**LDEQ's EnviroSchool to host webinar: LDEQ's Air Emissions Inventory and Other Air Emissions Data**

**BATON ROUGE** – The Louisiana Department of Environmental Quality's (LDEQ) EnviroSchool will host a webinar on LDEQ's Air Emissions Inventory and Other Air Emissions Data. The webinar will provide an introduction to emissions inventories, a detailed look at Louisiana's emissions inventory data collection tool and other air emissions data resources.

**When: 10 a.m. Thursday, Dec. 9**

**Online: Live Webinar Only**

The Air Quality Assessment and Planning Division is responsible for developing comprehensive criteria and toxic pollutant emissions inventories for the state of Louisiana. Emissions inventory data is used for a variety of planning, regulatory and reporting purposes both locally and nationally.

This division works closely with the regulated community, trade groups and other state and federal agencies to develop and maintain high quality and current emissions data. Regulated point sources of criteria air pollutants must submit an inventory of annual criteria pollutant emissions pursuant to the requirements of LAC 33:III.919. Detailed annual emissions data are maintained on point sources going back to 1984, with the number of point sources changing each year.

The EnviroSchool program at LDEQ is the environmental education outreach arm of the agency and provides training for communities, businesses and other organizations on a number of regulatory topics. The program aims to inform attendees about the environmental regulatory process and to maintain and improve environmental compliance.

The workshops are free and open to the public. If you are interested, please feel free to register for any of our workshops. For more information, go to <http://deq.louisiana.gov/page/enviroschool> or email EnviroSchool at [Enviroschool@la.gov](mailto:Enviroschool@la.gov).
