promulgated by the Department of Environmental Quality, Office of Water Resources, LR 15:738 (September 1989), amended LR 17:264 (March 1991), LR 20:431 (April 1994), LR 20:883 (August 1994), LR 21:683 (July 1995), LR 22:1130 (November 1996), LR 24:1926 (October 1998), amended by the Office of Environmental Assessment, Environmental Planning Division, LR 25:2405 (December 1999), LR 27:289 (March 2001), LR 28:462 (March 2002), LR 28:1762 (August 2002), LR 29:1814, 1817 (September 2003), LR 30:1474 (July 2004), amended by the Office of Environmental Assessment, LR 30:2468 (November 2004), LR 31:918, 921 (April 2005), amended by the Office of the Secretary, Legal Affairs Division, LR 32:815, 816, 817 (May 2006), LR 33:832 (May 2007), LR 34:1901 (September 2008), LR 35:446 (March 2009), repromulgated LR 35:655 (April 2009), amended LR 36:2276 (October 2010), amended by the Office of the Secretary, Legal Division, LR 41:2603 (December 2015), LR 42:737 (May 2016), amended by the Office of the Secretary, Legal Affairs and Criminal Investigations Division, LR 45:1178 (September 2019), LR 46:1087 (August 2020), LR 46:1555 (November 2020), LR 47:876 (July 2021), amended by the Office of the Secretary, Legal Affairs Division, LR 49:1554 (September 2023), LR 52:

2. Will the proposed Rule affect the authority and rights of parents regarding the education and supervision of their children? No.

3. Will the proposed Rule affect the functioning of the family? No.

4. Will the proposed Rule affect family earnings and family budget? No.

5. Will the proposed Rule affect the behavior and personal responsibility of children? No.

6. Is the family or local government able to perform the function as contained in the proposed Rule? Yes.

Poverty Impact Statement

In accordance with section 973 of title 49 of the Louisiana Revised Statutes, there is hereby submitted a Poverty Impact Statement on rules proposed for adoption, amendment, or repeal. All Poverty Impact Statements will be in writing and kept on file in the state agency which has adopted, amended, or repealed rules in accordance with the applicable provisions of the law relating to public records. For the purposes of this section, the word "poverty" means living at or below 100 percent of the federal poverty line.

1. Will the proposed Rule affect the household income, assets, and financial authority? No.

2. Will the proposed Rule affect early childhood development and preschool through postsecondary education development? No.

3. Will the proposed Rule affect employment and workforce development? No.

4. Will the proposed Rule affect taxes and tax credits? No.

5. Will the proposed Rule affect child and dependent care, housing, health care, nutrition, transportation, and utilities assistance? No.

Small Business Analysis

The impact of the proposed Rule on small businesses as defined in the Regulatory Flexibility Act has been considered. It is estimated that the proposed action is not expected to have a significant adverse impact on small businesses. The agency, consistent with health, safety, environmental and economic welfare factors has considered and, where possible, utilized regulatory methods in the drafting of the proposed rule that will accomplish the objectives of applicable statutes while minimizing the adverse impact of the proposed rule on small businesses.

Provider Impact Statement

The proposed Rule should not have any known or foreseeable impact on providers as defined by HCR 170 of 2014 Regular Legislative Session. In particular, there should be no known or foreseeable effect on:

1. the effect on the staffing level requirements or qualifications required to provide the same level of service;

2. the total direct and indirect effect on the cost to the providers to provide the same level of service; or

3. the overall effect on the ability of the provider to provide the same level of service.

Public Comments

Interested persons may submit written comments via the U.S. Mail until noon, June 10, 2026, to Tavares Walker, Executive Director, Board of Elementary and Secondary Education, Box 94064, Capitol Station, Baton Rouge, LA 70804-9064. Written comments may also be hand delivered to Tavares Walker, Executive Director, Board of Elementary and Secondary Education, Suite 5-190, 1201 North Third Street, Baton Rouge, LA 70802 and must be date stamped by the BESE office on the date received. Public comments must be dated and include the original signature of the person submitting the comments.

Tavares A. Walker
Executive Director

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES
RULE TITLE: Special Education

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

There are no anticipated implementation costs or savings to state or local governmental units as a result of the proposed rule change. The proposed rule change amends LAC 28:CXV in *Bulletin 741—Louisiana Handbook for School Administrators* and LAC 28:CXXXIX in *Bulletin 126—Charter Schools* to incorporate provisions of Act 676 of the 2024 Regular Session which requires local public school governing authorities to display the Ten Commandments in each classroom. The Act authorizes compliance with its provisions through donated displays or donated funds.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

Public school systems are permitted to accept donated funding or donated displays in order to comply with the requirement that each classroom display a copy of the Ten Commandments. To the extent funding or displays are donated, local revenues or in-kind resources will increase.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS, SMALL BUSINESSES, OR NONGOVERNMENTAL GROUPS (Summary)

There are no anticipated costs or benefits to directly affected persons, small business, or nongovernmental groups as a result of the proposed rule change.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

There is no estimated effect on competition and employment as a result of the proposed rule change.

NOTICE OF INTENT

Department of Environmental Quality
Office of the Secretary
Legal Affairs Division

Turbidity Criteria Refinement
(LAC 33:IX.1113 and 1123)

Under the authority of the Louisiana Environmental Quality Act, R.S. 30:2001 et seq., and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the secretary gives notice that rulemaking procedures have been initiated to amend the Water Quality regulations, LAC 33:IX.1113 and 1123 (WQ118).

Louisiana's turbidity criteria are expressed as general and numeric criteria. In 2025, the Water Planning and Assessment Division completed a study with the objective to determine appropriate methods for developing numeric turbidity criteria

in select water bodies. Numeric criteria are established for select named water bodies and water body types. There are 239 regulatory water bodies not specifically covered in Subparts i.-v. that do not have numeric turbidity criteria values and are regulated on a case-by-case basis in reference to permitted dischargers and appropriate background conditions. Water quality assessments of turbidity are currently limited due to the absence of numeric criteria. Appropriate numeric turbidity criteria allows for a straightforward assessment of water bodies, and a clear goal for attainment of designated use support. The proposed Rule will establish numeric turbidity criteria for 168 LDEQ regulatory subsegments and refine current numeric turbidity in 27 LDEQ regulatory subsegments.

The basis and rationale for this Rule are to establish and refine numeric turbidity criteria values to protect the waters of the state. Numeric criteria will be added to a new column in Table 3. Subsegments not included in the report retaining criteria established for water body types, will be denoted with a footnote in Table 3. Subsegments not included in the report without numeric criteria will be denoted with N/A in Table 3. Implementation changes to LPDES permitting are not expected as a result of this Rule. This Rule meets an exception listed in R.S. 30:2019(D)(2) and R.S. 49:963.B(3); therefore, no report regarding environmental/health benefits and social/economic costs is required.

Title 33
ENVIRONMENTAL QUALITY
Part IX. Water Quality
Subpart 1. Water Pollution Control
Chapter 11. Surface Water Quality Standards
§1113. Criteria

A. - B.8. ...

9. Turbidity

a. Turbidity other than that of natural origin shall not cause substantial visual contrast with the natural appearance of the waters of the state or impair any designated water use.

b. Unless specified in LAC 33:IX.1123, Table 3, as a guideline, the maximum turbidity levels, expressed as nephelometric turbidity units (NTU), are established and shall apply for the following major aquatic habitat types of the state:

i. estuarine lakes, bays, bayous, and canals—50 NTU;

ii. freshwater lakes, reservoirs, and oxbows—25 NTU; and

iii. designated scenic streams and outstanding natural resource waters—25 NTU.

B.9.c. - Table 1A. ...

AUTHORITY NOTE: Promulgated in accordance with R.S. 30:2074(B)(1).

HISTORICAL NOTE: Promulgated by the Department of Environmental Quality, Office of Water Resources, LR 10:745 (October 1984), amended LR 15:738 (September 1989), LR 17:264 (March 1991), LR 17:967 (October 1991), repromulgated LR 17:1083 (November 1991), amended LR 20:883 (August 1994), LR 24:688 (April 1998), amended by the Office of Environmental Assessment, Environmental Planning Division, LR 25:2402 (December 1999), LR 26:2547 (November 2000), LR 27:289 (March 2001), LR 30:1474 (July 2004), amended by the Office of the Secretary, Legal Affairs Division, LR 33:457 (March 2007), LR 33:829 (May 2007), LR 35:446 (March 2009), amended by the Office of the Secretary, Legal Division, LR 42:736 (May 2016), amended by the Office of the Secretary, Legal Affairs and Criminal Investigations Division, LR 45:1188 (September 2019), LR 46:1550 (November 2020), LR 48:1498 (June 2022), LR 49:1553 (September 2023), amended by the Office of the Secretary, Legal Affairs Division, LR 50:1638 (November 2024), LR 52:

§1123. Numeric Criteria and Designated Uses

A. - E. ...

Table 3. Numeric Criteria and Designated Uses

A-Primary Contact Recreation; B-Secondary Contact Recreation; C-Fish and Wildlife Propagation; L-Limited Aquatic Life and Wildlife Use; D-Drinking Water Supply; E-Oyster Propagation; F-Agriculture; G-Outstanding Natural Resource Waters

Code	Stream Description	Designated Uses	Numerical Criteria							
			CL	SO_4	DO	pH	BAC	°C	TDS	Turbidity
Atchafalaya River Basin (01)										
010101	Atchafalaya River Headwaters and Floodplain—From Old River Control Structure to Simmesport; includes Old River Diversion Channel, Lower Red River, Lower Old River	A B C	65	70	5.0	6.5-8.5	1	33	440	150
010201	Atchafalaya River Mainstem—From Simmesport to Whiskey Bay Pilot Channel at mile 54	A B C	65	70	5.0	6.5-8.5	1	33	440	150
010301	West Atchafalaya Basin Floodway—From Simmesport to Butte LaRose Bay and Henderson Lake	A B C	65	70	5.0	6.5-8.5	1	33	440	N/A

Table 3. Numeric Criteria and Designated Uses A-Primary Contact Recreation; B-Secondary Contact Recreation; C-Fish and Wildlife Propagation; L-Limited Aquatic Life and Wildlife Use; D-Drinking Water Supply; E-Oyster Propagation; F-Agriculture; G-Outstanding Natural Resource Waters										
Code	Stream Description	Designated Uses	Numerical Criteria							
			CL	SO_4	DO	pH	BAC	°C	TDS	Turbidity
010401	East Atchafalaya Basin and Morganza Floodway South to Interstate 10 Canal	A B C	65	70	5.0	6.5-8.5	1	33	440	N/A
010501	Lower Atchafalaya Basin Floodway—From Whiskey Bay Pilot Channel at mile 54 to US Highway 90 bridge in Morgan City; includes Grand Lake and Six-Mile Lake	A B C D	65	70	5.0	6.5-8.5	1	33	440	N/A
010502	Intracoastal Waterway (ICWW) —Morgan City-Port Allen Route from Bayou Sorrel Lock to Morgan City	A B C D	65	70	5.0	6.5-8.5	1	33	440	75
010601	Crow Bayou, Bayou Blue, and Tributaries	A B C	80	50	5.0	6.0-8.5	1	32	350	N/A
010701	Bayou Teche—From Berwick to Wax Lake Outlet	A B C D	80	50	5.0	6.0-8.5	1	32	350	150
010801	Atchafalaya River—From ICWW south of Morgan City to Atchafalaya Bay; includes Sweetbay Lake and Bayou Shaffer	A B C	500	150	5.0	6.5-9.0	1	35	1,000	150
010802	Wax Lake Outlet—From ICWW to Atchafalaya Bay; includes Wax Lake	A B C	500	150	5.0	6.5-9.0	1	35	1,000	150
010803	Intracoastal Waterway—From Bayou Boeuf Lock to Bayou Sale; includes Wax Lake Outlet to US Highway 90	A B C	65	70	5.0	6.0-8.5	1	32	440	100
010901	Atchafalaya Bay and Delta and Gulf Waters to the State 3 mile limit	A B C E	N/A	N/A	5.0	6.5-9.0	4 [25]	32	N/A	N/A
Barataria Basin (02)										
020101	Bayou Verret, Bayou Chevreuil, Bayou Citamon, and Grand Bayou	A B C F	65	50	2.3 Mar.-Nov.; 5.0 Dec.-Feb.	6.0-8.5	1	32	430	50
020102	Bayou Boeuf, Halpin Canal, and Theriot Canal	A B C F	500	150	2.3 Mar.-Nov.; 5.0 Dec.-Feb.	6.0-8.5	1	32	1,000	50

Table 3. Numeric Criteria and Designated Uses

A-Primary Contact Recreation; B-Secondary Contact Recreation; C-Fish and Wildlife Propagation; L-Limited Aquatic Life and Wildlife Use; D-Drinking Water Supply; E-Oyster Propagation; F-Agriculture; G-Outstanding Natural Resource Waters

Code	Stream Description	Designated Uses	Numerical Criteria							
			CL	SO_4	DO	pH	BAC	°C	TDS	Turbidity
020103	Lake Boeuf	A B C	500	150	3.3 April-Sept.; 5.0 Oct.-Mar.	6.0-8.5	1	32	1,000	50
020201	Bayou Des Allemands—From Lac Des Allemands to US Highway 90 (Scenic)	A B C G	600	100	2.3 Mar.-Nov.; 5.0 Dec.-Feb.	6.0-8.5	1	32	1,320	50
020202	Lac Des Allemands	A B C	600	100	3.3 April-Sept.; 5.0 Oct.-Mar.	6.0-8.5	1	32	1,320	50
020301	Bayou Des Allemands—From US Highway 90 to Lake Salvador (Scenic)	A B C G	600	100	2.3 Mar.-Nov.; 5.0 Dec.-Feb.	6.0-8.5	1	32	1,320	50
020302	Bayou Gauche	A B C	600	100	2.3 Mar.-Nov.; 5.0 Dec.-Feb.	6.0-8.5	1	32	1,320	50
020303	Lake Cataouatche and Tributaries	A B C	500	150	3.3 April-Sept.; 5.0 Oct.-Mar.	6.0-8.5	1	32	1,000	50
020304	Lake Salvador	A B C	600	100	3.3 April-Sept.; 5.0 Oct.-Mar.	6.0-8.5	1	32	1,320	50
020401	Bayou Lafourche—From Donaldsonville to ICWW at Larose	A B C D	70	55	2.3 Mar.-Nov.; 5.0 Dec.-Feb.	6.0-8.5	1	32	500	100
020402	Bayou Lafourche—From ICWW at Larose to Yankee Canal (Estuarine)	A B C	N/A	N/A	3.8 April-Aug.; 5.0 Sept.-Mar.	6.5-9.0	1 [25]	32	N/A	50
020403	Bayou Lafourche—From Yankee Canal and saltwater barrier to Gulf of America (Estuarine)	A B C E	N/A	N/A	3.8 April-Aug.; 5.0 Sept.-Mar.	6.5-9.0	4 [25]	32	N/A	50
020501	Sauls, Avondale, and Main Canals	A B C	65	50	5.0	6.0-8.5	1	32	430	50
020601	Intracoastal Waterway—From Bayou Villars to Mississippi River (Estuarine)	A B C	N/A	N/A	4.0	6.5-9.0	1 [25]	35	N/A	50

Table 3. Numeric Criteria and Designated Uses A-Primary Contact Recreation; B-Secondary Contact Recreation; C-Fish and Wildlife Propagation; L-Limited Aquatic Life and Wildlife Use; D-Drinking Water Supply; E-Oyster Propagation; F-Agriculture; G-Outstanding Natural Resource Waters										
Code	Stream Description	Designated Uses	Numerical Criteria							
			CL	SO_4	DO	pH	BAC	°C	TDS	Turbidity
020701	Bayou Segnette—From headwaters to Bayou Villars	A B C	600	100	2.3 Mar.-Nov.; 5.0 Dec.-Feb.	6.0-8.5	1	32	1,320	50
020801	Intracoastal Waterway—From Larose to Bayou Villars and Bayou Barataria (Estuarine)	A B C	N/A	N/A	3.8 June-Aug.; 4.0 Sept.-May	6.5-9.0	1 [25]	35	N/A	50
020802	Bayou Barataria and Barataria Waterway—From ICWW to Bayou Rigolettes (Estuarine)	A B C	N/A	N/A	3.8 June-Aug.; 4.0 Sept.-May	6.5-9.0	1 [25]	35	N/A	50
020901	Bayou Rigolettes and Bayou Perot to Little Lake (Estuarine)	A B C E	N/A	N/A	3.8 April-Aug.; 5.0 Sept.-Mar.	6.5-9.0	4 [25]	35	N/A	50
020902	Little Lake (Estuarine)	A B C E	N/A	N/A	4.0	6.5-9.0	4 [25]	35	N/A	50
020903	Barataria Waterway—From Bayou Rigolettes to Grand Bayou (Estuarine)	A B C	N/A	N/A	3.8 June-Aug.; 4.0 Sept.-May	6.5-9.0	1 [25]	35	N/A	50
020904	Wilkinson Canal and Wilkinson Bayou (Estuarine)	A B C E	N/A	N/A	3.8 April-Aug.; 5.0 Sept.-Mar.	6.5-9.0	4 [25]	35	N/A	50
020905	Bayou Moreau (Estuarine)	A B C E	N/A	N/A	3.8 June-Aug.; 4.0 Sept.-May	6.5-9.0	4 [25]	35	N/A	50
020906	Bay Rambo (Estuarine)	A B C E	N/A	N/A	4.0	6.5-9.0	4 [25]	35	N/A	50
020907	Bay Sansbois, Lake Judge Perez, and Bay De La Cheniere (Estuarine)	A B C E	N/A	N/A	4.0	6.5-9.0	4 [25]	35	N/A	50
021001	Lake Washington, Bastian Bay, Adams Bay, Scofield Bay, Coquette Bay, Tambour Bay, Spanish Pass, and Bay Jacques (Estuarine)	A B C E	N/A	N/A	4.0	6.5-8.5	4 [25]	35	N/A	50
021101	Barataria Bay; includes Caminada Bay, Hackberry Bay, Bay Batiste, and Bay Long (Estuarine)	A B C E	N/A	N/A	4.0	6.5-9.0	4 [25]	35	N/A	50

Table 3. Numeric Criteria and Designated Uses A-Primary Contact Recreation; B-Secondary Contact Recreation; C-Fish and Wildlife Propagation; L-Limited Aquatic Life and Wildlife Use; D-Drinking Water Supply; E-Oyster Propagation; F-Agriculture; G-Outstanding Natural Resource Waters

Family Impact Statement

This Rule has no known impact on family formation, stability, and autonomy, as described in R.S. 49:972.

Poverty Impact Statement

This Rule has no known impact on poverty, as described in R.S. 49:973.

Small Business Analysis

This Rule has no known impact on small business, as described in R.S. 49:974.1 - 974.8.

Provider Impact Statement

This Rule has no known impact on providers, as described in HCR 170 of 2014.

Public Comments

All interested persons are invited to submit written comments on the proposed Rule. Persons commenting should reference this proposed Rule by WQ118. Such comments must be received no later than July 2, 2026, at 4:30 p.m., and should be sent to William Little, Attorney Supervisor, Office of the Secretary, Legal Affairs Division, P.O. Box 4302, Baton Rouge, LA 70821-4302, by fax (225) 219-4068, or by E-mail to DEQ.Reg.Dev.Comments@la.gov. Copies of the proposed Rule can be purchased by contacting the LDEQ Public Records Center at (225) 219-3168. Check or money order is required in advance for each copy of WQ118. The proposed regulation is available on the Internet at https://deq.louisiana.gov/page/monthly-regulation-changes-2025%20.

Public Hearing

A public hearing will be held on June 25, 2026, at 1:30 p.m. in the Galvez building, Oliver Pollock Conference Room, 602 N. Fifth Street, Baton Rouge, LA 70802. Interested persons are invited to attend in person or online via Microsoft Teams at: https://teams.microsoft.com/meet/22658358528047?p=xJ5QWwZR9eeRy8uMMx using Meeting ID: 226 583 585 280 47 and passcode: uZ9VL2dQ or by phone (872) 238-6160 using phone conference ID 566

777 492#. Should individuals with a disability need an accommodation in order to participate, contact Doug Bordelon at the address given below or at (225) 219-1325.

The proposed Rule is available for inspection at the following LDEQ office locations from 8 a.m. until 4:30 p.m.: 602 N. Fifth Street, Baton Rouge, LA 70802; 508 Downing Pines Road, West Monroe, LA 71292; State Office Building, 1525 Fairfield Avenue, Shreveport, LA 71101; 1301 Gadwall Street, Lake Charles, LA 70615; 111 New Center Drive, Lafayette, LA 70508; 110 Barataria Street, Lockport, LA 70374; 201 Evans Road, Bldg. 4, Suite 420, New Orleans, LA 70123.

General Counsel

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES
RULE TITLE: Turbidity Criteria Refinement

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed rule change is not anticipated to impact the costs or savings to the state or local governmental units.

The proposed rule change will refine turbidity criteria in the surface water quality standards (LAC 33:IX.1113.B.9). Numeric values will be added to a new column in Table 3 (LAC 33:IX.1123), and the text in the turbidity section of the general criteria will be streamlined (LAC 33:IX.1113.B.9.a-c).

Louisiana's turbidity criteria have two main components: narrative criteria (LAC 33:IX.1113.B.9.a) and numeric criteria (LAC 33:IX.1113.B.9.b). The numeric criteria are written in terms of nephelometric turbidity units (NTU) and are established for select named water bodies and water body types (LAC 33:IX.1113.B.9.b.i-iv). The current numeric criteria apply to 248 out of 487 Louisiana Department of Environmental Quality (LDEQ) regulatory subsegments. Subsegments not specifically covered in Subparts i-v do not have established numeric criteria values and are regulated with narrative criteria on a case-by-case basis. Numeric turbidity criteria allow for straightforward and data-driven assessment of water bodies, and a clear goal for attainment of impairments. The refinements in this proposed rule change will establish new numeric turbidity criteria in 168 regulatory subsegments, resulting in 416 out of 487 regulatory subsegments with numeric turbidity criteria.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed rule change is not anticipated to impact revenue collections of state or local governmental units.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS, SMALL BUSINESSES, OR NONGOVERNMENTAL GROUPS (Summary)

The proposed rule change is not anticipated to impact costs or economic benefits to directly affected persons, small businesses, or non-governmental groups.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

LDEQ does not anticipate any impact on competition and employment in the public or private sectors as a result of this proposed rule change.

NOTICE OF INTENT

Office of the Governor
Board of Pardons and Committee on Parole

Medical Marijuana Usage While Under Parole Supervision
(LAC 22:XI.902)

In accordance with the provisions of the Administrative Procedure ACT (R.S. 49:950) and pursuant to R.S. 15:573.1, the Committee on Parole hereby gives notice of its intent to amend LAC XI Chapter 9 by creating a new section titled §902 Medical Marijuana Usage While under Parole Supervision. The creation of §902 is to explain the process a parolee must complete and submit to the committee to determine if they are able to use medical marijuana while under parole supervision.

Title 22
CORRECTIONS, CRIMINAL JUSTICE AND LAW ENFORCEMENT
Part XI. Committee on Parole
Chapter 9. Conditions of Parole

§902. Medical Marijuana Usage While Under Parole Supervision

A. *Medical Marijuana*—marijuana given legally through a state-approved pharmacy.

B. *Valid Medical Recommendation*—a current written recommendation from an authorized clinician licensed in Louisiana.

C. Under R.S. 40:1046, individuals with specific medical needs are allowed to use marijuana if a Louisiana-licensed clinician recommends it. Although marijuana is legal in Louisiana, it remains illegal under federal law. The Committee on Parole has the power to approve or deny its use for parolees.

1. To determine eligibility, the parolee must provide their supervising officer with the following information:

a. a copy of the clinician's recommendation;

b. a receipt or printout showing they are signed up with a Louisiana dispensary; and

c. an advanced written notice to their supervising officer of their intention to use medical marijuana.

2. Once the required documentation is verified, the supervising officer will submit the information to the committee for review.

3. The committee will base its decision on the following reasons:

a. the crime(s) the individual is on parole for;

b. public safety concerns;

c. the safety concerns of the parolee; and

d. the rules and regulations of the parolee's treatment program if applicable.

4. If approved, the parolee will be exempt from THC detection on routine drug screens but will still be screened for other illegal drugs.

D. A positive drug test for THC alone will not result in a revocation if medical use is approved and properly documented.

1. Evidence of non-compliance, diversion, or unauthorized use shall be grounds for sanctions, up to and including revocation of parole.
